Trees, Shrubs and Hardy Plants
ONCE more, in presenting our catalogue, we greet our customers and friends. We are sure you will find this handbook more helpful than ever before. As in the past, we have endeavored to eliminate inferior varieties, adding newer and rarer sorts that are really desirable.

The descriptions are brief, but we believe they are accurate, and that the plants will fully justify them when properly cared for.

We thank the people who have so generously patronized us in the past and so kindly expressed approval, not only of the quality of our stock but also of our methods of packing, and assure them that our standards of quality and thorough packing are even higher now than ever. From a very small beginning in 1894, with less than 1 acre, our nursery has grown until it now covers over 700 acres of land, of which there are 300 acres under cultivation at all times. It is not our ambition just to have the very largest nursery in the country, but we do want to increase the number of varieties that we grow and to maintain one of the largest collections of ornamental nursery stock in the United States, as we have in the past.

We take this opportunity to extend a cordial invitation to the readers of this catalogue to visit our nursery. We feel sure that a pleasant surprise will be experienced. When in this neighborhood, do not fail to call upon us.

NORTH ABINGTON, MASS.
EVERGREEN TREES

THERE are no more beautiful things in nature than well-grown, well-cared-for Evergreen Trees. They are gracious and cool-looking in summer and cozy and comfortable in winter, adding just the proper touch of green amid the ice and snow to heighten the beauty of our New England landscapes. We have always grown a great variety of Evergreens and have many acres devoted to them where they are carefully tended from seedlings and grafts to bushy, well-developed trees. In order to make them surer to grow and easy to handle when out of the ground, we transplant them frequently, to produce a ball of thread-like roots which will hold the soil firmly and allow them to be shipped and replanted with the least possible check and every assurance that they will live and prosper.

There is no end to their uses, just as there is no end to their infinite variety. Probably the owner of a small place will find best use for the dwarfer, slow-growing types which he can nestle around the foundation of his house, or group artistically at the corners of his steps, or in front of the porch. The larger place must have them for fine foliage groups, for windbreaks, for enclosing private portions of the grounds, for special formal treatment of various parts of the garden.

ABBREVIATIONS

Denoting Varieties Suitable for Seashore Planting: (t).
Denoting Rapidity of Growth: r, rapid; m, medium; s, slow; v, vigorous.
Denoting Size: L, large; M, medium; S, small; D, dwarf; VD, very dwarf.

ABIES • Fir

A large family of shapely trees with beautiful foliage, usually growing to great height, and in the first twenty-five or thirty years are most ornamental, attaining great picturesqueness with age. Firs should be planted as individual specimens or as a screen. They should not be used in foundation plantings.

Abies concolor. White Fir. (Lm) A very hardy tree from the Rocky Mountains, with foliage of varying shades of dark green and blue. It grows rapidly and withstands heat and drought. As a single specimen, it is one of the most graceful and perfect trees, and the showiest of all the Firs. 8 to 6 ft., $15 each; 4 to 5 ft., $12 each; 3 to 4 ft., $10 each.

A. fraseri. Fraser Fir. (Lr) Similar in appearance to the Balsam Fir, which does not grow satisfactorily in Massachusetts, but a superior tree in this climate and farther south because of its darker foliage. 3 to 4 ft., $6.50 each; 2 to 3 ft., $5 each.

CHAMÆCYPARIS

Japan Cypress

This family includes some of the most graceful and beautiful trees in Nature. Their soft feathery foliage is particularly attractive and they make splendid backgrounds for other planting. In smaller sizes they do well in window-boxes, are excellent for small formal effects, and grow well in tubs.

Chamaecyparis obtusa gracilis. Slender Hinoki Cypress. (VDs) A very handsome, slow-growing, bushy evergreen, with dense, dark, extremely vivid foliage. Unusually attractive. 2 ft., $5 each.

Five or more plants of one kind will be furnished at 10 rate
CHAMECYPARIS, continued

C. pisifera. Sawara Retinospora. (Lr) An upright, graceful tree, slightly pendulous at the end of the branches. In northern latitudes it should be planted in sheltered locations. 3 to 3 1/2 ft., $5 each; 2 1/2 to 3 ft., $4 each; 2 to 2 1/2 ft., $3.50 each.

C. pisifera aurea. Golden Sawara Retinospora. (Lr) Like the preceding, except for its beautiful golden foliage. 3 to 3 1/2 ft., $3 each; 2 1/2 to 3 ft., $4 each; 2 to 2 1/2 ft., $3.50 each.

C. pisifera filifera. Thread Retinospora. (Ms) A most ornamental tree, with deep green, string-like, drooping foliage which it retains at all seasons of the year. Best of all, it thrives in more or less shady places, and is extremely effective in foundation plantings and for massing with other evergreens. 3 to 3 1/2 ft., $6.50 each, $90 for 10; 2 1/2 to 3 ft., $5.50 each, $80 for 10; 2 to 2 1/2 ft., $5 each, $40 for 10.

C. pisifera filifera aurea. Golden Thread Retinospora. (Ms) We like this tree the best of the Golden Cypresses. It is very much like the Thread Retinospora in style of plant but is even slower in growth, and keeps its rounded, compact form for many years. The foliage is bright golden yellow which makes a beautiful contrast with other evergreens. 3 to 3 1/2 ft., $12 each; 2 1/2 to 3 ft., $9 each; 2 to 2 1/2 ft., $7 each; 18 to 24 in., $5 each.

C. pisifera plumosa. Plume Retinospora. (Ms) Soft, feathery, light green foliage, and very graceful. To keep it from becoming open and ragged it should be sheared in the middle of June. All Japan Cypresses are splendid for plantings around the foundation of the house, and this variety is particularly fine for that purpose. 3 to 3 1/2 ft., $6 each, $87 for 10; 2 1/2 to 3 ft., $4.50 each, $40 for 10; 2 to 2 1/2 ft., $3.50 each, $30 for 10; 18 to 24 in., $2.75 each, $25 for 10.

C. pisifera plumosa aurea. Goldenplume Retinospora. (Ms) A golden form of the preceding. It is one of the most popular evergreens, particularly liked for its rich yellow foliage, which shows up well among the more somber evergreens. 3 to 3 1/2 ft., $5.50 each, $80 for 10; 2 1/2 to 3 ft., $4.50 each, $40 for 10; 2 to 2 1/2 ft., $3.50 each, $30 for 10; 18 to 24 in., $2.75 each, $25 for 10.

C. pisifera plumosa lutescens. Dwarf Retinospora. (Vds) A dwarf, globe-shaped plant, with feathery foliage of a lighter color than the preceding. It is valuable for its low covers and the extra color tone it brings to the evergreens. 2 1/2 ft., $7 each; 2 ft., $5.50 each; 18 in., $4.50 each.

C. pisifera plumosa sulphurea. Sulphurplume Retinospora. (Ms) Similar to C. pisifera plumosa aurea, but the color is more brilliant, and is retained throughout the year. Prices and sizes same as C. pisifera pisifera plumosa aurea.

C. pisifera squarrosa. Moss Retinospora. (Ms) An ornamental Japanese tree, with fleshy, bluish gray foliage, quite distinct from that of other evergreens. It should be planted in somewhat sheltered positions and its unusual beauty will repay the attention given it. 2 ft., $5 each; 18 in., $4 each.

JUNIPERUS • Juniper

Stately trees which are very effective in garden and landscape. There are low forms which make splendid covers for banks and rough ground. Junipers are invaluable for formal effects, many of them having the fine, columnar form required for architectural emphasis. They are very hardy.

This Catalogue does not adequately illustrate the quantities of evergreens we grow and have to offer in various sizes. If you are looking for a large number of evergreens for hedge or screen purposes, let us quote on your requirements. If you are looking for sizes not mentioned in the Catalogue, we can frequently furnish both smaller and larger sizes. If you will write us we will be very glad to tell you what sizes we can furnish, and at the same time give you the prices.
**JUNIPERUS**, continued

*J. communis depressa. Common Spreading Juniper.* Very hardy variety with light bluish foliage. It will live in light, sandy soil and withstand severe exposure. Splendid for rock gardens and locations where broad, low foliage effects are desired. 2 1/2 to 3 ft., $5.50 each; 2 to 2 1/2 ft., $4 each; 18 to 24 in. spread, $3.25 each.

*J. communis depressa plumosa. Plumed Prostrate Juniper.* A variety of the preceding with feathery foliage which turns rich bronzy green in winter and is exceedingly handsome for similar uses. 15 to 18 in., $3 each, $24 for 10.

*J. communis hibernica. Irish Juniper. (Mm)* A slender, columnar tree with bluish green foliage. Much used for border planting. A most attractive species when planted among other evergreens and in spots sheltered from severe winds. 4 to 4 1/2 ft., $6.50 each, $60 for 10; 3 to 3 1/2 ft., $5 each, $45 for 10; 2 1/2 to 3 ft., $4 each, $36 for 10; 2 to 2 1/2 ft., $3 each, $27 for 10.

*J. communis suecica. Swedish Juniper. (Mm)* Very similar to the Irish Juniper, but harder, and its branches droop slightly, giving it a most graceful and informal appearance. 3 to 3 1/2 ft., $5.50 each, $50 for 10; 2 1/2 to 3 ft., $4.50 each, $40 for 10; 2 to 2 1/2 ft., $3.50 each, $33 for 100.

*J. excelsa stricta. Spiny Greek Juniper.* Very ornamental, narrow, dense tree of erect growth, with bristly gray-green foliage. 18 to 24 in., $4 each, $36 for 10; 15 to 18 in., $3 each, $27 for 10.

*J. horizontalis. Creeping Juniper.* A splendid plant for banks, rocky slopes, and rock gardens, making a broad, dense mat on the ground. It is often found growing wild, both in swamps and on dry sand-dunes, showing its wide range of adaptability. 2 to 2 1/2 ft., $5.50 each, $52 for 10; 18 to 24 in., $4.50 each, $42 for 10.

*J. japonica. Japanese Juniper.* Low and shrubby, with branching branches and needle-like leaves. A very decorative and hardy evergreen for many uses. 18 to 24 in., $5.50 each, $50 for 10.

*J. sabina. Savin. (Vds) A half-erect plant, eventually becoming 6 to 8 feet high. Good for rockwork. Its graceful stature and unchanging deep green foliage adds a solid and enduring tone to a mixed planting. 2 to 2 1/2 ft., $5 each; 18 to 24 in., $4 each, $36 for 10; 15 to 18 in., $3 each, $27 for 10.

*J. sabina tamariscifolia. Tamarix Savin. (Vds)* A low, dense, trailing plant of very neat habit, clothed with bright, gray-green foliage. Excellent on banks or rockwork. 18 to 24 in., $5.50 each; 15 to 18 in., $4 each.

*J. virginalis globosa. Globe Chinese Juniper.* A dwarf, very hardy Chinese Juniper with rich green foliage which keeps bright and fresh all season, making clean, fresh ornamental specimens for formal or informal use in the garden or in tubs. 18 to 24 in., $7.50 each; 15 to 18 in., $5 each.

*J. virginiana. Rededar. (Mm)* A native common in New England, which should be more generally planted. It is of pyramidal shape, with bright, rich green foliage. Very hardy, thriving in partial shade, in light sandy soils, and will withstand severe exposures. It is very useful for formal gardens giving a grace and dignity that cannot be supplied by any other hardy tree. 5 to 6 ft., $9 each; 4 to 5 ft., $6.50 each, $60 for 10; 3 to 4 ft., $4.50 each, $42 for 10.

*J. virginiana glauca. Silver Rededar. (Mm)* One of the handsomest forms of the hardy Rededar, which is a little denser in habit than the common Red Cedar and has silvery gray foliage which keeps its color all year. 2 1/2 ft., $6 each; 2 ft., $4.50 each.

Experienced packers will ship your material so that it will arrive in perfect condition
PSEUDOTSUGA • Douglas Fir

This is a very small family of trees and seems to combine the characters of both the spruces and the hemlocks. We list only one kind, a very highly desirable and popular tree.

Pseudotsuga douglasii. Douglas Fir. (Lr) A magnificent tree, growing to great height and of majestic appearance when mature. Beautiful in shape and texture when small. Dark bluish green foliage. It grows rapidly and is healthy. Deserves a place on every estate. 4 to 5 ft., $9 each; 3 to 4 ft., $6.50 each, $60 for 10; 2 to 3 ft., $4.50 each, $40 for 10.

PINUS • Pine

Perhaps the best-known and most popular of all the evergreens, these noble trees are adaptable to many purposes. They are unusually symmetrical in their earlier years and develop a rugged strength with age that is comparable only to that of the oaks.

†Pinus montana mughus. Mugho Pine. (Ds) Very valuable where a low, dense, evergreen growth is desired. Foliage deep green. Very hardy. A most useful shrub for lawn decoration, for rockwork, or covering hillsides. It grows broader than it is tall, 18 to 24-in. spread, $4 each; 15 to 18-in. spread, $3.50 each, $30 for 10; 12 to 15-in. spread, $2.75 each, $25 for 10.

†P. nigra. Austrian Pine. (Lr) A tree of considerable size, with bold, long, dark green foliage. A vigorous, rugged grower, thriving in ordinary soil, in more or less unfavorable situations and by the seashore. Probably no evergreen will withstand so much exposure as the Austrian Pine. 3 to 4 ft., $6.50 each, $60 for 10; 2 to 3 ft., $4.50 each, $42 for 10.
TAXUS

T. canadensis. Canada Yew. (Dv) A prostrate evergreen with wide-spreading, slender branches, occasionally reaching a height of 5 feet. Dark green foliage and showy, deep crimson berries. This is a hardy native Yew which thrives in partial shade. 2-ft. spread, $4.50 each; 18-in. spread, $3.50 each; $33 for 10.

T. cuspidata. Japanese Yew. (Sm) A compact, spreading variety with attractive, dark green foliage. It is valuable for many locations and is perfectly hardy. It makes attractive, open-topped shrubs or bush-like trees handsome at all seasons, but especially in spring, when its black-green winter foliage is covered with tassels of brilliant yellow-green new growth. In early autumn it sparkles with its myriad bright rose-red fruits. 2½ to 3-ft. spread, $12 each; 2 to 2½-ft. spread, $7.50 each; $70 for 10; 18 to 24-in. spread, $5 each, $45 for 10; 15 to 18-in. spread, $3.75 each, $35 for 10.

T. cuspidata capitata. Upright Japanese Yew. (Sm) This is the upright-growing or pyramidal form of the Japanese Yew. It is rather open in growth with rich, dark green foliage, almost black, and exquisitely beautiful when covered with yellow-green tips of new growth in the spring. It makes a wonderful hedge, and may be used in massing with other evergreens or as a specimen to good effect. It is one of the most desirable evergreens for any purpose and should be planted liberally. 2½ to 3 ft., $10 each; 2 to 2½ ft., $8 each; 18 to 24 in., $6 each, $57 for 10; 15 to 18 in., $4 each, $38 for 10.

T. cuspidata nana. Dwarf Japanese Yew. (Ds) A form of the above with short, dark green foliage which is unchanging throughout the year. A very hardy, dwarf hedge plant of unsurpassed beauty and permanence. It withstands clipping well, and will thrive in unfavorable locations where other evergreens perish. For sheer beauty of color, texture and tassels as well as health and longevity, it is one of the most useful and valuable ornamental trees in cultivation. 24 to 30 in., $18 each; 21 to 24 in., $12 each; 18 to 21 in., $8 each, $75 for 10.

T. stroboc. White Pine. (Lr) Soft, light silvery green foliage. Highly ornamental when planted singly or in groups. A lofty, noble, native tree. 5 to 6 ft., $10 each; 4 to 5 ft., $6 each, $55 for 10; 3 to 4 ft., $4 each, $36 for 10; 2 to 3 ft., $3 each; $27 for 10.

T. sylvestris. Scotch Pine. (Lr) Desirable for its very rapid growth and adaptability to most soils. It has an uneven, shaggy, and picturesque habit of growth as it matures, with silvery gray-green foliage. The bark is brownish red. 5 to 6 ft., $8 each, $79 for 10; 4 to 5 ft., $5, $50 each, $50 for 10; 3 to 4 ft., $4 each, $35 for 10; 2 to 3 ft., $3 each, $25 for 10.

There is much demand for Scotch Pines in the smaller sizes, in order that a fairly large quantity may be purchased at small cost to be planted in bleak, exposed situations and allowed to grow into windbreaks and screens, on account of their rapidity in growth.

We offer small trees which have already been twice transplanted and are splendid, stocky, little plants. These will be wrapped in bundles of 10.

TAXUS • Yew

The Yews are famous trees, never very large, but they attain great nobility and dignity, living almost forever. Their dark green, almost black foliage is supremely beautiful, and their bright red berries are a unique feature of evergreen trees. They are admirably adapted to hedges or as specimens, and if you like that sort of thing, they may be sheared into very formal shapes.

Taxus baccata aurea. Golden English Yew. The new foliage is rich golden yellow in June, gradually darkening until in the autumn and winter it is a rich vivid green. We highly recommend it as a beautiful, dignified permanent tree. 15 to 18 in., $3.50 each, $12.50 for 10; 12 to 15 in., $3 each, $27 for 10.

T. baccata repandens. Spreading English Yew. (Ds) Of a graceful, spreading form; unchanging foliage of a beautiful shade of dull bluish green. Very hardy and desirable. 18 to 24 in. spread, $7 each; 15 to 18-in. spread, $5 each.

T. baccata washingtoni. Washington Yew. (Ds) Fine golden foliage; handsome and rare; very hardy. 2½ ft., $7 each.
THUYA • Arborvitae

These are slender, rather formal trees much used in landscape and decorative work. There are many fine dwarf forms, for tub or specimen use, and these may be kept any shape or height desired for many years, as they endure shearing and pruning well.

†Thuya occidentalis. American Arborvitae. (Mr)
The common, upright, flat-leaved evergreen, so commonly used as single specimens and for hedges and windbreaks everywhere. May be kept at any height by shearing. Thrives on moist, as well as dry land. 5 to 6 ft., $7.50 each; 70 to 10; 4 to 5 ft., $5.50 each, $50 for 10; $450 per 100; 3 to 4 ft., $4 each, $35 for 10, $300 per 100.

We grow hundreds of these in each size and can quote even better prices on large quantities.

T. occidentalis compacta. Parsons Arborvitae. A dwarf, hall-shaped form of the above with the light green foliage. 3 ft., $6 each; 2 ft., $4 each.

†T. occidentalis douglasii pyramidalis. Douglas Pyramidal Arborvitae. (Mm) A slender, pyramidal variety of symmetrical outline, with dark fern-like foliage. 4 to 5 ft., $7 each; 3 to 4 ft., $5 each, $48 for 10; 2½ to 3 ft., $4.50 each, $40 for 10.

T. occidentalis ellwangeriana. Tom Thumb Arborvitae. (Sm) Low, broad, compact variety with dense foliage. Dwarf and very graceful. 3 to 4 ft., $5.50 each, $52 for 10; 2½ to 3 ft., $4.50 each, $40 for 10.

T. occidentalis globosa. Globe Arborvitae. (VDs) A low, slow-growing, dense, globe-shaped variety that is useful for border planting and very satisfactory for low-growing hedges. Very hardy and especially ornamental. 2 to 2½ ft., $4 each, $35 for 10; 18 to 24 in., $3 each, $27 for 10; 15 to 18 in., $2.50 each, $22.50 for 10.

T. occidentalis hoveyi. Hovey Arborvitae. (Ds) Another low, new, formal form, with brighter foliage of golden tinge. It is quite hardy but not so dwarf as T. occidentalis globosa. 3 ft., $4.50 each, $40 for 10; 2 ft., $2.75 each, $25 for 10; 18 in., $2.50 each, $22.50 for 10.

†T. occidentalis pyramidalis. American Pyramidal Arborvitae. (Mr) A very densely branched variety of most distinct columnar growth, with rich, dark glossy green foliage that does not change appreciably in color during the winter months. This is one of the very best Arborvitae, and is very satisfactory for hedges of medium height for foundation plantings, and for use in tubs. We recommend it very highly. 4 to 5 ft., $9 each; 4 to 4½ ft., $8; 3½ to 4 ft., $6.50 each, $63 for 10, $600 per 100; 3 to 3½ ft., $5.50 each, $52 for 10, $480 per 100; 2½ to 3 ft., $4.50 each, $40 for 10.

We will gladly quote quantity prices to those interested in larger quantities than those quoted here.

Evergreens for Foundation Planting

We recommend the following varieties:

Chamaecyparis (Japan Cypress) in variety.
Junipers (Juniper) in variety.
Pinus montana mughus (Mughoo Pine).
Taxus (Yew) in variety.
Thuya (Arborvitae) in variety.

Do not overlook the Evergreen Shrubs and Rhododendrons which mix splendidly with plantings of Evergreens, particularly on the borders.

Pseudotsuga douglasii. Blue-green adorned with silvery tips in spring. See page 3

THUYA, continued

T. occidentalis pumila. Green Globe Arborvitae. (VDs) A very dense, compact form with dark green foliage. 15 to 18 in., $3.25 each; 12 to 15 in., $2.75 each.

T. occidentalis reidi. Reid Arborvitae. A low, bushy form, with dark green foliage, good for use in the foreground of evergreen plantings. 2 to 2½ ft., $5.50 each, $52 for 10; 18 to 24 in., $4.50 each, $42 for 10.

T. occidentalis rosenthali. Rosenthal's Arborvitae. An erect, columnar, compact tree, with dark green, lustrous foliage. Useful for formal plantings or specimens. 3 to 3½ ft., $7 each; 2½ to 3 ft., $7 each; 2 to 2½ ft., $7 each; 18 to 24 in., $6 each, $57 for 10.

T. occidentalis vernaeneana. Vernaene Arborvitae. (Sm) A very choice variety of dense habit, with foliage light golden tinge of green. One of the largest and hardest of all the Arborvitae, and is particularly good for screens and tall hedges. 5 to 6 ft., $10 each; 4 to 5 ft., $8 each, $76 for 10; 3 to 4 ft., $6 each, $57 for 10; 2 to 3 ft., $4 each, $36 for 10.

†T. occidentalis wareana. Ware Arborvitae. (Mv) A very hardy variety with dark steel-gray-green foliage which retains its color all winter. It forms a broad, dense bush, and, like all other Arborvitae, it is valuable for foundation planting. It also makes a desirable broad hedge of medium height which withstands hard shearing. A most satisfactory variety. 3 to 3½ ft., $7 each; 2½ to 3 ft., $5 each, $45 for 10; 2 to 2½ ft., $4 each, $36 for 10; 18 to 24 in., $3.50 each, $33 for 10.

T. orientalis. Oriental Arborvitae. The least hardy of all the Arborvitae and should not be planted north of Boston, but will do well in protected places south of there. The foliage is very soft and of an attractive green during the summer months. 2½ to 3 ft., $3.25 each, $27.50 for 10; 2 to 2½ ft., $2.75 each, $25 for 10; 18 to 24 in., $2.25 each, $20 for 10.
**Evergreen Trees**

**TSUGA • Hemlock**

No doubt the Hemlock is the most graceful and the best loved of our native evergreens. A sight of one or a group of them, bending under the winter snow, is a picture never to be forgotten. They grow rapidly and in their early years are amenable to clipping and training, forming dense hedges or formal shapes. As they attain age, they form lofty, dignified trees of a magnificence equaled by few things in the world.

*Tsuga canadensis*. Common Hemlock. (Lr) No evergreen in our large collection is more lovely than the Hemlock. Its graceful branches sway with every breeze, making a charming picture whether planted singly or in a group. The Hemlock is the finest North American evergreen, and is always a source of joy and satisfaction to those who are wise enough to plant it freely. It makes a broadly pyramidal, medium-sized tree of dense growth, with rich green foliage and more or less drooping branches, giving a particularly graceful effect to the whole. It is excellent as a single lawn tree, for foundation planting when it is young, or for hedge purposes. Beautiful soft green the year round. Will not thrive in particularly bleak situations or near the salt water. We cut back our Hemlocks so that all the plants we offer are bushy and compact. 4 to 5 ft., $10 each, $95 for 10; 3½ to 4 ft., $8 each, $75 for 10; 3 to 3½ ft., $6 each, $55 for 10; 2½ to 3 ft., $4.50 each, $42 for 10; 2 to 2½ ft., $3.50 each, $33 for 10.

*T. caroliniana*. Carolina Hemlock. An attractive tree with dark green foliage and pendulous branches. A trifle more open and thin in growth and habit than the Common Hemlock. 4 ft., $10 each; 3 ft., $6 each, $57 for 10; 2 ft., $4.50 each, $42 for 10.

*T. diversifolia*. Japanese Hemlock. This variety has shorter foliage than the Canada or Common foliage and is a very desirable evergreen. 2 to 2½ ft., $6 each; 18 to 24 in., $5 each, $48 for 10; 15 to 18 in., $4 each, $36 for 10.

**Planting Suggestions**

All our evergreens are shipped with the roots in a ball of earth securely wrapped in burlap. It is important not to let this ball of earth become dry. When planting, be sure to dig a hole large and deep enough to receive ball without breaking or forcing. Remove the burlap before filling in with good soil. If the ground is dry, the hole should be partly filled with well-trodden earth and then filled with water. When the water has soaked in, put in more earth and more water, repeating the process until completed. If a slight depression is left about the base of the plant, it will help in future watering.

All newly planted evergreens should be made as firm as possible, that is, do not hesitate to tread the soil on the surface of the ground or to tamp it with a stick until it is very firm. Planted in this way, the plant is well anchored and not likely to be loosened by strong winds or heaved out by frost.

---

Gold Medal presented to the Bay State Nurseries by the Massachusetts Horticultural Society at the Centennial Flower Show in Boston, March, 1929, for our Rock Garden exhibit.
EVERGREEN SHRUBS

A group of both small and large shrubs, with firm, hard leaves which are retained over winter. Most of them bloom beautifully, and some of them, the Rhododendrons and Kalmias, are most showy, while others, Daphne, for example, are deliciously fragrant. They enjoy, as a rule, the light shade of nearby walls or trees, and thrive on a north slope where the winter sun does not damage their leaves, especially if slightly protected from hard, freezing winds. Most of them detest lime and should be grown in leaf-mold, mixed with peat, or some light soil not contaminated with lime or limestone.

AZALEA

Azalea amœna. *Amœna Azalea.* A dwarf, much-branched shrub with double purplish red flowers in May. It is especially adapted for edging walks and garden borders. Should be planted in sheltered positions and will abundantly repay care and protection. Not likely to succeed in severe climates north of Boston. 18 to 24 in., $4 each, $36 for 10.

BERBERIS • Barberry

The Evergreen Barberries are among the handsomest plants in cultivation. They are compact and prickly and have a fine glossy sheen comparable to the hollies. The two varieties we offer are hardy and suffer little or no damage from the winter sun.

Berberis verruculosa. *Warty Barberry.* The Holly-like Barberry would be a much better name for this charming dwarf plant, with curled, spined leaves of richest glossy green above but silvery white on the undersides. The flowers are yellow and fragrant and make a most delightful picture nestled among the dark foliage in spring. It likes a sheltered spot, growing beautifully in shade or sun, and can be used to advantage as a low hedge or edging to taller shrubs. We know of no more beautiful little shrub than this, and suggest that it be tried in shady spots in the rock garden or in any other situation where its year-round beauty can be enjoyed. 6 to 9 in., $1.50 each, $13.50 for 10.

BUXUS

Buxus sempervirens suffruticosa. *True Dwarf Box.* A well-known dwarf edging plant, often used for bordering flower-beds. The plants we offer are very stocky. 10 to 12 in., B&B, $1.60 each, $15 for 10; 8 to 10 in., B&B, dense tops, $1.35 each, $12.50 for 10; 6 to 8 in., 50 cts. each, $4.50 for 10, $40 per 100.

CALLUNA • Heather

These plants should be more generally known. They are handsome, small shrubs of the easiest possible culture, well adapted to borders of evergreen shrubberies and for dry slopes and sandy banks; also growing well in ordinary soils. The varieties named herewith are hardy and bloom continuously from July to September. They are par-
Evergreen Shrubs

THE BAY STATE NURSERIES

Euonymus radicans vegetus. Green all winter long.

CALLUNA, continued
ticularly desirable for rockeries, and although they prefer a sunny location, they also grow in swamps and in partial shade. The cut branches last in good condition for many weeks.

We have ten other varieties of Heather which are not described here, and will be glad to send a list of them to any one who is interested in this wonderful class of plants.

Calluna vulgaris. Heather. A low, bushy shrub, with tiny clustered leaves and slender, erect spikes of small pink flowers, which are borne profusely in late summer. Extremely pretty and quite unusual.

Prices same as Calluna vulgaris.

C. vulgaris alba. White Heather. Exactly like the preceding, except its flowers are white, and makes a charming combination with it either planted or cut.

C. vulgaris alba elata. Tall White Heather. Like the White Heather but taller and not so compact.

C. vulgaris alporti. Alport Heather. Of more vigorous growth than the common Heather and the flowers are rosy carmine. One of the best-loved varieties. 6 to 8 in., 75 cts. each, $6 for 10.

C. vulgaris aurea. Golden Heather. Similar to the common Heather in habit, but its golden tinged foliage makes a lovely contrast with other varieties and in borders. 6 in., 75 cts. each, $6 for 10.

C. vulgaris hammondi. Hammond’s Heather. A fine type of Pink-flowering Heather, which we think is more desirable in habit and profusion of bloom than the common C. vulgaris. 6 to 8 in., 75 cts. each, $6 for 10.

C. vulgaris nana. Moss Heather. A new sort which makes a small tuft or compact clump. The mossy foliage is dark green and most attractive. Especially good for rockeries. Clumps, 6 to 8 in., 90 cts. each, $8 for 10; 4 to 6 in., 75 cts. each, $7 for 10.

C. vulgaris rubra elata. Upright Heather. This is a tall, spreading sort, with deep rosy crimson flowers. A good companion for the Tall White Heather and as a background for the lower-growing varieties. 8 to 10 in., 90 cts. each, $8 for 10; 6 to 8 in., 75 cts. each, $6 for 10.

CHAMÆDAPHNE • Leatherleaf

Chamædaphne calyculata. Leatherleaf. Charming, low shrub for rockery or edge of shrub border. Heavy, evergreen leaves and slender, leafy racemes of drooping, wax-white flowers somewhat like those of Pieris. Very hardy. 12-in. plants, $1 each, $9 for 10.

ERICA • Heath

Erica Tetralix. Cross-leafed Heath. A low, dense bush with grayish green foliage delicately fringed with silvery hairs. The pretty pink flowers are produced at the tips of the branches in summer and early autumn. A rare thing in this country and just made to nestle in a pocket against a noble rock. 6 to 8 in., 75 cts. each, $6 for 10.

DAPHNE

Daphne cneorum. Rose Daphne. A dwarf evergreen shrub, which produces a profusion of delightfully fragrant rosy lilac flowers in May and June, and on and off the rest of the summer. It is extremely pretty in evergreen borders and rock gardens, and is one of the choicest little plants grown.

Prices same as Calluna vulgaris.

Euonymus radicans. Wintercreeper. A low, procumbent shrub, having small leaves, dull green above, with whitish veins. It will climb over a wall or up the side of a house and it makes a first-rate ground-cover. 3-yr. plants, 75 cts. each, $6 for 10; 2-yr. plants, 60 cts. each, $5 for 10, $40 per 100.

E. radicans argentoo-marginatus. Silveredge Wintercreeper. Similar to the preceding, with the leaves silvery at the edges, often becoming pinkish in the fall. Very attractive. 3-yr., 75 cts. each, $6 for 10.

E. radicans carrieri. Glossy Wintercreeper. A stronger grower than E. radicans, with larger, ovate, green leaves. It is half bush and half vine in habit of growth, and, if given support, makes a very fine covering for a building or a wall, and grows rapidly. Planted on either side of a walk, it may be kept low, to form an attractive little hardy evergreen hedge. 5-yr., $2 each, $18 for 10; 4-yr., $1.50 each, $12.50 for 10; 3-yr., $1 each, $8 for 10.
EUONYMUS, continued

E. radicans colorata. Bronze Wintercreeper. A new variety introduced by the Arnold Arboretum, with bright red foliage during the winter months. A rapid grower. We suggest Euonymus radicans colorata as an interesting plant for its winter foliage. 4-yr. plants, $1 each, $9 for 10; 2-yr., 73 cts. each, $6 for 10.

E. radicans minimus. Baby Wintercreeper. An excellent fine-leaved dark evergreen for carpeting the ground or as a rock plant. The smallest Euonymus. Very desirable. From 4-in. pots, 75 cts. each, $6.50 for 10.

E. radicans vegetus. Bigleaf Wintercreeper. A trailing evergreen shrub with round leaves. Produces an abundance of orange-scarlet berries in the fall. Splendid for use as a ground-cover at the borders of evergreens. 4-yr., $1.50 each, $13.50 for 10; 3-yr., $1 each, $8 for 10; 2-yr., 75 cts. each, $6 for 10.

HEDERA • Ivy

Hedera helix. English Ivy. The rich dark green foliage densely packed against the stems; very graceful, and will live over winter where the common English Ivy freezes out. From 4-in. pots, 75 cts. each, $6.50 for 10.

ILEX • Holly

Ilex crenata microphylla. Small-leaved Japanese Holly. A dense, bushy shrub with tiny evergreen leaves which are as tough as Boxwood. The plant can be closely sheared and makes a splendid low hedge or edging for taller plants. 12 to 15 in., $4 each, $36 for 10.

I. glabra. Inkberry. A bushy, upright shrub with dark oval foliage, small flowers, and a profusion of black fruit in the fall. One of the best and hardiest of our native evergreens. 2-ft. clumps, $5 each; 18-in. clumps, $3 each; 15-in. clumps, $2.50 each; 12-in. clumps, $1.50 each, $14 for 10.

KALMIA • Laurel

Either massed in groups or used as single specimens, the decorative effect of these splendid native shrubs is unequalled by any exotic plants of equal hardiness. They thrive in any soil which does not contain lime, although they are less sensitive in this respect than the rhododendrons.

Kalmia angustifolia. Lambkill. A handsome evergreen plant of moderate size, covered in the spring with purple and crimson flowers. Desirable for border planting or for rockeries. 18 in., $2.50 each; 12 in., $1.50 each.

K. latifolia. Mountain Laurel. A husky evergreen shrub, covered with large, glossy green leaves in clusters. It produces great quantities of delightful pink and white flowers the latter part of June. Perfectly hardy and will thrive equally well on dry knolls, low land, and in partial shade. One of the best native shrubs for naturalizing in suitable places. It is always desirable to plant it in groups or spreads of 6, 12, or 25 plants in order to get the effect of its magnificent sweep of color and mass. The Mountain Laurels we offer are all nursery grown. We will be pleased to quote prices on collected stock if interested in obtaining large quantities of this grade for landscape or other extensive use.

LEIOPHYLLUM

Leiophyllum buxifolium prostratum. Allegheny Sandmyrtle. A pretty little evergreen, suitable for edging. It has tiny leaves and little sprays of pink flowers in spring. A very charming plant which should be grown as a low edging or dividing-line. It wants a sour soil and a sunny, very well-drained site. 6 to 8 in., 90 cts. each, $8 for 10.

LEUCOTHOE

Leucothoe catesbaei. Drooping Leucothoe. A choice native evergreen shrub of great beauty. Its foliage is quite as charming as its blossoms, which are creamy white. The leaves are heavy, shining green in summer, and assume a beautiful purplish red tint late in the fall which is retained throughout the winter; branches arching. Superb for table decoration in winter. Very desirable for edging evergreens and rhododendrons. 12 to 18 in., $2.50 each, $22.50 for 10; 12 to 15 in., $2 each, $18 for 10.

MAHONIA

Mahonia aquifolium. Oregon Holly-grape. A handsome evergreen shrub that is hardy in the North if planted in a sheltered position. Glossy green, holly-like leaves and yellow flowers in May. 18 to 24 in., 90 cts. each, $7.50 for 10; 15 to 18 in., 75 cts. each, $6.50 for 10.

PACHISTIMA

Pachistima canbyi. Canby Pachistima. A very low evergreen shrub, suitable for edging or rockery, making a dense, dark green carpet of great beauty. Flowers small, dark red. Give it a sour soil and a half-shady place. Field-grown plants, 6 to 8 in., 75 cts. each, $7 for 10.
Evergreen Shrubs

PIERIS • Andromeda

Like the rhododendrons and laurels, the Andromedas are sour-soil plants and thrive in partial shade. They provide charming color-variation in their hairy stems and ruddy winter buds and are very graceful when in flower. We have a fine lot of bushy, well-grown plants of both varieties.

Pieris floribunda. Mountain Andromeda. White flowers in large panicles, like the lily-of-the-valley. The buds are produced in the fall, and open in early spring, over dense dark masses of evergreen foliage. Plant round, compact, and dwarf, very hardy. Excellent in evergreen foundation planting. There is no finer evergreen shrub than Mountain Andromeda. We urge you to plant one or more because we know you will not be disappointed. 2 to 2½-ft. spread, $9 each, $85 for 10; 18 to 24-in. spread, $6 each, $55 for 10; 15 to 18-in. spread, $4 each, $36 for 10; 12 to 15-in. spread, $3 each, $27 for 10.

P. japonica. Japanese Andromeda. One of the most beautiful, dwarf, broad-leaved evergreens, with bright green leaves and drooping racemes of waxy white flowers which make a beautiful contrast with the green foliage. The new foliage is most attractively tinged with rich bronzy red. A plant that is distinctly different and of great beauty, which will add dignity and charm to any garden. We recommend it highly. It should be planted in dry, sheltered positions. 2 3/4 to 3 ft., $10 each, 2 to 2½ ft., $7 each, $65 for 10; 18 to 24 in., $5 each, $45 for 10.

PACHYSANDRA

Pachysandra terminalis. Japanese Pachysandra. Low-growing evergreen plant with short spikes of white flowers in May and June. A splendid evergreen ground-cover, with attractive dark green leaves which make a rich mat of foliage in shady places where grass will not grow. A good border for beds of evergreens. It shows up especially well in winter when the grass is brown and the leaves bare. Plant it thick, not over 6 inches apart each way to get it started well, and thin out later if necessary. Field-grown plants, $1.05 for 3, $2.00 for 10, $18 per 100. From 2 3/4-in. pots, 90 cts. for 3, $2.20 for 10, $15 per 100.

SPECIALLY PREPARED PLANT FOOD

VIGORO

For Lawns, Gardens, Flowers, Shrubbery and Trees

A clean, safe, and very active fertilizer which really makes plants grow. It is entirely inoffensive to handle, economical because of the small quantity required, and safe if used according to the directions sent with it.

Price $6 per bag of 100 lbs.

Imported Granulated

PEAT MOSS

For making acid soil for Rhododendrons, Azaleas and other plants which require sour soil. A splendid mulch for roses and other plants, a great soil builder and fertilizer for lawns and shrubbery. Used extensively in seed beds and potting mixtures. Provides humus and great porosity, lightening heavy soils. Clean and economical.

Per bale $4, f.o.b. North Abington
Rhododendron carolinianum, a mass of delicately colored flowers for weeks

**RHODODENDRONS**

*Beyond doubt, the handsomest evergreen shrubs. The beautiful, long, glossy leaves remain bright through the dark winter months, and their lovely clusters of flowers in early summer are miracles of delight. They should have thin shade, although they do well in full sunlight, and a north side of a wall or building is especially adapted to them. They do demand plenty of water and soil absolutely free of lime. It will pay well to go to some trouble to make the soil for them decidedly sour. Groups of Rhododendrons dispersed in borders and under trees give untold return in the all-year beauty of their foliage and their lovely flowers in early summer. Blended with kalmias, andromedas, leucothoes, and other evergreen shrubs of varying habit, they provide scenes of diversified beauty and interest unrivaled by any other garden feature.*

The American continent is peculiarly rich in these beautiful shrubs, all of which are perfectly at home in our gardens, if their wishes in regard to sourness of soil and partial shade are respected. No hybrids have been raised from the showy tender species which surpass the original beauty of our native varieties, or equal them in vigor and hardiness. They are the most useful of all for general planting, particularly *Rhododendron maximum* which is the largest and showiest of the family. Tourists driving through the mountains of northern Pennsylvania are enthralled by the glorious beauty of this native shrub.

**Native Rhododendrons**

Rhododendrons are shipped with their roots in balls of earth wrapped in burlap and should be planted in the manner recommended for evergreens. The mulch is particularly important.

**Rhododendron carolinianum. Carolina Rhododendron.** One of the very finest broad-leaved evergreens, hardy in Massachusetts. It is four to six feet tall and as much in diameter; has handsome dark green leaves and blooms profusely. The clustered flowers are pale to deep pink, open before the young branches begin to grow and therefore are not hidden by them. It comes from the mountain tops of the southern Appalachian regions.

**R. minus. Another native of the southern mountains.** Under favorable conditions it makes a straggling shrub 10 feet high with handsome foliage and charming rosy pink flowers spotted yellow-green within. This is one of the very earliest of all to come into bloom and is very beautiful and satisfactory for extensive landscape planting.

**R. catawbiense. (Native.) Catawba Rhododendron.** This is the parent of most of our best hybrids, and is worthy in every way. The flowers, borne profusely in very large, round trusses, come in various shades of lilac-purple the early part of June. It will grow in any soil where there is no lime, and needs no protection.

We can furnish bales of imported granulated peat moss. Ideal for mulching Rhododendrons, Azaleas, as well as all types of hardy plants, at $4 each, f.o.b. North Abington, Mass.
Rhododendron maximum. (Native.) This is the handsome Great Laurel of the mountains. Flowers rosy white to white, produced in late June and July. Foliage very thick, smooth, and twice as large as that of any other sort. Handsome for big bold masses. Car-lots of collected plants can be furnished at much lower rates than the nursery-grown plants. These are exceptionally heavy plants.

Prices for collected stock will be given on request.

FOR THE OWNERS OF LARGE ESTATES

We are supplying carload lots of Rhododendrons especially collected for us from the wild by experienced plantsmen whose careful selection and handling insure stock far superior to the usual run of collected plants. All are heavy, bushy clumps. We shall gladly quote special prices on carload quantities of this fine collected stock. Write us in regard to quantities and sizes desired.

HYBRID RHODODENDRONS

Hybrid Rhododendrons are particularly celebrated for their very large clusters of handsome flowers and clear color. They are excessively rare in this country and therefore have great intrinsic value above their beauty, well-grown specimens having the value of old boxwood or other heirlooms. A solid planting of them is gloriously beautiful, and a few interspersed among a large group of the native sorts add distinction and variety to the planting.

We can supply a number of varieties of Hybrid Rhododendrons, particularly in shades of pink, lavender, and white. These are young, stocky plants ranging from 15 to 18 inches, and from 2 to 2½ feet, at prices from $7 to $9 each. Write for special quotations on named varieties.

We shall be glad to welcome visitors to our Nurseries at any time and shall be delighted to display the splendid plants of Rhododendrons which we have for sale. No one can see these magnificent plants without instantly desiring them, but whether one plant or hundreds are wanted, they are waiting for you here.
Cornus florida. The Dogwood, finest of American flowering trees, is perfectly happy at the edge of a woods or grove.

DECIDUOUS TREES

There is a vast army of beautiful trees which shed their leaves in autumn. Among them are trees suitable for planting along streets and boundary lines, trees for woodlands and copses, for groves and for specimens, or merely to shade a corner of the back yard. Almost all of them are gorgeous when their leaves turn color in autumn and display an intricate and interesting pattern of bare branches against the winter sky.

Except that their roots are not balled and burlapped, the method of handling and planting them is the same as for evergreens. They should be well watered the first season and firmly staked so that they will not sway in the wind.

ABBREVIATIONS

Denoting Size: L, trees that attain a height of 50 feet or more; M, trees that attain a height of 25 to 50 feet; S, trees that attain a height of 10 to 25 feet; D, dwarf; VD, very dwarf.

Denoting Rapidity of Growth: r, rapid; m, medium; s, slow; v, vigorous; vs, very slow.

Denoting Varieties Suitable for Seashore Planting: (†).

ACER • Maple

The Maples are too familiar to need much introduction. They are all splendid, round-headed trees, some of which are especially adapted to street planting, and all of them are desirable as specimens.

Acer saccharum. Silver Maple. (Lr) Foliage light green, silvery beneath. A most rapid-growing Maple thriving best in rich, moist soil but succeeding almost anywhere except on dry ground. Largely used for street planting. 12 to 14 ft., $4 each; $36 for 10; 10 to 12 ft., $3 each; $27 for 10; 8 to 10 ft., $2 each.

A. ginnala. Amur Maple. (Dm) Graceful shrub or small tree, with handsome foliage that turns bright red in autumn. Useful as substitute for the Japanese Maple where that is not hardy. 6 to 9 ft., $2.50 each; $22.50 for 10; 5 to 6 ft., $3 each; $17.50 for 10.

A. negundo. Boxelder. (Mr) A rapid-growing tree that is useful where a quick screen is desired. It has spreading branches and light green foliage that changes to yellow in the autumn. Although it thrives best in rich, damp ground, it will grow in dry or poor soils. 12 to 14 ft., $3.25 each; 10 to 12 ft., $2.50 each; 8 to 10 ft., $2 each, $17.50 for 10.

A. palmatum. Japanese Maple. (Dm) A handsome shrub of dense, graceful habit, with especially attractive foliage in spring and fall, when it assumes most striking colors. Suitable for individual planting. 3 to 4 ft., $3.50 each; 2 to 3 ft., $2.50 each, $22.50 for 10.

A. palmatum atropurpureum. Blood-leaved Japanese Maple. (Ds) A very striking tree in spring when its leaves are blood-red; later they change to dark purple, retaining this attractive color throughout the season. This small tree is often used on lawns but is most effective when contrasted with evergreens. In New England it should be planted only in sheltered places. 3 ft., $9 each; 2½ ft., $7.50 each; 2 ft., $6 each; 18 in., $4 each.

A. platanoides. Norway Maple. (Lr) This large, handsome tree has a round, spreading head and broad, dark green foliage. It is decidedly beautiful when covered with its golden blossoms, before the foliage appears. The hardiest of all Maples, and will withstand extreme exposure; especially adapted for street, shade, and seashore planting. 10 to 12 ft., $5 each; 8 to 10 ft., $4 each, $37.50 for 10; 6 to 8 ft., $2.75 each, $25 for 10.

A. platanoides schwedleri. Schwedler Maple. (Mr) The leaves are bright red when they first appear, changing later in the season to dark purplish green. Like the Norway Maple in habit of growth. 6 to 8 ft., $5 each, $45 for 10.

A. rubrum. Red Maple. (Ly) A very popular variety because of its irregular habit which is much appreciated independent of its other remarkably fine qualities of growth, its fragrant, scarlet flowers in early spring, and dense foliage which assumes a gorgeous color in autumn. Thrives in wet situations where no other Maple will live. 10 to 12 ft., $5 each, $45 for 10; 8 to 10 ft., $3.50 each, $33 for 10; 6 to 8 ft., $2.75 each, $25 for 10.

ACER, continued
Deciduous Trees

Acer, continued

A. saccharum. Sugar Maple. (Lr) An excellent street and shade tree, somewhat higher headed than the Norway Maple, with dense foliage that turns bright yellow and scarlet in autumn. Does well in almost any soil. 10 to 12 ft., $9 each; 8 to 10 ft., $3.50 each, $33 for 10; 6 to 8 ft., $2.25 each, $24 for 10.

A. tataricum. Tatarian Maple. (Dm) A hardy shrub-like tree with brilliant autumn coloring. 10 to 12 ft., $2.75 each, $25 for 10; 8 to 10 ft., $2.25 each, $21 for 10.

Aesculus - Horsechestnut

Aesculus hippocastanum. European Horsechestnut. (Lm) A large tree of regular outline with attractive foliage. In May it bears a profusion of very showy white flowers tinged with red, in 8 to 10-inch panicles. These are followed by fruits an inch or more in diameter. 5 to 6 ft., $2.50 each; 4 to 5 ft., $2 each.

Ailanthus - Indian Bean

Ailanthus glandulosa. Ailanthus. (Lr) Valuable for street planting where other trees do not thrive, as it withstands smoke and dust well. It is an extremely rapid-growing, open-headed tree with palm-like foliage and greenish flowers in June. 8 to 10 ft., $3 each, $27 for 10; 6 to 8 ft., $2.50 each, $22.50 for 10; 5 to 6 ft., $2 each, $18 for 10.

Aralia - Angelica Tree

Aralia spinosa. Devils-walkingstick. (Dr) Its stout stems, covered with thorns, immense leaves, and enormous clusters of small white flowers, followed by purple berries, give this species a very distinct sub-tropical appearance. 8 to 10 ft., $2 each, $17.50 for 10; 6 to 8 ft., $1.50 each, $14 for 10; 5 to 6 ft., $1.25 each, $10 for 10.

Betula - Birch

This is a small family of trees with a grace and charm all their own. Mostly used as lawn specimens or in effective positions upon the grounds; they are also splendid mingled with other varieties in an open woodland, and the light-barked kinds are beautiful grouped at the edge of a thicket or forest.
**CHIONANTHUS • Fringe Tree**

*Chionanthus virginica.* White Fringe Tree. (Sv) A small, lovely tree, with large, dark green foliage and white fringy flowers in early summer. 6 to 7 ft., $5 each; $4.80 for 10; 5 to 6 ft., $4 each; $36 for 10; 4 to 5 ft., $3 each; $27 for 10.

**CORNUS • Dogwood**

Small trees desirable from every point of view. In the spring they make a picture of unforgettable beauty with their drifts of snowy flowers against the sky or a background of evergreens. Their rich green foliage is handsome during the summer, and their glittering red berries are one of autumn’s chiefest charms.

*C. florida.* White-flowering Dogwood. (Sv) An American species of regular habit, with spreading, open top. It produces large, showy white flowers in May before the leaves appear. In autumn the grayish green foliage turns dark red, and with the brilliant red berries makes one of the most beautiful trees at that season. 5 to 6 ft., B&B, $5 each; $4.80 for 10; 4 to 5 ft., B&B, $3 each; $27 for 10; 3 to 4 ft., $2 each; $18 for 10.

Note.—B&B means roots taken up with earth and burlapped, for which no extra charge is made.

**CHIONANTHUS • Fringe Tree**

*Chionanthus virginica.* A charming, graceful little tree for borders and shrubbery.

**CRATEAGUS • Hawthorn**

The Thorns are small, shrubby trees, charming alike when bare, in flower, in foliage, or in fruit. They are fine for masses in the corners or at boundaries, and look well in hollows or along streams, fitting into almost any scheme of naturalistic or formal planting.

*C. coccinea.* Thicket Hawthorn. (Sm) A fine native variety with large foliage and white blossoms in May, succeeded by scarlet fruit. 4 to 5 ft., $2 each; $18 for 10; 3 to 4 ft., $1.50 each; $14 for 10.

*C. cordata.* Washington Hawthorn. (Sm) Very desirable, with beautiful autumn color and large clusters of bright red fruit, remaining on the branches a long time. Much used both singly and in groups. 3 to 4 ft., $2 each; $18 for 10; 2 to 3 ft., $1.50 each; $14 for 10.

*C. crusgalli.* Cockspur Thorn. (Dv) The long, sharp thorns and glossy green foliage, which turns brilliant orange and scarlet in the fall, make this a valuable variety for hedges. 4 to 5 ft., $2.50 each; $22.50 for 10; 3 to 4 ft., $1.75 each; $16 for 10.

*C. oxyacantha splendens.* Paul’s Double Scarlet Hawthorn. (Sm) A small tree of fine habit, with rich, luxuriant foliage and very double deep crimson flowers with a scarlet glow. 5 to 6 ft., $3.50 each; 4 to 5 ft., $3 each.

**FAGUS • Beech**

Beeches are among the noblest trees of creation, long-lived, symmetrical, and beautiful at all seasons of the year. They make dense shade and thick dark woods. The colored-leaf forms are among the finest ornamentals for specimen or avenue work. Beeches resent transplanting to some extent, therefore we ship them with the roots carefully balled and burlapped.

*Fagus americana.* American Beech. (Lv) Large, spreading tree of symmetrical habit. Its rich yellow autumn foliage and smooth, gray bark add to its attractiveness. 5 to 6 ft., $5 each; 4 to 5 ft., $4 each.

**FRAXINUS • Ash**

The Ashes grow quickly and thrive in almost any moist soil. They are valuable for parks and landscapes, and make good street trees in many localities.

*Fraxinus americana.* White Ash. (Lv) This well-known native variety has a straight, clean trunk and soft, mellow green foliage, changing in the autumn to rich brown. A desirable shade or street tree because it furnishes shade quickly and is comparatively long-lived. 6 to 8 ft., $1.50 each; $14 for 10.

**GINKGO • Maidenhair Tree**

*Ginkgo biloba.* Maidenhair Tree. (Mr) This beautiful tree is of upright habit, with a clean, straight trunk and spreading branches peculiar to itself. The leaves are fan-shaped, resembling the maidenhair fern, and in the fall become rich golden yellow. An excellent lawn and avenue tree and very satisfactory in cities. Insects avoid it. A very ancient Chinese tree come down from prehistoric time. It has never been found growing wild but always in gardens or under the protection of man. It has been truly and aptly described as a living fossil. 6 to 8 ft., $4 each.

---

*Note.*—B&B means roots taken up with earth and burlapped, for which no extra charge is made to the purchaser.

---

**C. florida rubra.** Red-flowering Dogwood. (Sv) One of the finest flowering trees. It blooms when quite young, producing deep, rose-colored flowers in the early spring. This tree is worthy of extensive culture and should have a place on every sizable lawn. 4 to 5 ft., B&B, $7.50 each; 3 to 4 ft., B&B, $6 each.

---

**C. floribunda.** Red-flowering Dogwood. (Sv) One of the finest flowering trees. It blooms when quite young, producing deep, rose-colored flowers in the early spring. This tree is worthy of extensive culture and should have a place on every sizable lawn. 4 to 5 ft., B&B, $7.50 each; 3 to 4 ft., B&B, $6 each.

---

**CRATEAGUS • Hawthorn**

The Thorns are small, shrubby trees, charming alike when bare, in flower, in foliage, or in fruit. They are fine for masses in the corners or at boundaries, and look well in hollows or along streams, fitting into almost any scheme of naturalistic or formal planting.

—B&B means roots taken up with earth and burlapped, for which no extra charge is made.

---

**FAGUS, continued**

*F. sylvatica purpurea.* Purple Beech. (Lv) The foliage of this low-branching tree is very attractive. In spring it is bright reddish purple, turning beautiful purple-tinged green in summer. It forms a noble, symmetrical head of majestic appearance, and its foliage has a brilliant metallic glitter in the sunshine, which makes the tree conspicuous in the landscape, even at great distances. Splendid for a lawn tree. 16 to 20 ft., B&B, $30 each.

Note.—B&B means roots taken up with earth and burlapped, for which no extra charge is made to the purchaser.

---

*Chionanthus virginica.* A charming, graceful little tree for borders and shrubbery.
GLEDITSIA • Honey Locust

Gleditsia triacanthos. Common Honey Locust. (Lv)
A rapid-growing tree that is armed in the earlier stages with powerful spines and has foliage of delicate appearance. It makes a stately specimen or is useful when a tall hedge is desired. The wood is known for its long-enduring qualities. 6 to 8 ft., $1.50 each, $12 for 10; 5 to 6 ft., $1.25 each, $10 for 10; 4 to 5 ft., $1 each, $8 for 10.

GYMNOCLADUS

Gymnocladus dioica. Kentucky Coffee Tree. (Mm)
A fine native tree of irregular shape, with bluish green, feathery foliage. Useful either on the lawn or in a border. 6 to 8 ft., $2 each; 5 to 6 ft., $1.75 each.

JUGLANS • Walnut

The once familiar Butternut and Walnut are becoming scarcer in the wild every year. They make picturesque lawn trees and handsome groves. Their nuts are highly valued and their wood is almost priceless. One of the most worthy groups of native trees, and they should be planted liberally.

Juglans cinerea. Butternut. (Lm) A vigorous, native, open-headed tree, with grayish, rough bark, and foliage that resembles that of the ailanthus. Valued for its nuts, as well as for its ornamental appearance. 8 to 10 ft., $2.50 each, $22.50 for 10; 6 to 8 ft., $2 each, $18 for 10.

J. nigra. Black Walnut. (Lr) This native tree is of majestic size and graceful habit, with dark brown bark and beautiful foliage. Valuable for lumber in regions where it flourishes. We do not recommend planting it north of Boston. 10 to 12 ft., $3 each, $27 for 10; 8 to 10 ft., $2.50 each, $24 for 10.

KÆLREUTERIA

Kaelreuteria paniculata. Golden Rain Tree. A very ornamental, round-headed tree with handsome, light green foliage and large clusters of small yellow flowers. Very decorative. 5 to 6 ft., $3 each.

LABURNUM • Golden Chain

Laburnum vulgare. Golden Chain. (Sm) A small tree with smooth foliage, deriving its name from the long racemes of golden yellow blossoms produced in June. It does best in a cool, shady spot. 3 to 4 ft., $2 each, $18 for 10.

LARIX • Larch

Larix laricina. American Larch; Tamarack. (Lr) Rapid-growing pyramidal tree, becoming irregular at maturity, with very attractive light green foliage like that of a bright green deciduous spruce. When grown by itself and well developed it is a very ornamental tree. Although a native of swampy ground it thrives in ordinary soils. 6 to 8 ft., $2.75 each.

L. leptolepis. Japanese Larch. (Lr) A slender, pyramidal tree with foliage like an evergreen spruce, but which is dropped in autumn. A very beautiful, quick-growing tree which enjoys a moist soil. 5 to 6 ft., $2.25 each; 4 to 5 ft., $2 each; 3 to 4 ft., $1.50 each.

LIQUIDAMBAR

Liquidambar styraciflua. Sweet Gum. (Mm) A handsome native tree of stately growth, with cory bark and leaves that resemble those of the maple, but are more star-shaped, and glossy green, turning deep purplish crimson in autumn. It thrives best south of Boston. 8 to 10 ft., $6.50 each; 6 to 8 ft., $4.50 each.
LIRIODENDRON

*Liriodendron tulipifera*. Tulip Tree. (Lr) This large, symmetrical tree has smooth bark, glossy, light green, liddel-shape leaves and spreading branches. The flowers are tulip-like, greenish yellow blotched with orange. 6 to 8 ft., $2.50 each; 5 to 6 ft., $2 each.

MAGNOLIA

*Magnolia soulangeana*. Saucer Magnolia. A sturdy, picturesque tree of moderate size, covered in spring with giant pinkish flowers before the leaves appear. Very handsome and easily one of the most ornamental flowering trees in existence. 3 to 4 ft., $12 each; 2 to 3 ft., $9 each.

MALUS, continued

M. ioensis plena. Bechtel’s Crab. (Sm) One of the most beautiful Flowering Crabs, producing double, fragrant flowers of delicate pink resembling small roses. 5 to 6 ft., $3.50 each; 4 to 5 ft., $2.50 each, $22.50 for 10; 3 to 4 ft., $2 each, $18 for 10.

M. niedzwetzkyana. Redvein Crab. (Mm) A very ornamental tree with deep pink flowers. A larger grower than most Flowering Crabs. 5 to 6 ft., $3 each, $27 for 10; 4 to 5 ft., $2.50 each, $22.50 for 10.

M. prunifolia rinki. Chinese Apple. Showy white flowers followed by red, yellow, and green fruits 1½ inches in diameter. Cultivated by the Chinese as a fruit tree but an extremely decorative ornamental as well. 3 to 4 ft., $2.50 each; 2 to 3 ft., $2 each.

M. sargenti. Sargent Crab. A dwarf tree, with white blooms and showy red fruit. 4 to 5 ft., $3.50 each; 3 to 4 ft., $2.75 each; 2 to 3 ft., $2 each, $18 for 15.

M. spectabilis. Chinese Flowering Crab. (Sm) This small tree has very attractive flowers—the opening buds are almost coral-red and very showy. 2 to 6 ft., $3 each; 4 to 5 ft., $2.50 each; 3 to 4 ft., $2 each. 2 to 3 ft., $18 for 10.

M. theifera. Tea Crab. Have you a Tea Crab? Probably not, but by all means take our advice and plant at least one this year. You will like the character of the tree, its irregular branches, and its profusion of pink flowers. 3 to 4 ft., $3.50 each, $33 for 10; 2 to 3 ft., $2 each, $18 for 10.

All Flowering Crabs will be taken up, balled and burlapped, without extra charge.
Deciduous Trees

MORUS • Mulberry

Morus alba tatarica. Russian Mulberry. (Mm) A low, very bushy-topped tree with reddish fruit which birds like; very hardy and desirable. 8 to 10 ft., $2.25 each; $21 for 10; 6 to 8 ft., $1.75 each; $16 for 10.

M. alba pendula. Teas Weeping Mulberry. (Dv) One of the best small weeping lawn trees, forming a perfect umbrella-headed head of light green, deep lobeled foliage. Fruit reddish purple. Thrifty and hardy. 2-yr. heads, 5 to 6 ft., $3.50 each; $33 for 10.

NYSSA • Tupelo

Nyssa sylvatica. Sour Gum; Tupelo. A slender, round-topped tree with glossy, oval leaves which turn blazing scarlet in autumn. Very graceful and attractive at all seasons. 2 to 3 ft., $2 each; 18 to 24 in., $1.50 each; $12.50 for 10.

OXYDENDRUM • Sorrel Tree

Oxydendrum arboreum. Sourwood. (Sm) Slender, upright, symmetrical tree of rapid, luxuriant growth, with large, glossy leaves which are retained late in autumn. The buds exude an agreeable odor and are useful medicinally. This tree will thrive under severe exposures. 12 to 14 ft., $2.50 each; $22 for 10; 10 to 12 ft., $2 each; $18 for 10; 8 to 10 ft., $1.50 each $12.50 for 10; 6 to 8 ft., $1.25 each; $11 for 10.

PRUNUS • Plum

Charming small trees with dark-colored foliage, suitable for specimens or groups on the lawn and among shrubbery, where they are particularly effective.

Prunus cerasifera, Othello. (Improved Pissard.) A handsome, small tree with deeper color than the original Purple-leaved Plum, of which it is an improved variety. 8 to 10 ft., $3.75 each; 6 to 8 ft., $3.25 each; 5 to 6 ft., $2.75 each.

P. cerasifera pissardi. Purpleleaf Plum. Very popular decorative tree, with handsome, dark-purple leaves and pretty wine-red fruits. It retains its rich color until autumn. 6 to 8 ft., $3 each; 4 to 5 ft., $2 each.

PRUNUS • Japanese Flowering Cherries

A choice selection of the famous Cherry trees of Japan, celebrated in this country because of the wonderful collection in Potomac Park, at Washington, D. C., which attracts thousands of visitors every spring. They bloom very early and are most showy. The $5 variety is not a true Japanese sort but an equal beauty.

Prunus avium albo-plena. A handsome, decorative tree with charming, double, white flowers. 5 to 6 ft., $4 each; 4 to 5 ft., $3 each.

P. subhirtella rosea pendula. Weeping Japanese Cherry. An extremely decorative form, grown on a tall, straight stem, from the top of which the slender branches sweep in a broad umbrella-like head. The flowers are various shades of bright pink. Extremely handsome for specimen use. 5 to 6 ft., $5 each.

P. Kanzan or Setizan. Bright pink, true Japanese variety. 4 to 5 ft., $4 each; 3 to 4 ft., $3 each.

P. Kofugen. Buds crimson; blossoms old-rose. 4 to 5 ft., $4 each.

P. Naden. Lovely, double pink. 4 to 5 ft., $4 each; 3 to 4 ft., $3 each.

P. Shirofugen. Buds pink; blossoms light pink. 4 to 5 ft., $4 each; 3 to 4 ft., $3 each.

PTELEA • Hop Tree

Ptelea trifoliata. Common Hop Tree. (Ds) A round-headed, loosely foliaged tree with glossy green foliage which, if bruised, exudes a pleasant hop-like odor. It is covered in the fall with numerous green fruit-pods. 6 to 8 ft., $1.25 each; $11 for 10; 5 to 6 ft., $1 each; $9 for 10.

QUERCUS • Oak

Splendid trees, rather slow-growing at first, but when once established develop amazingly within a few years. They are of noble proportions and give an impression of boundless strength and vigor.

Quercus bicolor. Swamp White Oak. (Lr) Thrives in wet locations, but does equally well in well-drained soils. It has a round-topped, open head and is one of the fastest growing Oaks. 10 to 12 ft., $5 each; $45 for 10; 8 to 10 ft., $4 each; $33 for 10; 6 to 8 ft., $3.50 each; 5 to 6 ft., $3.00 each.

Q. coccinea. Scarlet Oak. A large, handsome tree especially valued for brilliant scarlet foliage in autumn. 6 to 8 ft., $4.50 each; 5 to 6 ft., $3.50 each.
QUERCUS, continued

Q. palustris. Pin Oak. (Lr) This very handsome tree is particularly adapted to lawn and avenue planting. It has drooping branches and finely divided dark green leaves which turn red in fall. A rapid grower that prefers moist soil, and as it is fibrous-rooted, transplants well. 10 to 12 ft., $10 each; 6 to 8 ft., $4 each.

Q. rubra. Common Red Oak. (Lr) A broad tree of rapid growth with large, rich green foliage that turns bronzy red in the fall. Will flourish in poor soil. 6 to 8 ft., $3.50 each.

ROBINIA • Locust

Robinia pseudoacacia. Common Locust. (Lr) An excellent variety for producing natural, informal effects as it grows very rapidly to 80 feet high. In early summer it bears a profusion of fragrant white flowers in drooping racemes. Will thrive under city conditions, and withstand severe exposure. 6 to 8 ft., $2.50 each; 5 to 6 ft., $1.75 each; $15 for 10; 4 to 5 ft., $1.50 each, $14 for 10.

SALIX • Willow

Wherever there is a stream, a pond, or a bit of low ground, the Willows should be considered. They are among the most beautiful and graceful of trees, and are extremely attractive in early spring when the tiny pale green leaves first open.

Salix babylonica. Babylon Weeping Willow. (Lr) Probably the best known Willow and splendid sort for formal effects. It has very drooping, long, slender branches of olive-green. Will grow in any good soil. 8 to 10 ft., $2 each; 6 to 8 ft., $1.50 each; $14 for 10.

S. pentandra. Laurel Willow. (Mv) An ornamental tree of upright, dense growth, making it fine for screening. The bark is brownish green, and the leaves dark glossy green, much like the California privet. Excellent for seashore planting. 6 to 8 ft., $1 each; 5 to 6 ft., 90 cts. each; 4 to 5 ft., slender, 75 cts. each; $7 for 10; 3 to 4 ft., bushy, 70 cts. each, $6.50 for 10.

S. vitellina. Golden Willow. (Lm) A large and venerable-looking tree, conspicuous at all seasons, but particularly in winter on account of its yellow bark. 6 to 8 ft., $1.25 each; $11 for 10; 5 to 6 ft., $1 each, $9 for 10.

SORBUS • Mountain-Ash

Sorbus aucuparia. European Mountain-Ash. (Mm) The clusters of scarlet berries, borne in abundance from July to winter, make this a very attractive small lawn tree. Visitors to the Nursery in autumn always ask the name of this tree with the bunches of scarlet berries. 10 to 12 ft., $3 each; 10 to 12 ft., $2.50 each; $22.50 for 10; 6 to 8 ft., $2 each, $18 for 10.

SYRINGA • Lilac

Syringa japonica. Japan Tree Lilac. (Sm) A remarkable Tree Lilac from Japan with creamy white flowers. Should be on every lawn. 4 to 5 ft., $2 each, $18 for 10.

TAXODIUM • Bald Cypress

Taxodium distichum. Bald Cypress. (Lr) A stately tree with foliage like an evergreen but which is shed in autumn. 4 to 5 ft., $3 each; 3 to 4 ft., $2 each, $18 for 10.

We do not attempt to list all the sizes of trees that we may have to offer, but frequently we can furnish some of these varieties in larger as well as smaller sizes. If you will write us about the size for which you are looking we will be very pleased indeed to quote you prices.

TILIA • Linden

Big, handsome trees of rapid growth and among the best ornamentals for either lawn or street planting. They are beautiful in foliage, in flower, and when bare, and should be widely used.

Tilia americana. American Linden. (Lr) An American species with intensely fragrant yellow flowers and broad, round top which gives plenty of shade. Suitable for lawns, parks, and streets. 10 to 12 ft., $4.50 each; 8 to 10 ft., $3.50 each.

T. spectabilis. Showy Linden. This vigorous, growing tree has blooms like T. americana and grayish downy leaves. A handsome, densely headed, ornamental tree useful for a great many purposes. 10 to 12 ft., $7.50 each; 8 to 10 ft., $6 each.

ULMUS • Elm

The Elms are famous trees and have a rural, pastoral air that fits admirably into landscape planting schemes. They almost always look best in a wide-spaced row, or isolated in a field or on a hillside, and some of the finest of our New England villages owe their beauty to their Elm-bordered streets. There is scarcely any purpose for which they are not almost always first choice, because of their grace, their permanence, and their rapid growth.

Ulmus americana. American Elm. (Lr) The most beautiful of the Elms, and the glory of our old New England towns. It is lofty and spreading, with drooping branches and is very hardy. A fine avenue tree. 12 to 14 ft., $5 each, $48 for 10; 10 to 12 ft., $4 each, $36 for 10; 8 to 10 ft., $2.75 each, $25 for 10; 6 to 8 ft., $2 each, $18 for 10.

U. pumila. Siberian Elm. A new tree from China which was first thought to be of dwarf, bushy habit hence the name pumila, but discovered to be a handsome, large tree comparable to the American Elm in size and beauty, but surpassing it in its extremely rapid growth. Seedlings grow to tall fine specimens within a few years, and enthusiasts predict that its hardiness, its rapidity of growth, and the beauty of the mature tree will give it unprecedented popularity. It is just the thing for planting on a new place for within the time it takes an ordinary tree to establish itself, the Chinese Elm will grow into a large mature tree. 6 to 8 ft., $2.50 each; 5 to 6 ft., $2 each.
DECIDUOUS SHRUBS

Here is a tremendous number of beautiful bushes or shrubs which embrace flowering forms of every conceivable variety, and others admired for their fruits, or for their leaves, or for their interesting shape.

They should always be planted in groups or borders; isolated specimens, unless very large, look lonesome and forlorn. A good arrangement invariably provides open stretches of lawn bordered with irregular masses of shrubs against the boundary-line or buildings. It is best not to mix too many kinds in any one group. Their outline and habits differ so very much that best effects always come from planting large restful colonies of one kind or closely related sorts.

The ground for shrubs should be well prepared and worked all over, and be kept cultivated and free from weeds until the shrubs have grown to cover the whole space. They cannot be expected to thrive and do their duty if they are stuck in a little hole in the sod.

ABBREVIATIONS

Denoting Size: L, large; M, medium; S, small; D, dwarf; VD, very dwarf.
Denoting Varieties Suitable for Seashore Planting: (f).
Denoting Varieties Producing Fruit Which Attracts Birds: (§).

ACANTHOPANAX
Acanthopanax pentaphyllum. Fiveleaf Aralia.
(M) A graceful shrub, with arching, spiny branches and bright green, shining foliage. Excellent in shady places, on rocky banks and slopes, and also for hedges. 4 to 5 ft., $1 each, $8 for 10; 3 to 4 ft., 75c. each, $6 for 10; 2 to 3 ft., 60c. each, $5 for 10.

AMELANCHIER
Shadbush. Juneberry
§Amelanchier canadensis. Downy Shadblow. (L) Small, graceful shrub, with arching, spiny branches and glossy leaves. It is one of the finest shrubs for a border or for borders. 4 to 5 ft., $1.75 each; 3 to 4 ft., $1.25 each, $11 for 10.
§A. rotundifolia. European Shadblove. A stiff, upright shrub, covered with clustered white flowers in early spring and bluish black berries in autumn. 4 to 5 ft., $1 each; 3 to 4 ft., 75 cts. each, $6 for 10.

AMORPHA
Amorpha fruticosa. Indigobush. (L) The unusual, dark violet-purple flowers in June make this an exceptionally interesting shrub. It is of spreading habit, with fine, feathery foliage. Excellent for massing. 5 to 6 ft., $1 each, $7.50 for 10; 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $5 for 10.

ARONIA • Chokeberry
§Aronia arbutifolia. Red Chokeberry. (L) This attractive, densely branched shrub bears clusters of white flowers in May, followed by very ornamental red berries. 3 to 4 ft., $1.25 each, $11 for 10; 2 to 3 ft., 90 cts. each, $8 for 10.
§A. melanocarpa. Black Chokeberry. (M) Similar to A. arbutifolia, but the fruit is glossy black. 3 to 4 ft., $1.25 each, $10 for 10.

Bay State Nurseries employ no agents or salesmen soliciting orders.
Hardy Azaleas

All the Azaleas we grow are hardy and particularly attractive for American gardens and in shady spots about an estate. Like the Rhododendrons, they will not live in a soil containing lime. They bloom from the first of May until the middle of July, and an assortment of them will provide at least one variety in blossom all the time during that period. The Roman numerals refer to their order of blooming.

A. calendulacea. (M) The very fragrant white flowers of this variety have pink stamens and appear after the dark green leaves are nearly full grown. (X) 2 to 2 1/2 ft., $4,50 each; $40 for 10; 18 to 24 in., $3.50 each, $33 for 10; 18 to 24 in., $2.75 each, $25 for 10.
A. kaempferi. Torch Azalea. (M) A very handsome, tall-growing variety with flowers which vary from bright orange-red to salmon-pink. It thrives in partial shade and is extremely floriferous and hardy in New England. Exceptionally desirable and we believe it is one of the best of all for brilliance and reformation of color, combined with other good shrub virtues. One can make no mistake in planting this Azalea liberally. (IV) 15 to 18 in., $4 each, $36 for 10; 12 to 15 in., $3 each, $27 for 10.
A. kaempferi Hybrids. A new race of hybrid varieties raised from the splendid Kaempferi, with large, showy flowers of various shades of rich salmon and orange. These are new, (V) 18 to 24 in., bushy, $10 each, $95 for 10; 15 to 18 in., bushy, $7.50 each, $72 for 10.
A. mollis. Chinese Azalea. (S) Resembles a dwarf shrub with leaves purplish when unfolding, becoming deep red in the autumn. Its large, bright red berries retain their color until spring, making a brave display all winter. 3 to 4 ft., 75 cts. each, $6.50 for 10.

BERBERIS • Barberry

These attractive shrubs are of inestimable value for their neat, compact growth, beautiful foliage and fruit, and their adaptability to a multitude of uses. They are among the finest hedge plants, and several of them make beautiful specimens interplanted through a mixed shrubbery. The colored foliage forms are particularly effective for variety and special emphasis. Note that two splendid Evergreen varieties of Barberries are listed among the Evergreen Shrubs.

Bareris aggregata pratti. Pratt's Barberry. An erect, bushy shrub with spiny branches and narrow leaves. Flowers bright yellow, followed by salmon-red berries in clusters 6 inches long. Very handsome and showy in autumn and winter. 2 to 3 ft., $1.50 each, $13.50 for 10.

| Evergreen varieties of Barberries are listed among Berberis aggregata pratti Barberries. Our plants are well grown and very bushy, and our prices are reasonable for stock of this |
Deciduous Shrubs

Buddleia • Butterfly Bush

The Buddleias have flowers of the most attractive soft lavender-purple and make big, showy shrubs in a mixed planting.

Buddleia davidii magnifica. Oxeye Butterfly Bush. (M) An attractive shrub which produces an abundance of fragrant, showy, rosy purple flowers with orange-yellow centers, from August to October. The stalks die to the ground in the winter and grow anew to full stature each summer, if they do not winter-kill altogether, which seldom happens. 2-yr. plants, 60 cts. each, $5 for 10.

B. davidii veitchiana. Veitch's Butterfly Bush. A more robust shrub than the foregoing, with mauve and orange flowers, borne in larger clusters, but similar in other respects. 2-yr. plants, 60 cts. each, $5 for 10.

Calycanthus

Calycanthus floridus. Common Sweet Srub. (L) A favorite shrub found in old-fashioned gardens everywhere; will thrive in partial shade. It has fine, glossy foliage and pineapple-scented, chocolate-colored flowers that last far into the summer. 2 to 2½ ft., 75 cts. each, $6.50 for 10; 18 to 24 in., 60 cts. each, $5 for 10.

Caragana

Caragana arborescens. Siberian Pea-Tree. (L) This very hardy tall shrub has dark green wood, neat foliage, and small yellow flowers in June. It flourishes in light, sandy soil. 3 to 4 ft., $1 each, $7.50 for 10; 2 to 3 ft., 75 cts. each, $6 for 10.

Caryopteris

Caryopteris incana. Common Bluebeard. (S) A low, spreading bush, producing clusters of beautiful blue, fragrant flowers from September until frost. It dies to the ground here in winter and must be protected if the plant is to continue in a northern climate. 2-yr., 50 cts. each, $4.50 for 10.

Cephalanthus

Cephalanthus occidentalis. Common Buttonbush. (M) An excellent shrub for waterside planting as it thrives best in moist, loamy soil. Its creamy white, fragrant flowers are borne in dense round heads in midsummer. 2 to 3 ft., 75 cts. each, $6 for 10; 18 to 24 in., 60 cts. each, $5 for 10.

Clethra

Clethra alnifolia. Summersweet; Sweet Pepper Bush. (M) A dainty, little, native shrub with spikes of creamy white, fragrant flowers throughout the season. It thrives in shady, damp places, where many shrubs will not grow, and is worthy of a place in every garden. 3 to 4 ft., 90 cts. each, $7 for 10; 2 to 3 ft., 75 cts. each, $5.50 for 10. See illustration.

Cornus • Dogwood; Cornel

Prominent among the hardest and showiest of shrubs are the shrubby Dogwoods. They present a continual display of beauty in flower, leaf, foliage, fruit, and twig that is hard to equal in any other family of shrubs. The common Dogwood of the woods, Cornus florida, is listed under “Deciduous Trees.”

If you wish shrubs in larger sizes than you find listed here, write us for quotations. We have larger specimens in nearly every variety mentioned here.
COTONEASTER

Very decorative shrubs especially attractive by the side of walls or in connection with stonework. The tiny flowers and usually small leaves are most graceful, and the whole aspect of the plant is delicately beautiful. They are hardy, and their fruits are decorative in winter.

Cotoneaster acutifolia villosula. A spreading shrub 12 feet high with especially attractive foliage, hairy on the under side. The decorative fruits are black. From 5-in. pots, 2 to 3 ft., $1 each, $9 for 10.

C. dielsiana. Diels Cotoneaster. Six feet high when mature, the branches are slender and arching, well clothed with small ornamental foliage, and glossy red fruits. Field-grown, 3 to 4 ft., $2 each, $18 for 10; from 5-in. pots, 6 to 9 in., 90 cts. each, $8 for 10.

C. divaricata. Spreading Cotoneaster. A spreading, arching shrub with extremely decorative leaves and tiny bead, or gem-like, flowers. The decorative fruits are black. Field-grown, 2 to 3 ft., $2 each, $18 for 10; from 5-in. pots, 15 to 18 in., $1.25 each, $11 for 10. See illustration page 28.
Deciduous Shrubs

The Bay State Nurseries

COTONEASTER, continued

C. horizontalis. Rock Cotoneaster. (Dm) This low shrub, with its almost horizontal branches and small glossy green leaves, is becoming used more each year. The flowers are pinkish white and the fruit bright red. While it is one of the very best shrubs for use in a rock garden, it is equally attractive in other spots and for use as ground-cover. No shrub in the garden produces more attractive bright red berries in the autumn than the Rock Cotoneaster. From 6-in. pots, 15 to 18 in., $1.50 each, $13.50 for 10; from 5-in. pots, 9 to 12 in., $1.25 each, $11 for 10; from 5-in. pots, 6 to 9 in., $1 each, $8 for 10.

C. horizontalis perpusilla. Like C. horizontalis, one of the finest shrubs for terraces and rockeries. It has smaller leaves and is dwarfer generally. From 5-in. pots, 6 to 9 in., $1 each, $9 for 10.

C. horizontalis wilsoni. Wilson Cotoneaster. A more arching and diffuse form, generally the tallest of the C. horizontalis type. Quite distinct. From 5-in. pots, 12 to 15 in., $1.50 each, $13.50 for 10.

C. moipinisens. Mapin Cotoneaster. Reaches 15 feet at maturity, with thickish leaves, rather longer than most varieties. Flowers pinkish; fruits black. 3 to 4 ft., field-grown plants, $1.50 each, $13.50 for 10.

C. nitens. Much like C. divaricata and equally handsome, but the fruits are shining purple-black. From 5-in. pots, 15 to 18 in., $1.25 each, $10 for 10.

C. racemiflora. One of the hardiest of the family, growing about 4 feet, sometimes lower. Leaves roundish; very free flowering; fruits red. Very handsome. From 5-in. pots, 12 to 15 in., $1.25 each, $10 for 10.

C. rotundifolia (prostrata). A low, much-branched, almost prostrate shrub with small flowers and an abundance of red berries. The leaves are round, glossy, and very handsome. From 6-in. pots, $2.25 each.

Forsythia spectabilis is the finest of the family and makes the garden gay in very early spring. See page 28

COXON, continued

C. nitens. Simons Cotoneaster. A hardy type from the Himalaya mountains. Reaches 4 ft. high; flowers pinkish, and fruits red. Generally considered one of the most ornamental species. 2 to 3 ft., field-grown, $1 each, $9 for 10.

CYDONIA

Cydonia japonica. Japan Quince. (M) One of the first shrubs to bloom in the spring, and very showy because of its glossy leaves and flowers that vary in color from white to scarlet, followed by quince-shaped, fragrant, golden yellow fruit. It has spreading, spiny branches and makes a handsome flowering hedge. 3 to 4 ft., $1.25 each, $11 for 10; 2 to 3 ft., 90 cts. each, $8 for 10.

DEUTZIA

Few shrubs are of such easy culture and give such universal satisfaction. The dazzling white and soft pink of their myriad blossoms yield many handsome effects in garden or border arrangements.

Deutzia gracilis. Slender Deutzia. (D) The slender, arching branches are profusely covered by pure white flowers in early summer. 18 to 24 in., 90 cts. each, $7.50 for 10; 15 to 18 in., 75 cts. each, $5.50 for 10; 12 to 15 in., 60 cts. each, $4.50 for 10.

D. lemoinei. Lemoine Deutzia. (M) An early-blooming, vigorous, floriferous shrub, with pure white flowers in great sprays along its stout branches. Makes a desirable flowering hedge. 3 to 4 ft., 90 cts. each, $8 for 10; 2 1/2 to 3 ft., 75 cts. each, $7 for 10; 2 to 2 1/2 ft., 60 cts. each, $5.50 for 10.

D. scabra plena. Double Rose Deutzia. (L) A vigorous, hardy shrub that in July is covered with close spikes of showy, pink-tinted white flowers, when many other shrubs have finished blooming. Worthy of a place in every collection. 3 to 4 ft., 60 cts. each, $5 for 10.

D. scabra fortunei. Fortune Deutzia. A notably large-flowered type; very charming and not common. 4 to 5 ft., 90 cts. each, $7.50 for 10; 3 to 4 ft., 75 cts. each, $6 for 10.

D. scabra crenata, Pride of Rochester. (L) One of the tallest and best Deutzias. The large, double, white flowers, with the backs of the petals tinged rose, are borne in great profusion in July. 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $5 for 10.

D. scabra crenata var. breviflora. Watereri Deutzia. (L) A beautiful variety with large, double pink flowers in July. 2 to 3 ft., 75 cts. each, $6.50 for 10.

DIERVILLA

Diervilla trifida. Dwarf Bush-Honeysuckle. (D) An excellent shrub for low masses on large estates, but not so desirable for other purposes as the true weigelas which belong to the same botanic group. Bears a profusion of loose, yellow flowers in June. 2 to 2 1/2 ft., 60 cts. each, $5 for 10.

ELAEAGNUS • Oleaster

Yes, there was a shrub in the garden, not so much admired, but not uninteresting. Its name is Elaeagnus angustifolia. Russian Olive. (L) A spreading, somewhat spiny bush, with woolly leaves and fragrant yellow flowers. Especially good for the seashore. Very attractive when in fruit. 2 to 3 ft., 50 cts. each, $4 for 10.

If you have planting problems, we suggest that you consult a landscape architect. Write to us and we will give you the names of several. Experience convinces us that the best results can be obtained, if you are not familiar with plant material, by consulting a competent landscape architect. The landscape architect stands in practically the same relation to us, or any nursery, as the physician does to a drug store. If there are any questions regarding your planting problems that you would like to have us answer, we shall be pleased to do so.
Prettier and with a refinement undreamed of by the much-planted Weigelas, the Beauty Bush (Kolkwitzia amabilis) is one of the most popular new shrubs.

**ELÆGNUS, continued.**

E. *longipes*. Cherry Elaeagnus. (M) This very desirable shrub has reddish brown branchlets, foliage dark green above, silvery beneath, and yellowish white, fragrant flowers followed by edible scarlet fruit. It is showy and attractive at all times, particularly when in fruit, and is one of the comparatively few decorative shrubs which thrive in the neighborhood of salt water. 3 to 4 ft., $1.50 each, $13.50 for 10; 2 to 3 ft., $1.25 each, $11 for 10.

**ENKIANTHUS.**

Enkianthus campanulatus. Bell-flowered Enkianthus. A neat shrub with branches in whorls like a series of umbrellas, which later becomes a small tree. The pinkish striped flowers are like large lilies-of-the-valley and hang in clusters something like those of the styrax. The foliage is its greatest attraction, turning to brilliant shades of pink, red, scarlet, orange, yellow and all sorts of intermediate shades. This is a sour-soil shrub which hates lime, and needs treatment similar to that given azaleas. 9 to 12 in., $2 each.

**EUONYMUS • Strawberry Tree.**

Several other varieties of Euonymus are listed under Evergreen Shrubs.

†Euonymus alatus. Winged Euonymus. (M) Most desirable shrub of dwarf, compact habit, with yellowish flowers, followed by red fruit. The foliage is brilliant red in autumn. 3 to 4 ft., $2 each, $18 for 10; 2 to 3 ft., $1.50 each, $13.50 for 10.

E. *alatus compacta*. Dwarf Winged Euonymus. A dwarf form of the above. A very choice compact shrub which is new and very desirable. 3 to 3½ ft., $3.50 each; 18 to 24 in., $2 each, $18 for 10.

**EUONYMUS, continued.**

E. *americanus*. Brook Euonymus. An upright shrub, growing to 8 feet, with attractive foliage, reddish flowers, and showy pink fruits. 3 to 4 ft., $1 each, $8 for 10.

E. *bungeanus*. Winterberry Euonymus. A slender shrub 15 feet or more high, particularly handsome when covered by its bright orange fruits. 2 to 3 ft., 75 cts. each, $6.50 for 10.

†E. *europaeus*. European Burning Bush. (L) An erect shrub which sometimes makes a small, compact tree. Its foliage is dark green, turning crimson in the fall, and its flowers yellowish, followed by decorative sprays of orange-scarlet fruit. 4 to 5 ft., $1.50 each, $13.50 for 10; 3 to 4 ft., $1.25 each, $10 for 10; 2 to 3 ft., 75 cts. each, $6.50 for 10.

E. *latifolius*. Broadleaf Burning Bush. (L) Large shrubs or small tree with handsome foliage and yellowish flowers in June. Especially attractive when covered by its large, decorative fruit. 3 to 4 ft., 75 cts. each, $6 for 10.

E. *yedoensis*. Yedo Euonymus. The showiest of all the bush Euonymus family. Leaves five to six inches long, slightly pendulous, turn brilliant red in fall. Scarlet berries surrounded by pink husks are produced in great profusion. 3 to 4 ft., $1.50 each, $13.50 for 10.

**EXOCHORDA.**

Exochorda grandiflora. Common Pearl Bush. (L) This is a Chinese shrub of robust, tree-like growth, producing loose clusters of pure white flowers in May, somewhat like large, translucent orange-blossoms and very attractive. The tree is very beautiful where the climate is not too severe. 3 to 4 ft., $1 each, $8 for 10; 2 to 3 ft., 75 cts. each, $6.50 for 10.
FORSYTHIA - Golden Bell

Spring is really spring when the Forsythias bloom! Somehow they are the most welcome of the early shrubs because their tender yellow blossoms so definitely belong to that season and no other; and while they seem no stronger than a cloud of yellow butterflies, they defy and defeat winter at the door of spring! One Forsythia shining against a clump of evergreens is a pretty sight, but a clump of them, a border, or a hedge of it is a miracle of loveliness.

†Forsythia intermedia. Border Forsythia. (L) An erect-growing shrub, but when full grown the branches arch gracefully, and bear clouds of deep yellow flowers. 3 to 4 ft., 75 cts. each, $6 for 10; 2 to 3 ft., 60 cts. each, $4.50 for 10.

†F. intermedia spectabilis. Showy Border Forsythia. Much more profuse-flowering than the original type, and several shades richer in its glorious deep yellow. Plants vigorous and compact. Regarded by the Arnold Arboretum and all others who have grown it as the finest member of the family. A bush of it, when allowed to grow naturally into its splendid mounded form and magnificent size, is a glorious sight in early spring, every branchlet and twig, from top to bottom, completely buried in flowers. 3 to 4 ft., $1 each, $7.50 for 10.

†F. suspensa. Weeping Forsythia. (L) This variety has long, drooping branches, with bright yellow flowers early in April. 3 to 4 ft., 75 cts. each, $6.50 for 10; 2 to 3 ft., 60 cts. each, $5 for 10.

†F. suspensa fortunei. Fortune’s Forsythia. (L) The upright branches of this shrub are covered with a profusion of rich yellow flowers and later by broad, deep green foliage. 4 to 5 ft., 90 cts. each, $7.50 for 10; 3 to 4 ft., 75 cts. each, $6 for 10.

†F. viridissima. Greenstem Forsythia. (M) A more bushy shrub than the other varieties. Its foliage is rich green and it blooms less profusely and somewhat later than the other sorts. It is fine for prolonging the very desirable Forsythia season. 4 to 5 ft., 90 cts. each, $7 for 10; 3 to 4 ft., 75 cts. each, $6 for 10.

HAMAMELIS

Hamamelis vernalis. Vernal Witch-Hazel. Attractive winter-blooming shrub with bright yellow flowers in January, February, or March, which are not injured by zero weather. A shrub of unusual interest for its curious flowers and strange blooming season. Grows about 6 feet high. 3 to 4 ft., $2.50 each, $22.50 for 10; 2 to 3 ft., $2 each, $18 for 10.

H. virginiana. Common Witch-Hazel. (L) Another native shrub much like the hazel. Its queer yellow flowers appear in November after the leaves have fallen. 3 to 4 ft., 90 cts. each, $8 for 10; 2 to 3 ft., 75 cts. each, $6.50 for 10.

HIBISCUS SYRIACUS

Althaea; Rose of Sharon

These are sturdy, tree-like shrubs that wait until the others are through blooming and then they have the landscape to themselves to make it merry with their many flowers of pink, and white, and violet. Late July and August finds them at their best. They are splendid to border a drive, for specimens, or for backgrounds. Not hardy north of Boston.

Anemone floribunda. (L) Double white flowers with a richly tinted center.

Ardens. Double; intense purplish blue.

Boule de Feu. Semi-double; violet-red flowers.

Duchesse de Brabant. (L) This double pink variety is needed in every collection.

Jeanne d’Arc. (L) A very strong-growing shrub, producing double white flowers.

Lady Stanley. (L) One of the most attractive of our collection. Double, bluish-white flowers, with a dark center.

Rubis. Single red.

Snowstorm (Tutus albus). (M) Produces single pure white flowers. A dwarf grower which makes a beautiful hedge.

Prices of above varieties, 3 to 4 ft., 75 cts. each, $7 for 10.
HYDRANGEA

The enormous production of big bold flowers and the long time they remain in attractive condition have earned the Hydrangeas an almost limitless popularity. Few plants are more satisfactory around homes and large estates or parks.

**Hydrangea arborescens grandiflora. Snowball Hydrangea.** Its large clusters of pure snow-white flowers, averaging 4 to 5 inches in diameter, appear from June to the middle of September. Suitable for shady as well as sunny positions. 3 to 4 ft., 90 cts. each, $8 for 10; 2 to 3 ft., 75 cts. each, $6.50 for 10; 18 to 24 in., 60 cts. each, $5 for 10.

**H. paniculata grandiflora. Peegee Hydrangea.** A handsome new shrub from Korea, hardy in New England, making long sprays of graceful foliage and completely buried in delicate pink flowers like tiny weigela blossoms, tinted with yellow in the throat. One of the finest modern introductions to the shrub list and rapidly becoming very popular. The plants take hold quickly and make rapid growth but do not display their full flowering habit for several years. 2 to 3 ft., $4 each, $37.50 for 10; 18 to 24 in., $2.50 each, $22.50 for 10. These are heavy plants.

**H. paniculata. Panicled Hydrangea. (L) This is a form of the above with single flowers, and in many respects is a much more pleasing shrub, particularly for its gracefulness. Highly recommended in landscape planting. It blooms in September, in upright panicles, the flowers creamy white, later turning to shades of rose and purple. 3 to 4 ft., $1 each, $8 for 10; 2 to 3 ft., 75 cts. each, $6 for 10.

**H. radiata. Silver-leaved Hydrangea.** (M) A larger variety than the above, with bright yellow flowers from July to September. 2 to 2 1/2 ft., 90 cts. each, $7.50 for 10; 18 to 24 in., 60 cts. each, $5 for 10.

**H. patulum. Fothergill’s Hydrangea.** This variety is exceedingly well known, being in every garden. Its large, conical heads of white flowers become pink and red with age. It should have plenty of water, and be severely pruned every spring in order to produce large flowers. We offer it in both bush and tree form. Bush form, 3 to 4 ft., 90 cts. each, $7.50 for 10; 2 to 3 ft., 65 cts. each, $5.50 for 10; 18 to 24 in., 60 cts. each, $5 for 10.

**KERRIA • Globe Flower**

**Kerria japonica.** A handsome new shrub from Korea, hardy in New England, making long sprays of graceful foliage and completely buried in delicate pink flowers like tiny weigela blossoms, tinted with yellow in the throat. One of the finest modern introductions to the shrub list and rapidly becoming very popular. The plants take hold quickly and make rapid growth but do not display their full flowering habit for several years. 2 to 3 ft., $4 each, $37.50 for 10; 18 to 24 in., $2.50 each, $22.50 for 10. These are heavy plants.

**LESPEDEZA • Bush Clover**

**Lespedeza formosa (sieboldii). Purple Bush Clover.** A very desirable plant for its long, drooping racemes of rosy purple flowers in September. The top of the plant dies to the ground in winter, and restores itself rapidly during the summer, producing flowers late in the season at a time when showy flowering shrubs are extremely scarce. 2-yr. plants, 60 cts. each, $5 for 10.

**LIGUSTRUM • Privet**

It seems unnecessary to expatiate upon the merits of Privet. Everybody knows what handsome hedges and screens this valuable group of plants can make when properly planted and trimmed. They grow vigorously in almost any situation, even in fairly dense shade and places where the soil seems always dry.

The plants of the varieties I lobata, Regelianum, and Vulgare are used as shrubs in borders of flowering shrubs and are very effective.

**Ligustrum amurense. Amur Privet.** A tall-growing, upright shrub with dark green, lustrous leaves and white flowers like bunches of little white lilacs. Perfectly hardy. This plant has been used for hedges to a tremendous extent in the past few years and has given general satisfaction. It also forms an excellent quick-growing screen.

4 to 5 ft., 75 cts. each, $5.00 for 10, $39 per 100; 3 to 4 ft., 60 cts. each, $3.50 for 10, $24 per 100; 2 to 3 ft., 40 cts. each, $2.50 for 10, $18 per 100.

**ILEX • Holly**

For other shrubs of this family, see Evergreen Shrub section.

**Ilex verticillata. Common Winterberry.** (L) A very ornamental shrub with upright branches and light green foliage. Its bright scarlet berries are very decorative and remain on the branches until mid-winter. 3 to 4 ft., $1.25 each, $11 for 10; 2 to 3 ft., $1 each, $8.50 for 10.

**KOLKWITZIA • Beauty Bush**

**Kolkwitzia amabilis. Beauty Bush.** A handsome new shrub from Korea, hardy in New England, making long sprays of graceful foliage and completely buried in delicate pink flowers like tiny weigela blossoms, tinted with yellow in the throat. One of the finest modern introductions to the shrub list and rapidly becoming very popular. The plants take hold quickly and make rapid growth but do not display their full flowering habit for several years. 2 to 3 ft., $4 each, $37.50 for 10; 18 to 24 in., $2.50 each, $22.50 for 10. These are heavy plants.

**LIGUSTRUM • Privet**

It seems unnecessary to expatiate upon the merits of Privet. Everybody knows what handsome hedges and screens this valuable group of plants can make when properly planted and trimmed. They grow vigorously in almost any situation, even in fairly dense shade and places where the soil seems always dry.

The plants of the varieties I lobata, Regelianum, and Vulgare are used as shrubs in borders of flowering shrubs and are very effective.

**Ligustrum amurense. Amur Privet.** A tall-growing, upright shrub with dark green, lustrous leaves and white flowers like bunches of little white lilacs. Perfectly hardy. This plant has been used for hedges to a tremendous extent in the past few years and has given general satisfaction. It also forms an excellent quick-growing screen.

4 to 5 ft., 75 cts. each, $5.00 for 10, $39 per 100; 3 to 4 ft., 60 cts. each, $3.50 for 10, $24 per 100; 2 to 3 ft., 40 cts. each, $2.50 for 10, $18 per 100.
Deciduous Shrubs

LIGUSTRUM, continued

*†L. ibotii. Ibotii Privet. This is a new hardy Privet, a hybrid between *L. ibota* and *L. ovalifolium*, having the rich, glossy green leaves of the latter and the bushiness and hardiness of the former. It is becoming more popular each year. 3 to 4 ft., 50 cts. each, $4 for 10; 3 to 3 ft., 40 cts. each, $3 for 10. $21 per 100.

*†L. ibota. Ibotii Privet. (L) One of the hardiest and most graceful sorts. It has spreading, curving branches, grayish green leaves, and fragrant white flowers in June, followed by black berries. Useful for specimens, mass planting or hedges. 4 to 5 ft., 60 cts. each, $5 for 10; 3 to 4 ft., 50 cts. each, $4.50 for 10, $27 per 100; 2 to 3 ft., 40 cts. each, $3 for 10, $18 per 100.

*†L. ibotiana. Ibotanum Privet. (M) A low, absolutely hardy shrub, with almost horizontal branches. It is graceful and sufficiently dense for hedges without trimming. 2½ to 3 ft., 70 cts. each, $6 for 10; 2 to 2½ ft., 60 cts. each, $5 for 10, $39 per 100; 18 to 24 in., 50 cts. each, $4 for 10, $33 per 100.

Our Privet is heavy transplanted stock, bushy tops and roots.

CALIFORNIA PRIVET (*Ligustrum ovalifolium*).

(L) This very handsome shrub is of stiff, upright habit. It transplants easily and is most useful for shrubbery, screens, or hedges. 3 to 4 ft., 30 cts. each, $2.20 for 10, $14 per 100; 2 to 3 ft., 25 cts. each, $1.80 for 10, $12 per 100; 18 to 24 in., 20 cts. each, $1.50 for 10, $10 per 100.

LONICERA • Bush Honeysuckle

Graceful shrubs with interesting foliage and habit, charming flowers, in many cases very fragrant, and delightful berries. The climbing Honeysuckles will be found under Lonicera in the section devoted to Vines and Climbing Plants.

**LONICERA, continued**

§*Lonicera bella albida*. White Belle Honeysuckle. (M) A strong, rapidly growing shrub, bearing a profusion of white flowers and scarlet fruits. 4 to 5 ft., 75 cts. each, $6.50 for 10; 3 to 4 ft., 60 cts. each, $5 for 10.

§*L. fragrantissima*. Winter Honeysuckle. (M) This strong-growing bush reaches a height of 8 feet, with very fragrant, creamy white flowers in early spring. 2 to 3 ft., 75 cts. each, $6 for 10.

*L. maackii*. Amur Honeysuckle. A very large and attractive shrub with grayish foliage and graceful branches. Very handsome as a specimen and a very quick-growing subject for the shrub-border. Scarlet berries. 3 to 4 ft., 81 each, $8 for 10; 2 to 3 ft., 75 cts. each, $6.50 for 10.

*L. maackii podocarpa*. Late Honeysuckle. A somewhat dwarfer and more spreading type of handsome form. Very showy and beautiful in fruit. 3 to 4 ft., $1.29 each, $11 for 10.

§*L. morrowi*. Morrow's Honeysuckle. (M) A shrub with wide-spreading branches and leaves which are dark green above and grayish beneath. The creamy white flowers in May and June are followed by bright red fruits ripening in August and lasting until late in the fall. Very decorative. 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $5 for 10.

§*L. ruprechtiana*. Manchurian Honeysuckle. (L) Another particularly desirable shrub because of its yellowish white flowers in June, and showy red fruit in autumn. It grows 12 feet high and has attractive and graceful habit with an abundance of dark green foliage that is grayish beneath. 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $4.50 for 10.

§*L. tatarica alba*. White Tatarian Honeysuckle. (L) Similar to *L. tatarica*, but has large, pure white flowers and crimson fruit. 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $5 for 10.

*L. tatarica grandiflora rosea*. Scarlet berries. 3 to 4 ft., $1 each, $8 for 10; 2 to 3 ft., 75 cts. each, $6.50 for 10.

MYRICA • Wax Myrtle

§*Myrica carolinensis*. Northern Bayberry. (M) A low, spreading native shrub which thrives in sandy places. It is a sub-evergreen, much admired for its fruit and medium-sized, bright green leaves. An ornamental, upright shrub grown for its attractive and graceful habit with an abundance of dark green foliage that is grayish beneath. 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $4.50 for 10.

NEMOPANTHUS

§*Nemopanthus mucronatus*. Mountain Holly. (L) An ornamental, upright shrub with very fragrant flowers and its attractive fruit and medium-sized, bright green leaves. It produces inconsiderate whitish flowers in May and June and attractive red fruit on slender, drooping stalks in August and September. 4 to 5 ft., 75 cts. each, 3 to 4 ft., 60 cts. each.

PHILADELPHUS • Mock Orange

For some curious reason the Philadelphuses were confused a long time ago with the Syringas, which is the proper name of the lilacs, and many people still refer to the old-fashioned Mock Orange as Sweet Syringa. But whatever their name they are charming shrubs, with deliciously fragrant flowers, for most part, and deserve an honored place in every shrub collection.
NORTH ABINGTON, MASS.

Deciduous Shrubs

PHILODELPHUS, continued

†Philadelphus coronarius. Sweet Mock Orange. (L) This tall-growing shrub, with upright branches, has a great profusion of pure white, delightfully fragrant flowers in June and handsome, dark green foliage. It makes a good hedge in partly shady places. 5 to 6 ft., 90 cts. each, $7.50 for 10; 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $4.50 for 10.

P. coronarius foliis aureis. Golden Mock Orange. (D) A graceful, dwarf variety, with bright yellow foliage which retains its color throughout the season, making it very effective for contrast in shrubbery plantings. 18 to 24 in., 90 cts. each, $8 for 10; 15 to 18 in., 75 cts. each, $7 for 10.

†P. gordonianus. Gordon Mock Orange. (L) Very rapid-growing variety with grayish brown branches and large, pure white flowers that come later than the other sorts. 3 to 4 ft., 60 cts. each, $5 for 10.

†P. grandiflorus. Big Scentless Mock Orange. (L) A vigorous variety, with large, white, showy flowers in June. It grows rapidly although its branches are somewhat straggling. 3 to 4 ft., 50 cts. each, $4 for 10.

Hybrid Varieties of Mock Orange

These comprise some of the finest highly developed sorts that have come from the hands of the famous Lemoine of France. They are great improvements over the old types, and need only to be better known to be universally admired.

Avalanche. (M) A very handsome shrub, with slender, drooping branches covered almost the whole length with showy white flowers, whereby it justifies its name. 2 to 3 ft., 75 cts. each, $6 for 10.

Brachybotrys. A new hybrid with tall stems covered by large, pure white flowers. 3 to 4 ft., $1.50 each, $14 for 10.

PHYSOCARPUS

†Physocarpus opulifolius. Common Ninebark. (L) Strong-growing shrub with white flowers along the stems, from which the bark hangs in long shreds and strips. A splendid plant for shady places. 4 to 5 ft., 60 cts. each, $9 for 10; 3 to 4 ft., 50 cts. each, $4 for 10.

†P. opulifolius aureus. Goldleaf Ninebark. (L) Similar to P. opulifolius, but has bright yellow foliage. 4 to 5 ft., 60 cts. each, $9 for 10; 3 to 4 ft., 50 cts. each, $4 for 10.

Lemoine. (M) This choice variety produces fragrant, pure white flowers in clusters in June. It is very desirable for shrub plantings. 3 to 4 ft., 90 cts. each, $7.50 for 10; 2 to 3 ft., 75 cts. each, $6 for 10.

Mont Blanc. (D) Charming dwarf sort, with very large, fragrant flowers, produced in great abundance. This would be a good variety with which to begin a collection of Philadelphuses. Few people realize what a wonderful difference there is between these new hybrids of Lemoine and the old Mock Orange. A whole new range of garden enjoyment is opened by these delightful hardy shrubs, which produce such an abundance of charming, fragrant flowers. Mont Blanc is one of the best of them. 3 to 4 ft., 90 cts. each, $7.50 for 10; 2 to 3 ft., 75 cts. each, $6 for 10.

Virginal. A handsome, erect shrub which covers itself with very large semi-double flowers in June and continues to bloom at the tips of the new shoots all summer and fall. Next to the fragrant old-time P. coronarius, it is the favorite of all lovers of these beautiful shrubs. We do not hesitate to recommend this variety to everyone. In sheer beauty and profusion of bloom it equals the best, and its habit of blooming a little in summer and autumn is an entirely different and valuable character. It ought to be in every garden. 3 to 4 ft., $1.25 each, $10 for 10; 2 to 3 ft., $1 each, $8 for 10.

Rosa hugonis. Delightfully informal, with myriads of exquisite flowers long before other Roses bloom. See page 33.
Deciduous Shrubs

THE BAY STATE NURSERIES

Spiraea trichocarpa. Korean Spirea. Larger and showier than the famous Van Houtte Spirea, and a very valuable new shrub. See page 35

POTENTILLA

Potentilla fruticosa. Shrubby Cinquefoil. (M) A smallish shrub producing numerous, bright yellow flowers throughout the summer. It thrives in either dry or wet soil and is excellent for rockeries. 2 to 3 ft., 90 cts. each, $7.50 for 10; 18 to 24 in., 75 cts. each, $6 for 10.

PRUNUS • Plum and Almond

This is a group of delightful, early-flowering shrubs and small trees beaming with beauty and cheerfulness. Their earliness commends them to all discriminating planters. Certain tree-forms will be found under “Deciduous Trees.”

Prunus glandulosa albiplena. Double Pink-flowering Almond. (M) Produces very double, rose-colored flowers in great profusion in the spring. One of the most charming early-flowering shrubs. 3 to 4 ft., $1.25 each, $10 for 10; 2 to 3 ft., $1 each, $8 for 10.

P. glandulosa sinensis. Double White-flowering Almond. (M) Similar to the pink variety but produces an abundance of double white flowers in May. 3 to 4 ft., $1.25 each, $10 for 10.

†P. maritima. Beach Plum. (S) A handsome thorny plant, of picturesque growth and spectacularly beautiful when covered with its billows of shining white flowers in early spring. Desirable shrub for seaside planting and bleak situations. It grows much taller inland and frequently becomes a small tree. 2 to 3 ft., 75 cts. each, $6.50 for 10; 18 to 24 in., 60 cts. each, $5 for 10.

P. triloba. Flowering Plum. (M) A vigorous shrub, having broad, pointed leaves and delightful light pink, double flowers in early spring. 3 to 4 ft., $1 each, $9 for 10.

PRUNUS, continued

P. virginiana. Common Choke Cherry. (L) Bush or small tree, with rough speckled bark. The fragrant flowers appear in the spring with the leaves in long finger-like racemes, and are followed by red fruit in the summer. 3 to 4 ft., 50 cts. each, $4 for 10.

RHAMNUS • Buckthorn

†Rhamnus cathartica. Common Buckthorn. (M) Fine spiny shrub, with dark green foliage, white flowers, and small fruits. An excellent hedge plant that thrives in partial shade. 3 to 4 ft., 60 cts. each, $3.60 for 10.

R. frangula. Glossy Buckthorn. A handsome shrub or small tree 12 feet high with dark glossy foliage and glittering red fruit which later turns black. Very hardy and persistent. 3 to 4 ft., 60 cts. each, $3 for 10.

RHODODORA

Rhodora canadensis. Rhodora. (D) Very closely related to the azaleas, which it resembles, this dwarf shrub is covered with rosy purple flowers appearing in May. In the wild it grows in moist places but it does well in drier locations. It blooms at the same time as Azalea vaseyi. 15 to 18 in., $2 each, $18 for 10.

RHODOTYPOS

†Rhodotypos kerriioides. Jetbead. (M) A bushy shrub from Japan, bearing snowy white flowers in May, followed by shining black berries. It strongly resembles Kerria japonica in all but the color of its flowers. Grows in all soils and in shady places. 3 to 4 ft., 90 cts. each, $8 for 10; 2 to 3 ft., 75 cts. each, $6 for 10.
RHUS - Sumac

A family of rather curious, big shrubs that deserves notice wherever boldness and decisiveness of effect are wanted.

†Rhus canadensis. Fragrant Sumac. (M) A spreading shrub with clusters or short spikes of small yellow flowers before the leaves. The thick, fragrant foliage turns dark crimson in autumn. 2 to 3 ft., $1 each, $9 for 10; 18 to 24 in., 90 cts. each, $7.50 for 10.

R. cotinus. Common Smoke Tree. (L) A much-admired shrub for its clouds of purplish misty flowers borne in early June. In the fall the leaves change to brown, red, and yellow. 4 to 5 ft., $1.50 each; 3 to 4 ft., $1.25 each, $10 for 10.

†R. glabra. Smooth Sumac. This large shrub has smooth bark and attractive crimson seeds and foliage in autumn. Excellent for masses. 5 to 6 ft., $0.90 each, $7.20 for 10; 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $5 for 10.

†R. typhina. Staghorn Sumac. (L) A bold tree-like shrub with velvety hairy stems and tropical-looking foliage which turns brilliant scarlet in the fall. Its pointed heads of crimson berries persist all winter. Thrives in poor, rocky soil. Especially fine for hillside planting. 5 to 6 ft., 90 cts. each, $7.20 for 10; 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $5 for 10.

ROBINIA

Robinia hispida. Rose Acacia. (M) Highly ornamental shrub, bearing drooping clusters of beautiful rose-colored flowers, like pea-blossoms, on long stems during May and June. Especially attractive in large masses. Will grow in any soil. 3 to 4 ft., $1 each, $9 for 10; 2 to 3 ft., 75 cts. each, $6.50 for 10.

ROSA

Wild Roses or Rose Species

The Wild Roses surely merit the attention of everyone. Their delicate fragrance and the fragile beauty of their flowers are one of the most beautiful things in Nature. They vary widely in their habits, from erect, almost climbing plants like Rosa setigera and R. multiflora, to flat, almost evergreen creepers like R. wichuraiana. The Rugosas are especially fine for bold masses, even on the seashore; and a few Sweetbriers should be intermingled in every shrub planting for the delicious fragrance of their leaves when wet with dew or rain.

§Rosa blanda. Meadow Rose. (M) A slender, erect, red-branched, almost thornless variety, with thin, pale green foliage and single flowers of bright pink, in clusters in May. The stems and red berries are very bright against the winter snow. 2 to 3 ft., 75 cts. each, $6 for 10.

R. hugonis. Hugonis Rose. This big, arching shrub, with spiny stems, blooms very early in May, in long garlands of bright yellow, single flowers which are followed by red, translucent fruits. The best single yellow Rose for shrub use and especially in the background of the rock garden. Give it a warm, sunny exposure to induce it to flower early. The plant is perfectly hardy. 2-yr., $1.25 each, $11 for 10.

§R. lucida. Virginia Rose. (D) A dwarf native variety, with prickly stems, dark green leaves, and single, rosy pink flowers about 2 inches across. It does well on poor soil and is often used for roadside edging. 18 to 24 in., 60 cts. each, $5 for 10.

Most people do not realize the variety of color in the marvelous Hybrid Lilacs. See page 36
Deciduous Shrubs

The Bay State Nurseries

Rosa wichuriana is beautiful in leaf and habit as well as when in flower.

Rosa, continued

| Rosa multiflora japonica. Japanese Rose. (L) A Japanese native of rapid growth, forming a round, drooping shrub of fine proportions when standing alone; its proper place, however, is mixed with other shrubbery. Its bunches of single, pure white flowers which look like clustered blackberry blossoms, are produced in great quantities, and are followed by handsome sprays of small scarlet fruits. 3 to 4 ft., 60 cts. each, $5 for 10.
| Rosa nitida. Bristly Rose. (D) A very dwarf, erect plant whose branches are completely covered with straight prickles and bristles. The foliage is bright green and very glossy, and the flowers bright pink. 18 to 24 in., 50 cts. each, $4.50 for 10.
| Rosa palustris. Swamp Rose. (L) The tall-growing wild Rose, with single pink flowers produced during the summer months. Its bright red fruit is very showy. This variety is especially adapted to damp ground. 18 to 24 in., 50 cts. each, $4 for 10.
| Rosa rubiginosa. Sweetbrier Rose. (L) A well-known variety with delicately fragrant foliage and small, pink, fragrant flowers, followed by quantities of bright fruit. It is especially good in a mixed border where its slender sprays of pretty leaves arch above the lower shrubs. 3 to 4 ft., 75 cts. each, $6 for 10; 2 to 3 ft., 60 cts. each, $5 for 10.
| Rosa rubrifolia. Red-leaved Rose. (L) Slender, erect, purplish branches, covered with a bluish bloom. The foliage is bluish green, tinged with red, and is very effective as a colored shrub. Its flowers are tiny and very vivid pink, sparkling like stars. 2 to 3 ft., 75 cts. each, $6.50 for 10; 18 to 24 in., 60 cts. each, $5 for 10.
| Rosa rugosa. Rugosa Rose. (L) A stout, upright shrub, 6 to 8 feet high, densely covered with prickles, and having bold, wrinkled foliage, immune to insects and disease. The flowers are very large, single, usually purplish red, and very fragrant, followed by crimson-scarlet fruit. 2 to 3 ft., 60 cts. each, $5 for 10, $9 per 100; 18 to 24 in., 50 cts. each, $4.50 for 10, $3 per 100.
| Rosa rugosa alba. White Rugosa Rose. (L) The habit and foliage are similar to the preceding, but the fragrant flowers are pure white. Makes a splendid flowering hedge, particularly at the seashore. 18 to 24 in., 60 cts. each, $5 for 10.

Rosa, continued

| Rosa setigera. Prairie Rose. (L) Large, single flowers of deep rose-color. It is a straggly climber, and when trained over the veranda of a rustic cottage, it makes a beautiful display. Especially handsome on stone piles or walls, and is perfectly at home in a fence corner. 3 to 4 ft., 60 cts. each, $4.50 for 10; 2 to 3 ft., 50 cts. each, $4 for 10.
| Rosa spinosissima. Scotch Rose. A low-growing, very spiny bush, covered in spring with a mass of small, single white flowers. Very attractive because of its dense habit and beautiful foliage. 2 to 2 1/2 ft., 90 cts. each, $8 for 10; 18 to 24 in., 75 cts. each, $6.50 for 10.
| Rosa wichuriana. Wichurian Rose. (D) Used extensively for covering embankments and stone work, as it creeps rapidly over the surface, forming a mat of glossy foliage. The flowers are pure white, borne in clusters late in the season, and are very fragrant. 3-yr., 75 cts. each, $6 for 10; 2-yr., 60 cts. each, $4.50 for 10.

Rubus odoratus. Flowering Raspberry. (M) A low shrub with very large foliage and showy rosy purple blossoms in clusters, followed by large, flattish red fruits. Excellent for massing under trees and on steep banks. 2 to 3 ft., 50 cts. each, $4 for 10.

Sambucus • Elder

| Sambucus canadensis. American Elder. (L) A well-known, very hardy native shrub with big, light green foliage, flat heads of creamy white flowers of the utmost daintiness and charm in June and July, followed by reddish purple berries in autumn. 3 to 4 ft., 60 cts. each, $5 for 10; 2 to 3 ft., 50 cts. each, $4 for 10.
| Sambucus canadensis acutiloba. Cut-leaved Elder. A very handsome type of the foregoing, with finely cut foliage and excellent habit. Distinct. 3 to 4 ft., 75 cts. each, $6.50 for 10.
| Sambucus nigra aurea. Golden European Elder. (L) One of the best of the yellow foliage shrubs if grown in full sunlight. 3 to 4 ft., 75 cts. each, $6 for 10; 2 to 3 ft., 60 cts. each, $5 for 10.
A vast and important family of extraordinarily beautiful shrubs. All have great charm of foliage and the profusion of flowers they produce is remarkable. The famous Bridal Wreath is familiar to everybody; and there are other sorts just as charming, with different seasons of bloom and unusual diversity of habit. We recommend them highly.

**SPIRÆA • Meadowsweet**

A beautiful shrub. All have great charm of foliage and the profusion of flowers they produce is remarkable. The famous Bridal Wreath is familiar to everybody; and there are other sorts just as charming, with different seasons of bloom and unusual diversity of habit. We recommend them highly.

†Spiraea arguta. *Garland Spirea.* (M) The best early-flowering Spirea, producing, in May, sheets of flowers like drifts of snow across the border. Very hardy and beautiful, and we consider it one of the best of the very early-flowering shrubs. 5 to 6 ft., 90 cts. each, $7.50 for 10; 4 to 5 ft., 75 cts. each, $6 for 10; 3 to 4 ft., 60 cts. each, $5 for 10.

†S. bumalda. *Bumalda Spirea.* (D) A very different bushy, dwarf plant, with large, flat heads of rosy pink flowers in great profusion from July until frost. Especially good for low masses of subdued color. 2 to 2 1/2 ft., 75 cts. each, $6.50 for 10; 18 to 24 in., 60 cts. each, $5 for 10.

†S. bumalda, Anthony Waterer. *Anthony Waterer Spirea.* (S) An improved form of S. bumalda. A very free-blooming, compact shrub, with bright crimson flowers in broad, flat heads. The foliage is often variegated with crimson, white, and yellow, especially in spring, and sometimes tinted with pink. Makes a desirable low flowering hedge. 2 to 2 1/2 ft., 60 cts. each, $5 for 10; 18 to 24 in., 50 cts. each, $4.50 for 10.

†S. bumalda, Froebeli. *Froebel Spirea.* (S) Similar to Anthony Waterer but grows taller and less compact bearing bright crimson flowers over a long period. An effective plant for broad low masses of subdued color. 3 to 4 ft., 75 cts. each, $6.50 for 10; 2 to 3 ft., 60 cts. each, $5 for 10.

†S. fortunei. *Fortune’s Spirea.* (S) A handsome shrub with upright branches and young leaves of fine purplish color. In June, its pretty pink flowers appear in large, loose panicles. 3 to 4 ft., 60 cts. each, $4.50 for 10.

†S. japonica ovalifolia. *White Japanese Spirea.* (D) This delightful, dwarf white-flowering shrub is of bushy, symmetrical form, suitable for hedges or borders. 2 to 3 ft., 60 cts. each, $5 for 10; 18 to 24 in., 50 cts. each, $4 for 10.

†S. prunifolia. *Bridal Wreath.* (M) Graceful shrub, with fine, tiny double white flowers in great masses along the stems in May. This is a very well known and long popular plant, as the common name indicates. Latey there has been a tendency to apply the name Bridal Wreath to S. vanhouttei which has become much more common. 3 to 4 ft., 75 cts. each, $6.50 for 10.

†S. reevesiana. *Reeves’ Spirea.* (M) Noted for its dark green narrow foliage which is pale bluish green beneath, and its large pure white flowers. Similar to S. vanhouttei except that its leaves turn scarlet in the autumn. 3 to 4 ft., 60 cts. each, $5.50 for 10.

†S. superba. *Striped Spirea.* (D) Quite dwarf, with striped, dark brown stems and pinkish white flowers throughout June and July. 2 to 3 ft., 60 cts. each, $4.50 for 10; 18 to 24 in., 50 cts. each, $3.50 for 10.

†S. thunbergii. *Thunberg’s Spirea.* (M) Of especially graceful habit, growing about 5 feet tall, and bearing abundant small white flowers in May. Extensively used in trained clusters of snowy flowers in the manner of Vanhoutte’s but larger, broader, and blooms later. A very new variety and a welcome member of this interesting group of shrubs. 3 to 4 ft., 82 each, $18 for 10; 2 to 3 ft., 1.50 each, $13.50 for 10.

†S. vanhouttei. *Vanhoutte’s Spirea.* (L) The finest of all Spireas. Its gracefully arching branches are covered in June with beautiful bunches of tiny white flowers. When out of flower its handsome bluish green foliage makes it very desirable. Unsurpassed for flowering hedges. 4 to 5 ft., 90 cts. each, $6 for 10; 3 to 4 ft., 75 cts. each, $5 for 10, $33 per 100; 2 to 3 ft., 50 cts. each, $4 for 10, $30 per 100.

**STEPHANANDRA**

Stephanandra flexuosa. *Cutleaf Stephanandra.* (M) A beautiful Japanese shrub, closely allied to the spireas, of fountain-like habit, with graceful, spreading and drooping branches, and handsome, deeply cut foliage. In June its pure white flowers appear in panicles. A very valuable subject for shrubberies and rocky banks. 2 to 3 ft., 60 cts. each, $5 for 10.

**SYMPHORICARPOS**

Symphoricarpos chenaulti. *Busher variety than the common Snowberry, covered with light pink berries in summer and autumn. 3 to 4 ft., 90 cts. each, $1.25 each, $10 for 10; 2 to 3 ft., 1 each, $9 for 10.

†S. racemosus. *Common Snowberry.* (M) A fine, bushy shrub with very decorative leaves and slender branches which bend gracefully under a load of white, waxy berries, in autumn. The flowers are rose-pink and appear in July and August. It flourishes in partial shade. 3 to 4 ft., 75 cts. each, $6 for 10; 2 to 3 ft., 60 cts. each, $4.50 for 10.

†S. vulgaris. *Coralberry.* (M) Of more compact growth than the former. The flowers are greenish red and are followed by dark, purplish red berries in clusters. Excellent for massing on hillsides and rough places, or in partial shade. 3 to 4 ft., 60 cts. each, $4.50 for 10; 2 to 3 ft., 50 cts. each, $4 for 10.

**SYRINGA • Lilac**

Again we come upon a family of shrubs too familiar to require description; but who could describe their charm and beauty anyway? There’s a nobility and a haunting aura of romance and memory about the Lilacs that make them almost enchanted things. They are a necessary part of every planting.

*Syringa chinensis.* *Chinese Lilac.* (M) This variety grows about 12 feet high and resembles the Persian lilacs in its large, open heads of violet-blue flowers which appear in June. One of the finest. 3 to 4 ft., $1.25 each, $11 for 10; 2 to 3 ft., 90 cts. each, $8 for 10.

†S. josikae. *Hungarian Lilac.* (L) A sturdy, vigorous shrub with tree-like growth, dark, shining leaves, and bluish purple flowers in June. It is especially valuable for its late bloom which prolongs the Lilac season. 4 to 5 ft., $1.50 each, $13.50 for 10; 3 to 4 ft., $1 each, $9 for 10.

†S. persica. *Persian Lilac.* (M) One of the famous Lilacs with arching branches and very fragrant, pale purple flowers in rather loose, broad panicles, opening late in the spring. 4 to 5 ft., $1.50 each; $10 for 10; 3 to 4 ft., $1 each, $9 for 10; 2 to 3 ft., 75 cts. each, $5 for 10.

†S. villosa. *Late Lilac.* (L) A stout-branched shrub with bright green foliage like that of the white fringe tree. The flowers, which appear in June, are light purple in bud, rosy white when open, and very fragrant. Valuable for late blooming. 3 to 4 ft., $1.25 each, $11 for 10.

SYRINGA, continued

†S. vulgaris. Common Lilac. (L) The best known of all Lilacs. It is a strong, vigorous, upright shrub, with rich, dark green foliage and large clusters of very fragrant purplish flowers in May. A desirable plant for a flowering hedge or large masses. 4 to 5 ft., $1.75 each, $10 for 10; 3 to 4 ft., $1.25 each, $11 for 10; 2 to 3 ft., $1 each, $9 for 10.

†S. vulgaris alba. Common White Lilac. (L) Similar to S. vulgaris, with white flowers a week earlier than those of any other variety. Is also desirable for a flowering hedge or bold clump. 3 to 4 ft., $1.25 each, $11 for 10; 2 to 3 ft., $1 each, $9 for 10.

Hybrid Lilacs

To those of us who were for a long time familiar with only the white and purple kinds of old doorways, the hybrid double and improved varieties seem too splendid to be true. Unlike the old sorts, they bloom when very small plants and can be kept in fairly limited space and indeed that cannot find room for a really representative collection of these splendid Lilacs.

Alphonse Lavallee. Double pale bluish lilac flowers. 3 to 4 ft., $2 each; 2 to 3 ft., $1.50 each.

Charles Joly. Double dark purplish red flowers. One of the darkest and handsomest. 2 to 3 ft., $1.50 each; 18 to 24 in., $1.25 each.

Charles X. Magnificent clusters of single, dark reddish purple flowers. Leaves large and shining. 3 to 4 ft., $1.75 each; 2 to 3 ft., $1.50 each.

Claude Bernard. Large, double bright lilac-mauve flowers in full trusses. 2 to 3 ft., $1.75 each.

Hugo Koster. Handsome pyramidal clusters of large, single, pure lilac-colored flowers. A new variety. 2 to 3 ft., $1.50 each; 18 to 24 in., $1.25 each.

Ludwig Spaeth. Very attractive, dark red, single flowers. One of the very brightest of the dark varieties. 3 to 4 ft., $1.75 each; 2 to 3 ft., $1.50 each.

Marie LeGray. A very fine single-flowering white Lilac, perhaps the most popular of its color. 3 to 4 ft., $2 each; 2 to 3 ft., $1.50 each.

Mme. Casimir Perrier. Double, cream-white flowers. 3 to 4 ft., $1.75 each; 2 to 3 ft., $1.50 each.

Mme. Lemoine. Large, double, white flowers in immense clusters. 4 to 5 ft., $1.75 each; 2 to 3 ft., $1.25 each.

Mrs. Edward Harding. Giant, full trusses of large, double bright carmine flowers. 2 to 3 ft., $5 each.

Pascal. Single, pure lilac-colored flowers, borne in great profusion. 2 to 3 ft., $1.50 each.

President Grevy. Fine double variety, with large panicles of beautiful pale blue flowers. 3 to 4 ft., $1.75 each; 2 to 3 ft., $1.50 each.

Red Marly. Flowers single, rich rosy purple. An exceedingly free bloomer. 3 to 4 ft., $2 each; 2 to 3 ft., $1.50 each.

Vestale. Giant trusses of single, pure white, hyacinth-like flowers of perfect shape. Very beautiful. 2 to 3 ft., $1.50 each; 18 to 24 in., $1.25 each.

HYBRID LILACS, continued

Standard Hybrid Lilacs

Tree Form

4 to 5 ft., $3 each, except as noted

Charles X. Single; dark reddish purple.

Hugo Koster. Single; pure lilac.

Jan Van Tol. Single; pure white; choice variety. $3.50 each.

Ludwig Spaeth. Single; dark red.

Marie LeGray. Single; white.

Michel Buchner. Double, pale lilac.

Mme. Lemoine. Double; white.

President Grevy. Double; pale blue.

TAMARIX • Tamarix

Tamarix africana. African Tamarix. (L) An ornamental shrub of graceful appearance, with light, feathery foliage and long, slender racemes of pinkish flowers in early summer. Forms a striking picture planted at the edge of an evergreen border. 3 to 4 ft., 60 cts. each, $5 for 10.

VACCINIUM • Blueberry

†Vaccinium corymbosum. Highbush Blueberry. A handsome shrub 4 to 12 feet high, much valued for its large, blue-black berries of excellent flavor but favored perhaps even more for its brilliant colored fall foliage which gives a distinct naturalistic effect. The plants we offer are stocky. 3 to 4 ft., $2 each, $18 for 10; 2 to 3 ft., $1.25 each, $11 for 10.

Vigoro is an excellent fertilizer for shrubs. See page 12
VIBURNUM

Here is a group of tremendously important shrubs embracing great variety, from the old-time beauty of the Snowball to the fascinating delicacy of the lace-like Viburnum tomentosum, which some think has the loveliest flower of any shrub or tree. Most of them are prolific bloomers, do well in semi-shade, and follow their flowers with a profusion of handsome fruits of varying colors. This is a group that no one interested in shrubs, and especially native shrubs, can afford to overlook.

Viburnum acerifolium. Mapleleaf Viburnum. A good shrub for dry soil under trees. Flowers yellowish; foliage interesting and maple-like; fruits blackish. This is the Dockmackie of northeastern North America whose foliage is so handsome in late autumn. 2 to 3 ft., $1 each, $9 for 10.

V. americanum. American Cranberry Bush. This very decorative native shrub is of open habit, with attractive flowers and bunches of berries which begin to turn red in July, remaining on the plant until the following spring. 3 to 4 ft., $1 each, $8.50 for 10; 2 to 3 ft., $5.60 for 10.

V. carlesi. Fragrant Viburnum. A low, round bush of rather stubby growth which, in spring, bears charming clusters of pale rosy white flowers of the most delicious fragrance. Rare and much prized. 2/3 to 3 ft., $5 each; 2 to 21/2 ft., $4 each; 18 to 24 in., $3 each, $27 for 10; 12 to 18 in., $2 each, $18 for 10.

V. cassinoides. White-rod. (M) Slender, upright-growing, well furnished with dull green foliage. It has creamy white flowers in June, followed by clusters of dark blue fruit in autumn. Fine for waterside planting or shrub borders, and makes a desirable tall narrow hedge. 4 to 5 ft., $2 each, $18 for 10; 3 to 4 ft., $1.25 each, $10 for 10; 2 to 3 ft., 90 cts. each, $7.50 for 10.

V. dentatum. Arrow-wood. (L) A very handsome, native shrub with glossy green foliage, and white flowers in June, followed by crimson berries which turn blue in autumn. Like the other Viburnums, this variety will flourish in partial shade and likes a moist soil. 4 to 5 ft., $1.25 each, $10 for 10; 3 to 4 ft., $1 each, $9 for 10; 2 to 3 ft., $8 for 10.

V. lantana. Wayfaring Tree. (L) Of robust growth, having large foliage which is silvery underneath. It produces clusters of white flowers in May followed by red fruit, turning black in autumn. Especially good on dry, limestone soils. 3 to 4 ft., $1 each, $8 for 10; 2 to 3 ft., 75 cts. each, $6 for 10.

V. lentago. Nannyberry. (L) A vigorous shrub which may become a small tree. It has creamy white, very fragrant flowers, light glossy green foliage, and blush black fruit. 5 to 6 ft., $1.25 each, $10 for 10; 4 to 5 ft., $1 each, $8 for 10; 3 to 4 ft., $6.50 for 10;

V. molle. Kentucky Viburnum. (M) While this is a native shrub, it is quite rare and is seldom seen. It resembles V. dentatum, but has broader, darker foliage, larger fruits, and is a splendid novelty in the shrub border. 4 to 5 ft., $1 each, $9 for 10; 3 to 4 ft., 75 cts. each, $6.50 for 10.

V. opulus. European Cranberry Bush. (L) One of the best shrubs for general planting. It has white flowers in panicles and red berries, resembling cranberries, which remain until early winter. The foliage is large and healthy, seldom attacked by insects. 3 to 4 ft., $1 each, $9 for 10; 2 to 3 ft., 75 cts. each, $6.50 for 10.

V. opulus nanum. Dwarf Cranberry Bush. A dwarf variety of the foregoing, compact and small-leaved. It rarely flowers. 12 to 18 in., 90 cts. each, $8 for 10.
Deciduous Shrubs

THE BAT STATE NURSERIES

Viburnum tomentosum. Double-file Viburnum. Words cannot do its beauty justice—it must be seen.

VIBURNUM, continued

V. opulus sterile. Common Snowball. (L) A well-known, large shrub, producing large, snowball-like flowers in May. 4 to 5 ft., $1.25 each, $10 for 10; 3 to 4 ft., very heavy, $1 each, $8.50 for 10.

V. sieboldi. Siebold's Viburnum. (M) This vigorous-growing plant has unusually large, rich green foliage, and white flowers in clusters. 3 to 4 ft., $1.25 each; 2 to 3 ft., $1 each, $9 for 10.

V. tomentosum. Double-file Viburnum. (M) Foliage resembles the Japanese Snowball, and the flowers are white, in flat racemes, and borne in great profusion, followed by red berries changing to bluish black. Beyond question the most beautiful of all Viburnums, and possibly of all shrubs. 3 to 4 ft., $1.25 each, $11 for 10; 2 to 3 ft., $1 each, $8 for 10.

V. tomentosum plicatum. Japanese Snowball. (M) It has handsome leaves and globular heads of pure white flowers in June. Better than the Common Snowball in foliage and flower. 3 to 4 ft., $1.25 each, $11 for 10; 2 to 3 ft., $1 each, $8 for 10.

WEIGELA, continued

W. rosea nana variegata. Variegated Weigela. A dwarfish sort with white-margined leaves and almost pure white flowers. 2 to 3 ft., 75 cts. each, $6 for 10; 18 to 24 in., 60 cts. each, $4.50 for 10.

Hybrid Varieties of Weigela

Candida. Snow Weigela. A fine white variety with unusually large and attractive flowers. Very pretty for cutting. 3 to 4 ft., 60 cts. each, $5 for 10.

Eva Rathke. Perhaps the most showy of all, with dark brownish red flowers, brightened by a light center. Very profusely flowering. A well-known variety that has been popular for a long time. 3 to 4 ft., 90 cts. each, $7.50 for 10; 2 to 3 ft., 75 cts. each, $6.50 for 10.

Hendersoni. Henderson Weigela. A handsome variety with bright, light crimson flowers. Very attractive. 3 to 4 ft., 60 cts. each, $5.50 for 10; 2 to 3 ft., 50 cts. each, $4.50 for 10.

ZANTHORHIZA

Zanthorhiza apiifolia. Yellow-Root. (D) Native shrub of low, slender growth, bearing cloudy sprays of plum-colored flowers, like tiny black stars, in April. Valuable for its foliage and dwarf habit, and much used for ground-cover. Very hardy and desirable. In autumn the foliage is gorgeous golden yellow. 15 to 18 in., 50 cts. each, $4.50 for 10; 12 to 15 in., 40 cts. each, $3.60 for 10.

ZENOBIA

Zenobia pulverulenta. Dusty Zenobia. An arching shrub with oval leaves covered with a dusty bloom and clusters of tiny white flowers like lilies-of-the-valley. This very showy and handsome plant is distinctly unusual, and should have a place in every planting of any size. 2 to 3 ft., $1.50 each.
HEDGE PLANTS

BARBERRY, Japanese (Berberis thunbergi). One of the most popular hedge plants. Thorny, dense, man-, dog-, and boy-proof. May be left unsheared or clipped to an even, rounded form. Pretty clusters of red berries in autumn and winter.

2 to 2 1/2 ft., bushy plants. 4 00 $27 00
18 to 24 in., bushy plants. 2 50 18 00
15 to 18 in., busby plants. 2 00 12 00
12 to 15 in., bushy plants. 1 50 9 00

PRIVET, Amur (Ligustrum amurense). Erect, dense hedge of dark, lustrous green. Can be trimmed to any form and is very quick-growing and hardy.

4 to 5 ft. 5 00 $39 00
3 to 4 ft. 3 50 24 00
2 to 3 ft. 2 50 18 00

California (L. ovalifolium). Used in great quantity everywhere, and the most commonly used hedge plant in America. The dark, shining green foliage is almost evergreen, and the hedge can be trimmed to any size, height, or shape. Our plants have stocky tops and heavy roots.

3 to 4 ft. 2 20 14 00
2 to 3 ft. 1 10 10 00
18 to 24 in. 1 50 10 00

Ibolium (L. ibolium). A vigorous, swiftly growing hybrid between the California Privet and the Ibotha Privet, combining the beautiful foliage of the former with the greater hardiness of the latter. A very popular hedge plant.

3 to 4 ft. 4 00 $27 00
2 to 3 ft. 3 00 21 00

Privet, Iboha (L. ibota). Tall, woody growth, with relatively large leaves and arching branches. Very hardy and quick-growing.

3 to 4 ft. $4 50 $27 00
2 to 3 ft. 3 00 21 00

Regel (L. ibota reellianum). Low, horizontally branching, which requires little or no trimming to make a perfect hedge. Very hardy.

2 to 2 1/2 ft. $5 00 $39 00
18 to 24 in. 4 00 33 00

ROSE, F. J. Grootendorst. A fine shrub with handsome foliage and clusters of small, bright crimson flowers all summer. Excellent at summer places along the sea, where an abundance of flowers from July to October is wanted. Perfectly hardy. Plant 1 foot apart. 2-yr., $1 each, $9 for 10, $80 per 100.

18 to 24 in. 4 50 33 00

ROSE, F. J. Grootendorst. A fine shrub with handsome foliage and clusters of small, bright crimson flowers all summer. Excellent at summer places along the sea, where an abundance of flowers from July to October is wanted. Perfectly hardy. Plant 1 foot apart. 2-yr., $1 each, $9 for 10, $80 per 100.

2 to 3 ft. 2 50 18 00
18 to 24 in. 1 50 10 00

Pink Grootendorst. Like F. J. Grootendorst, except that the flowers are pretty shell-pink.

2 to 3 ft. 2 00 12 00
18 to 24 in. 1 50 10 00

Rugosa (Rosa rugosa). Vigorous and erect, with big, handsome foliage and large, rosy purple flowers all summer, followed by showy red and yellow fruits. It makes one of the best hedges near the seashore, withstanding much exposure and salt-spray.

3 to 4 ft. $5 00 $39 00
2 to 3 ft. 3 00 21 00

Willow, Laurel (Salix pentandra). Quick-growing, slender, small trees with handsome foliage, especially useful for tall screens to hid objectionable views or objects.

6 to 8 ft. $1 00 $9 00 $85 00
5 to 6 ft. 90 8 00 75 00
4 to 5 ft. 75 7 00 60 00
ROSES

No one needs an introduction to roses. Everybody who has a few square feet of ground would like to have them—and can have them. We have chosen varieties carefully to insure a good start. The soil should be prepared as for a good crop of vegetables, and be kept thoroughly cultivated about the roses all season. They should be fed liberally with liquid manure made from fresh cow manure or from the commercial dried sheep manure, and should be dusted with sulphur and arsenate of lead regularly to keep off pests. Cut the flowers freely with long stems and hill up the plants with earth at the approach of winter, covering the tops with leaves or evergreen boughs when the ground is frozen.

These simple methods will insure a bountiful crop of supreme flowers, and we urge all our friends to give roses a chance to show what they can do.

A special illustrated leaflet telling "How Roses Should Be Planted" will be sent on request and a copy will be enclosed with each shipment of roses.

HYBRID TEAS

These are the dwarf everblooming roses which produce the beautiful, long-stemmed flowers everyone so much admires. They should be planted about 15 inches apart in rather narrow beds and in lots of not less than three, and preferably a half-dozen or more, of one kind.

Our Hybrid Teas are 2-year-old, field-grown, budded plants, thoroughly dormant for early spring planting. Price $1 each; 5 or more of one kind, 90 cts. each, except as noted. We will furnish 10 or more in varieties of our own selection at 90 cts. each.

Betty Uprichard. One of the most vigorous and dependable decorative bedding roses. Flowers semi-double, brilliant copper and salmon, very freely produced. Unusually good.

Columbia. Beautifully formed flowers of firm texture, with stiff, curled petals, opening pink, darkening to glowing rose as they age. Stems long and strong and almost thornless.

HYBRID TEA ROSES, continued

Dame Edith Helen. Very large, beautifully shaped, extremely double flowers of pure, light pink; very fragrant, and long lasting. Regarded as the handsomest of the very new varieties. $1.50 each.

Duchess of Wellington. Particularly admired for its gigantic, long, richly tinted buds of apricot and yellow. The flowers are very large, not fully double when open, and much lighter in color.

Edel. A noble, perfectly shaped, white rose of great size and substance. Very handsome, both as a bud and open flower.

Etolie de Hollande. Glowing scarlet-crimson, fragrant, and free-flowering. Generally considered the best dark red bedding rose for the amateur's garden. $1.50 each.

General MacArthur. Long known as the best red rose for the garden. Bright, pure color, and one of the most floriferous.

Golden Ophelia. A dark yellow variation of the popular Ophelia.
Gruss an Teplitz. This is different from other Hybrid Teas in its tall, bushy growth, and rather small, nodding flowers in clusters. It is, beyond question, the best outdoor decorative red Rose in existence, but should be planted in masses by itself or in a border around the Hybrid Tea garden proper.

Independence Day. A brilliant orange-yellow Rose with striking flame-color tints, borne very freely on low, branching plants which look best in big masses. The buds are almost unbeatable, but the open flowers are not as double as some.

Kaiserin Auguste Viktoria. This has long been known as the most beautiful white Rose in the world. The bush does not grow very strong, but it is worth having for its unsurpassed beauty of form and color.

Killarney Queen. The Killarney Roses have always been popular and this is the best of the bright pink ones. The buds are splendid.

Killarney White. Typical of the Killarney type, but the big-petaled blooms are snowy white. A very fine white Rose.

Lady Alice Stanley. One of the most handsome and easily grown of the very fine pink Roses. A general favorite with beginner and expert alike.

Lady Margaret Stewart. Large, deep buds and blooms of golden yellow and apricot, flamed with bronze and scarlet. Growth and foliage vigorous and healthy. $2 each.

Los Angeles. A flame-pink Rose of unusual beauty and delicious fragrance. The plants are not always reliable, but they are decidedly worth growing for the extraordinary beauty of the flower.

Miss Willmott. Very large flowers of glistening white, daintily tipped with fawn and pink. Without doubt the best white Rose for the garden. It has better flowers than Mme. Jules Bouché and is not so embarrassingly vigorous as Frau Karl Druschki.

Mme. Butterfly. An exquisite Rose of firm texture and perfect form, shaded with pale-pink, cream, and gold. It is universally acclaimed as a close approach to the ideal garden Rose.

Mme. Edouard Herriot. The blazing copper-red bloom is of almost violent intensity, paling as it opens to soft shrimp-pink. One of the finest Roses.
HYBRID TEA ROSES, continued

Mrs. Aaron Ward. This is a charming little Rose of unusual form, opening rich, golden yellow, paling as it ages to cream, very pale pink, and white. The flowers are small, with double, glossy petals. Soft pink variation of the scarlet F. J. Grootendorst, like it very much.

Mrs. William C. Egan. Exquisite, long-pointed buds of delicate rosy white and pale pink. The flowers are very large and star-like. A strong grower and free flowering. Very fine.

Ophelia. Very similar to Mme. Butterfly, but a shade or two lighter. We like to call it pearly white, because of the beautiful iridescent shades of faint pink, gold, and lilac which play over its waxen petals.

Padre. Brilliant copper-red, almost single flowers, borne on tall, slender stems. Plant the bushes closely together in masses. It makes a stunning show.

Radiance. This is generally considered the best all-round Rose for the beginner. The plants are very strong and they bloom with the greatest freedom, producing big, round flowers of sparkling pink all summer and fall.

Red Radiance. Very much like Radiance in every respect, except that the flowers are bright, light red instead of pink. Some say it grows even better.

Rev. F. Page-Roberts. Large, golden yellow flowers stalked with deep red on the buds and outside of the petals; very fragrant. One of the most beautiful Roses known. $1.50 each.

Souvenir de Claudius Pernet. This is the best pure yellow Rose for the garden. The plants grow stiffly erect, with shining leaves, and bright, unfading shade or two lighter. We like to call it pearly white, because of the beautiful iridescent shades of faint pink, gold, and lilac which play over its waxen petals.

Ville de Paris. Large, globular flowers of pure yellow which do not fade lighter. The plants are tall and wiry and bloom profusely. Foliage leathery and very resistant to disease. A handsome and well-liked new variety.

Willovermere. Soft, golden pink, with luminous lights all through its shell-like petals. The buds are very large, exquisitely curled, and the open flowers are magnificent. The bush is very strong and blooms twice as much as most Roses.

HYBRID RUGOSA ROSES

Our Hybrid Rugosa Roses are $1 each, or 5 or more of one kind at 90cts. each, except as noted.

Blanc Double de Coubert. An excellent, vigorous variety with pure white, semi-double, fragrant flowers.

Conrad Ferdinand Meyer. Very strong, sturdy growth, often reaching 10 to 12 feet. Flowers large, very beautifully formed, and clear light silvery pink.

F. J. Grootendorst. A perfectly hardy ever-blooming shrub Rose suitable for hedges, specimens or border planting. The plant is similar to the vigorous Rugosas in growth, with large, glossy foliage which is seldom attacked by insects or disease. The flowers are small, bright red, fringed like little carnations, and are borne unceasingly from early summer until late autumn in large clusters. We consider it one of the most useful introductions of recent years.

Pinkingoodendorst. A charming, bright shell-pink variation of the scarlet F. J. Grootendorst, like it in all other respects and equally valuable. We find it very popular with those who do not care for the hard brilliance of the red variety and believe it is really a more attractive plant. The color is very soft and appealing and makes a charming effect in the mass. See illustration in color on page 41.

Sarah Van Fleet. A bold, handsome plant of very vigorous growth, with large, semi-double, intensely fragrant flowers of pure pink—the clearest shade of this color in the family. $1.50 each.

POLYANTHAS

The name means “many-flowered.” They bear small flowers in big clusters steadily throughout the summer and make dwarf bushy plants suitable for edging beds of Hybrid Perpetuals, paths, fountains, pools, or shrubbery borders. Undoubtedly the most continuous blooming type of Roses.

Our Polyantha Roses are $1 each, or 5 or more of one kind at 90cts. each.

Baby Rambler. Its big clusters of light, purplish crimson flowers are borne in the greatest profusion all summer and fall.

Chatillon Rose. Brilliant pink, semi-double flowers in giant clusters very freely produced. This variety has a liveliness of color and a persistency in blooming unsurpassed by any other sort.

Ideal. The best dark red Polyanthas. Flowers are in large clusters, freely produced. Dwarfar than most.

Katharina Zeimet. White Baby Rambler. Tiny, very double, snowy white, button-like flowers in tremen¬dous clusters.

La Marne. A very beautiful single variety, with great clusters of soft pink flowers with lighter edges and golden centers. Excellent for edging and dwarf hedges.

HYBRID PERPETUALS

These Roses are bigger, stronger, and hardier than the Hybrid Teas. They are essentially cold-country Roses, and delight in cool weather in spring and summer. Their magnificent blooms are produced in early summer and again in late fall, surpassing all other Roses in brilliance of color and in fragrance.

Feed them heavily and protect them somewhat from the most severe winters.

All Hybrid Perpetual Roses are $1 each, or 5 or more of one kind at 90cts. each.

Fraul Karl Druschki. The best white Rose for the garden. Buds are pinkish, but the delightfully shaped flowers are white, pure, very double, and very fragrant. Very fine.

General Jacqueminst. This is the old-fashioned, rich, sparkling red Rose of fragrant memory. It is still one of the best red varieties, and should be in every garden.

Harison’s Yellow. This is not a Hybrid Perpetual, but a big, bushy, briar Rose, common in old-time gardens, where it blooms in great billows of bright yellow very early in the season. Undoubtedly the finest yellow Rose there is, and it should be freely planted as specimens, borders, and hedges.

Mrs. John Laing. Very symmetrical, smooth flowers of soft, glowing pink, delicately sweet. It blooms very dependably from early summer until late fall and is always one of the loveliest things in the garden.

Paul Neyron. A big, handsome flower of light pur¬plish pink, sweetly fragrant, and very persistent in blooming. This is the Rose most people mean when they say American Beauty.

Ulrich Brandra. Bright, sparkling crimson flowers of cup-like form, and richly fragrant. The bush is particularly strong and blooms most profusely in early summer.
CLIMBING ROSES

Perhaps there is no one group of plants that is so useful and so beautiful in so many different ways as the Climbing Roses. They are suitable for all uses to which most climbers may be put, and surpass almost all of them in the massed splendor of their flowers. They are delightful when trained over a stone wall or grouped to form a hedge-fence, when trained upon a rustic arbor, over a pergola, at the corners of a porch, or over a trellis about the windows of the house. They may adorn garden arches, gateways, fence-corners, or they may be tied to slim posts as pillars where they will make splendid spires of beauty throughout the garden. The range of color is almost limitless, and the flowers vary from tiny clustered rosettes to big blooms for cutting, borne on fine long stems.

Strong, 2-year, field-grown plants, 75 cts. each, $6 for 10, except where noted

Remember, 5 or more plants of one kind are sold at the 10 rate

American Pillar. A very lusty climber with bold, waxy foliage, bearing tremendous clusters of large, sparkling pink, single flowers with a round white eye and bright golden stamens.

Aviateur Bleriot. Beautiful twining growth with holly-like leaves and lemony buds which open to clusters of medium-sized, beautifully shaped, white flowers with pale yellow centers. $1 each, $9 for 10.

Climbing American Beauty. A moderate-growing pillar Rose which blooms very early, producing very large flowers of delightful shape and a rare shade of light purple-red unlike any other. The blooms are richly fragrant, and it is one of the most desirable varieties. 75 cts. each, $6.50 for 10.

Dr. W. Van Fleet. A vigorous, shining-leaved climber which produces beautiful Roses of the Hybrid Tea type on long stems suitable for cutting. It blooms with the greatest profusion rather late in the season. The flowers are of the palest possible shade of pink, with a slightly darker center. Undoubtedly the most beautiful hardy climbing Rose introduced to date.

Dorothy Perkins. Immense clusters of tiny, exquisitely formed little Roses of rich shell-pink in varying shades of softness and intensity. One of the very best climbers in vigor and abundance of blooms.

Emily Gray. The most beautiful yellow climbing Rose, with large, golden tan and buff flowers of exquisite beauty. The plant needs protection in severe winters and exposed situation but is worth it. $1 each, $9 for 10.

Excelsa. Similar to Dorothy Perkins in all respects except the flowers are bright, light crimson.

Gardenia. A strong climber with beautiful foliage and rich yellow buds opening to creamy white flowers with soft yellow centers. One of the hardiest yellow climbers, which are mostly rather tender. 75 cts. each, $6.50 for 10.

Hiawatha. A showy, brilliant red climber with immense trusses of vivid carmine, single flowers with a white eye and a big bunch of yellow stamens. This is one of the brightest and most spectacular Roses grown.

Mary Wallace. Another large-flowered climber of the type of Dr. W. Van Fleet, except that the blooms are brilliant pink with a yellow undertone and are borne in big clusters. It is a very fine new sort which is becoming very popular. $1 each, $9 for 10.

Paul's Scarlet Climber. Brilliant scarlet flowers of large size on a moderately growing plant suitable for tying to a post or pillar. Very showy.

Primrose. A new, truly yellow variety with large, light primrose-yellow flowers. It has especially handsome foliage, is a good grower, and is much harder than Emily Gray which is its only rival. We feel that Primrose is the most promising introduction in many years in the direction of a truly hardy, genuinely yellow, hardy climbing Rose. $1.50 each, $13.50 for 10.

Silver Moon. A very strong climber with beautiful waxy green foliage and very large, pure white, semi-double flowers with golden centers.

Tausendschön. A rapid climber with smooth, almost thornless stems and big clusters of large ruffled flowers of many different shades of pink.

White Dorothy. Snowy white double flowers in immense clusters. Plant very vigorous and easily trained.
Vines and Climbers

Vines are the gardener's greatest aid in covering up mistakes and concealing ignorance in planning or constructing anything from a garage to a spite fence. They also mitigate the harshness of Nature, throwing a mantle of beauty over dead trees, unsightly rocks, or rough banks, but they have a more definite, positive use, as well. They enhance the beauty of a wall of brick or stucco or stone and provide the only excuse for the lattice trellises and garden arbors which are so abundant in suburban areas. They are good-natured, sheltering, friendly plants and ought to be used generously wherever there is need for shade and comfort.

**ACTINIDIA**

Actinidia arguta. Bower Actinidia. A strong-growing Japanese vine, with rather large, handsome leaves. White flowers with purple center and round, edible fruit of sweetish flavor. 3-yr., $1.25 each, $11 for 10; 2-yr., $1 each, $8.90 for 10.

**AKEBIA**

Akebia quinata. Five-leaved Akebia. A very graceful and rapid-growing vine which is hardy and not attacked by insects. The foliage is fine and it bears rosy purple flowers in early summer, followed by ornamental fruit. 3-yr., 75 cts. each, $6.50 for 10.

**AMPELOPSIS**

Ampelesis aconitifolia. Monkshood Vine. A very handsome vine with deeply cut foliage and small blue berries which turn orange as they ripen. 2-yr., 90 cts. each.

A. heterophylla. Porcelain Ampelesis. Has deeply lobed leaves, striped with creamy white, and clusters of light blue, showy berries. Good for low trellis-work. 3-yr., 90 cts. each, $7.50 for 10; 2-yr., 75 cts. each, $6.50 for 10.

A. quinquefolia. Virginia Creeper. A vigorous, high-climbing vine of rapid growth, with rich crimson foliage in autumn. Valuable for covering walls or old tree trunks. 3-yr., 60 cts. each, $4.50 for 10; 2-yr., 50 cts. each, $3.50 for 10.

AMPELOPSIS, continued

A. quinquefolia engelmanni. Engelmann Creeper. Quite similar to the preceding variety but has smaller and neater foliage, which adapts it to less rustic effects. It is also a better climber, sticking closer to walls and other supports than Virginia Creeper. 3-yr., 60 cts. each, $4.50 for 10.

A. tricuspidata. Japanese Creeper; Boston Ivy. A very useful climber, clinging firmly and covering walls, rocks, and stumps densely. The glossy foliage stands smoke and dust well and turns to a brilliant orange and scarlet in the fall. The best substitute for English Ivy. From 4-in. pots, 75 cts. each, $7 for 10; from 3-in. pots, 60 cts. each, $5.50 for 10.

A. tricuspidata robusta. Similar to above, but a stronger grower, with rich, dark foliage. 3-yr., field-grown, 90 cts. each, $7.50 for 10.

**ARISTOLOCHIA**

Aristolochia sipho. Dutchman's Pipe. This very vigorous vine is excellent for porches, its immense leaves providing a cool, dark shade. The purple flowers are of most curious, and interesting pipe-like form. 5-yr., $1.75 each, $15 for 10; 4-yr., $1.50 each, $14 for 10; 3-yr., $1.25 each, $11 for 10.

A. tomentosa. Southern Dutchman's Pipe. A native species of climbing habit and rapid growth. Good green foliage a little smaller than the preceding variety and the numerous, pipe-shaped flowers are yellow. 3-yr., $1 each, $8.50 for 10.
BIGNONIA
Bignonia radicans, Trumpet Creeper. A hardy, high-climbing plant, with large, trumpet-shaped flowers of glowing orange-red in August. 4-yr., 60 cts. each, $3.50 for 10; 3-yr., 50 cts. each, $4.90 for 10.

BOSTON IVY
See Ampelopsis tricuspidata

CELASTRUS
Celastrus orbiculatus. Oriental Bittersweet. Ordinarily this plant assumes a shrub-like form, but if given an opportunity will make a tall and vigorous climber. It has bright green leaves and crimson fruit which is handsome in fall and winter. 5-yr., $1 each, $8 for 10; 4-yr., 90 cts. each, $7.50 for 10.

C. scandens. American Bittersweet. A native climber, with glossy leaves which turn bright yellow in autumn, and big clusters of orange and crimson fruit. 2-yr., 75 cts. each, $6 for 10.

CLEMATIS
Clematis paniculata. Sweet Autumn Clematis. By far the best of the fall-blooming species. It thrives best in sunny situations, and will stand severe pruning in winter. A luxuriant grower and profuse bloomer with fine foliage. The flowers are medium-sized, pure white, very fragrant, and are borne in great profusion. 4-yr., 75 cts. each, $6 for 10; 3-yr., 60 cts. each, $5 for 10; 2-yr., 50 cts. each, $4 for 10.

C. texensis. Scarlet Clematis. A pretty sort, with a profusion of bell-shaped, brilliant scarlet flowers which make a showy display. Foliage light green. 2-yr., 60 cts. each, $5.50 for 10.

C. virginiana. Virgin’s Bower. This rapid-growing native sort produces clouds of white flowers in August, followed by feathery seeds which are decorative in winter. 3-yr., 50 cts. each, $3.50 for 10.

Hybrid Large-Flowering Clematis
Clematis henryi. A robust, free-blooming plant with creamy white, large, handsome flowers.

C. Mme. Edouard Andre. Large crimson flowers. Persistent bloomer.

C. Ramona. One of the prettiest of the Clematises with dainty light blue flowers.

C. viticella. Italian Clematis. One of the parents of the large-flowered hybrid Clematis, with bluish purple flowers. 8 to 12 feet high. 40 cts. each, $3.50 for 10.

Any of the above, except where noted, 2-yr. heavy plants, from 6-in. pots, $1.50 each, $12.50 for 10.

HYDRANGEA
Hydrangea petiolaris. Climbing Hydrangea. A very beautiful, rather rare variety of Climbing Hydrangea, with overlapping, moss-like leaves, and round flat clusters of white flowers. Delightful on a stone wall, and will grow to great height. The fragrance is distinct and delightful and pervades the air for a great distance from the plant. Plants from 3-in. pots, 75 cts. each, $7 for 10.

LYCIUM
Lycium chinense. Chinese Matrimony Vine. A vigorous climber, branching freely, and covered with bright purple, star-shaped flowers, which are succeeded by brilliant scarlet berries almost an inch long. 3-yr., 50 cts. each, $4 for 10.

LONICERA
Lonicera japonica halliana. Hall Japanese Honeysuckle. A vigorous grower with fragrant yellow and white flowers from midsummer until frost. This makes a good ground-cover. 4-yr., 60 cts. each, $4.50 for 10; 3-yr., 50 cts. each, $4 for 10.

L. periclymenum belgica. Dutch Woodbine. A low climber with very fragrant flowers, pale purple outside, from June till September. 1½ to 2 ft., 75 cts. each, $6.50 for 10.

L. sempervirens. Trumpet Honeysuckle. One of the best varieties. Its deep crimson flowers are borne profusely in bunches at intervals throughout the summer followed by scarlet berries. 4-yr., 60 cts. each, $4.50 for 10; 3-yr., 50 cts. each, $3.50 for 10.

POLYGONUM
Polygonum auberti. Chinese Fleece Vine. A tall-growing, hardy vine, with bronzey young leaves which turn green. The white flowers are borne abundantly in feathery sprays. Very quick-growing and desirable. 2-yr. plants from 6-in. pots, $1.75 each, $15 for 10.

PUERARIA
Pueraria thunbergiana. Kudzu Bean. A most worthy ornamental vine. It is a very rapid grower, bearing rosy purple, pea-shaped flowers in August. 2-yr., 50 cts. each, $3.50 for 10.

TECOMA RADICANS. See Bignonia
VITIS

Vitis aestivalis. Summer Grape. A tall climber with large foliage and small, black, tough-skinned berries. 2-yr., 60 cts. each, $5 for 10.

V. cordifolia. Frost Grape. A very vigorous Wild Grape, attaining majestic size with age and providing abundance of foliage for shade. The fruit is black and very good after it has been frosted. 2-yr., 60 cts. each, $5 for 10.

V. heterophylla. See Ampelopsis heterophylla.

V. labrusca. Fox Grape. A strong native vine thought to be the ancestor of most of our finest American Grapes. Especially suited for naturalizing in thickets and wooded corners. 3-yr., 90 cts. each, $7 for 10.

WISTERIA

Wisteria frutescens magnifica. Yellow-eye Wisteria. Resembles W. frutescens, but produces larger and denser clusters of lilac-colored flowers with yellow spots. 3-yr., 90 cts. each, $7.50 for 10.

W. sinensis. Chinese Wisteria. Hardy, fast, tall-growing climber, with pale green, compound foliage and long clusters of purplish pea-shaped flowers in May. 5-yr., $1.25 each, $10 for 10; 4-yr., $1 each, $8 for 10; 3-yr., 75 cts. each, $6 for 10. 3-yr. plants, grown from cuttings from a blooming plant and sure to bloom, $1.25 each.

W. sinensis alba. White Chinese Wisteria. A white-flowered variety of the preceding. 4-yr., $1 each, $8 for 10; 3-yr., grafted plants, $1.50 each, $13.50 for 10.

Polygonum auberti. Chinese Fleece Vine. It is next to impossible to give a really good idea of the extreme delicacy of the Chinese Lace Vine, Polygonum auberti, by either words or pictures. Its cob webby beauty is as difficult to fix as the iridescence on a soap-bubble—as fragile as frost. See page 45.
The beauty of a spring rock garden full of charming little perennials such as are marked with the asterisk (*) in the following list.

HARDY PERENNIALS

No experienced flower-lover needs be told about the importance of Hardy Perennials in successful gardens. Beginners should understand that these plants are long-lived, growing larger and finer from year to year, and if the soil is well and deeply prepared for them at the start, they need not be reset for several seasons. They comprise most of the showiest and the strongest-growing flowers, and must form the foundation of any garden.

They exist in infinite variety, ranging in size from the tiniest edging material to tall, robust plants suitable for massing as a background, and in color through all the shades of the rainbow and a lot more.

A garden wholly of perennials is possible, and it is a delightful game to plan its arrangement so that one variety may succeed another in bloom, and provide a season-long procession of different flowers, in ever-varying forms and colors.

For best effect it is essential to plant in clumps, masses, or drifts of one kind. Such masses should be large enough to do justice to the flowers. The bigger the plants grow, naturally the fewer are required to make a proper display. Generally, however, at least five or six are required, even of the largest kinds, and the smaller sorts should be planted by the dozen or even hundred.

We have grown Perennials successfully for a number of years, and our acreage has been extended from year to year to supply the increasing demand for them.

We add new and choice sorts every year, and our stock includes an unusually large variety. In our descriptions we have indicated the height each plant attains and the months when the flowers appear.

About Prices. We do not sell one plant of a kind, except Astilbes, Irises, and Peonies. Our price is based on 3 of one kind. Too many people try to make gardens by using only one plant of a variety, a procedure bound to lead to disappointment. Three plants at least and, better still, five or ten of a kind, are almost always necessary to do justice to a variety or to produce the mass and color effect desired.

**Except where otherwise indicated, the price of all Hardy Perennials listed is 90 cts. for 3, $2.40 for 10, $18 per 100.**

Five or more plants of one kind will be sold at the 10 rate and 25 or more of one kind at the 100 rate when it is given. Ten plants of different kinds, such as 10 different varieties of Asters, will not be sold at the 10 rate. The lower rate applies only when five or more plants of one variety are ordered.

By consulting the following list, one can plant a garden or border which will produce a succession of bloom from early spring until late in the autumn. Almost all our plants are strong, field-grown sorts, except a few species which transplant better if they are grown in pots.

_Those marked with an asterisk (*) are particularly adapted to the rock garden._
ACANTHUS

Acanthus mollis latifolius. Broadleaf Acanthus. 2 ft. to 3 ft., June and July. Bright purple flowers in dense spikes, profuse and striking. Good for the border or rock garden. $1.20 for 3, $3.50 for 10, $25 per 100.

A. pentaphyllus. Acanthus. 3 ft. to 4 ft., June and July. Purple and white flowers on slender stems. $3.50 for 10, $15 per 100.

A. spinosus. Acanthus Spinous. 3 ft. to 5 ft., June and July. Large spiny leaves and profuse yellow flowers. $3.50 for 10, $15 per 100.

ACHILLEA • Yarrow

The Achilleas are a large family and provide many useful garden plants. They vary immensely from flat, mat-like forms to tall, bold specimens. As they delight in dry, sunny locations, they are useful in many difficult places in the garden or border. Most of them have pungent, aromatic foliage.

*A. ageratum. Sweet Yarrow. 12 to 18 in. June to October. Flat heads of pale yellow flowers and silvery fern-like foliage. Excellent for covering dry, bare places.

*A. bidentata. Yarrow. 3 to 4 ft. June to September. Flowers bright yellow, in flat heads. Neat foliage. A bold, handsome plant. 75 cts. for 3, $2.20 for 10, $15 per 100.

*A. millefolium. Common Yarrow. 12 to 18 in. June to September. Aneuril foliage and flat heads of white flowers. 75 cts. for 3, $2.20 for 10, $15 per 100.

*A. millefolium, Cerise Queen. 15 to 20 in. June to September. A highly developed form of the above with cherry-red flowers on long stems.

*A. millefolium rosea. Pink Yarrow. 18 in. June to October. Rosy pink flowers in dense heads. Effective on edge of shrubbery or in border. 75 cts. for 3, $2.20 for 10, $15 per 100.

A. ptarmica, Boule de Neige. 12 to 18 in. A fine white variety similar to The Pearl, but has fuller and more perfect flowers, and does not grow as tall.

A. ptarmica, Perry's White. 2 ft. June to September. A choice new variety, bearing pure white flowers over an inch across, with broad, overlapping petals, and bright, glossy foliage. Excellent for cutting.

A. ptarmica, The Pearl. 2 ft. July to October. Small heads of pure white flowers borne in great profusion on strong wiry stems. It is of great value for mixing with other cut-flowers. 75 cts. for 3, $2.20 for 10, $15 per 100.

*A. tomentosa. Woolly Yarrow. 5 to 6 in. July to September. Bright yellow woolly flowers. Excellent for edging and rockeries.

ACONITUM • Monkshood

One of the difficult garden problems is solved by the Aconites. They provide the rare and highly prized blue color late in the season, when there is a decided contrast with the dark blue of the other varieties. $1.20 for 3, $3.50 for 10, $25 per 100.

A. napellus. Aconite. 3 to 4 ft. July and August. Long spikes of large, dark blue flowers. One of the oldest and best-liked varieties. $1.05 for 3, $2.70 for 10, $24 per 100.

A. napellus bicolor. Bicolor Aconite. 2 to 2½ ft. July and August. This variety has variegated blue and white flowers, which are very effective. $1.20 for 3, $3.50 for 10.

A. napellus Sparks. Sparks' Aconite. 2½ to 4 ft. July. Very dark blue flowers. One of the finest Aconites because of its free-blooming quality, and makes a fine display for a long time. $1.05 for 3, $3 for 10, $25 per 100.

A. uncinatum. Clambering Monkshood. 3 to 5 ft. June to September. Stems slender, inclined to climb, with thick, deeply cut leaves and dark purple flowers. $1.05 for 3, $2.90 for 10, $20 per 100.

ACORUS • Sweet Flag

Acorus calamus. Sweet Flag. 2 ft. June and early July. A swamp or water plant. Slender, sword-like leaves. 75 cts. for 3, $2.20 for 10, $15 per 100.

A. calamus variegatus. Yellow-stripe Sweet Flag. Same as the preceding, except the ribbon-like foliage is striped with green and gold. 75 cts. for 3, $2.20 for 10.

ACTÆA • Baneberry

Actaea alba. White Baneberry. 1 to 2 ft. May and June. Similar to Red Baneberry but the berries are china white on red stems. Very decorative. Best in shady places.

ÆGOPODIUM • Goutweed

Ægopodium podagraria variegatum. Silver-edge Goutweed. 12 to 18 in. June and July. A rapid-growing plant with decorative white-margined leaves. Fine for edgings, rock gardens, and for covering barren places.

AJUGA

*A. genevensis. General Bugle. 6 to 8 in. May. Long, showy spikes of bright blue flowers. Adapted for use in the orchid, except the ribbon-like foliage is striped with green and gold. 75 cts. for 3, $2.20 for 10.

A. reptans rubra. Purple-leaved Bugle. 5 to 6 in. Early May to mid-June. A dense, creeping plant with numerous blue flowers on erect spikes. Good for carpeting shady places.

ALLIUM

*A. thibeticum. Allium thibeticum. A fine rock plant, with a cluster of dark green, slender foliage from which rise slender stems, 6 to 8 inches high, bearing clusters of lilac-mauve flowers in June and July.

ALTHÆA ROSEA • Hollyhock

Like roses, no one needs an introduction to the Hollyhocks. They are familiar, friendly flowers which have that home-like, old-fashioned air so desirable in the garden. Especially effective against

Excerpt where otherwise indicated, all Perennials are 90 cts. for 3, $2.40 for 10, $18 per 100

48
ALKHEA ROSEA, continued

a fence or stone wall, massed in corners, or clustered against a gate, they are also splendid at the back of the flower-border, or wherever a tall, slender, but self-supporting plant is desired. Their color-range is almost limitless, blue and golden yellow alone being missing. We grow all the good strains obtainable, and offer strong, field-grown plants.

Double Varieties. Apple-blossom, Blood-Red, Crimson, Deep Rose, Dr. Faust, Pink, Salmon, White, and Yellow. 75 cts. for 3, $2.20 for 10, $15 per 100.

Single Varieties. Pink, Red, White, and Yellow. 75 cts. for 5, $2.20 for 10, $15 per 100.

Alyssum is probably more used than any other kind. The perennial sorts offered here although they like plenty of sunlight. Early in the season, providing low edging plants at

Orange King. A double variety with yellow outer petals and a tufted center of orange-apricot. One of the most intensely colored and beautiful of all. $1.20 for 3, $3.50 for 10.

ALYSSUM

The Alyssums are useful edging plants. The annual Sweet Alyssum is probably more used than any other kind. The perennial sorts offered here are somewhat taller and some of them bloom very early in the season, providing low edging plants at a time most annual edgings are not yet in flower. Good rock plants and require no special treatment, although they like plenty of sunlight.

*Allysum argenteum. Silver Alyssum. 12 to 15 in. June to August. The yellow flowers come in dense clusters, with small white leaves beneath, giving a peculiarly beautiful silver effect. Suitable for rock garden and border. 75c. for 3, $2.20 for 10, $15 per 100.

*A. saxatile compactum. Dwarf Goldentuft. 1 ft. Mid-April to June. A very showy spring plant for the rockery or border, having fragrant yellow flowers in clusters, and silvery foliage. 75 cts. for 3, $2.20 for 10, $15 per 100.

*A. saxatile sulphureum. 1 ft. April to June. The very abundant flowers are a soft creamy shade of sulphur-yellow which combines well with soft blue blooms, like forget-me-nots. 90 cts. for 3, $2.50 for 10, $20 per 100.

AMSONIA

Amsonia salicifolia. Willow Amsonia. 1½ to 2½ ft. Late May and early June. Shrubby habit, with stiff, willow-like leaves which are held late, and small light blue flowers with white throats.

A. tabernamontana. Willow Amsonia. 2 to 3 ft. Late May and early June. Small grayish blue flowers in panicles, but the beauty of the plant is in its stiff olive-like foliage which remains in perfect condition all season.

ANCHUSA • Bugloss

A very variable race of plants which provides the much-desired blue flowers. They do well in borders in full sun, but the Dropmore variety seems to prefer a little shade.

Anchusa barreleri. Early Bugloss. 2 to 3 ft. May and June. A bushy plant bearing an abundance of small, dark blue flowers with light pink or yellowish throats.

A. italic. Italian Bugloss. 3 to 4 ft. Large heads of fine blue flowers in June, similar to very large forget-me-nots. Rough leaves and stems.

A. italic. Dropmore. Dropmore Bugloss. 4 to 5 ft. May. An improved variety of the preceding, with rich gentian-blue flowers. One of the most desirable perennials.

ANCHUSA, continued

A. italic. Opal. Opal Bugloss. 3 to 4 ft. Summer. Much like Dropmore but has very beautiful large pale blue flowers.

*A. myosotidiflora. Siberian Bugloss. 10 to 12 in. April and May. A distinct, dwarf perennial variety from Russia, with clusters of charming blue flowers resembling forget-me-nots. An effective rock plant for shady places. $1.20 for 3, $3.50 for 10, $24 per 100.

ANTEPERVERENS. Evergreen Bugloss. 3½ ft. July. Lavender-blue flowers and broad, almost evergreen leaves.

ANEMONE

There are two distinct classes of Anemones. The early sorts are mostly dwarf, and are charming little plants for woodland or rockery. The Japanese sorts bloom in late summer and fall, are much taller, and form fine big clumps that have an artistic grace unequalled by any other flowers in their season. They look especially well against a background of evergreens, and are equally effective in the middle of the perennial border.

Anemone canadensis. Meadow Anemone. 1 to 2 ft. May to July. White, cup-shaped flowers an inch across; borne in a cluster of three large leaves. One of the best of our native Anemones and adapted to shady positions when it makes a fine line of lovely foliage. Fine for naturalizing.

A. hupehensis. Chinese Anemone. A perfect little gem, closely allied to A. japonica, which it resembles in a miniature way. It grows from 18 to 24 inches high, and produces an abundance of pleasing mauve-rose flowers about 1½ inches across, from early in August until late in autumn. 90 cts. for 3, $2.50 for 10, $20 per 100.

A. japonica. Japanese Anemone. 2 ft. Fall. Beautiful rose red flowers with bright yellow stamens.

A. japonica all. White Japanese Anemone. 3 ft. Fall. Glistening white flowers, useful for cutting.

A. japonica, Alice. 2 to 3 ft. Autumn. Very large flowers of pale silvery rose-pink. 90 cts. for 3, $2.50 for 10, $20 per 100.

A. japonica, Lady Ardilaun. 2 to 3 ft. Fall. Pure white variety, with overlapping petals.

A. japonica, Mt. Rose. 3 ft. September to November. Very large, double flowers of delightful rose-pink color. 90c. for 3, $2.50 for 10, $20 per 100.

A. japonica, Prince Heinrich. 2 to 3 ft. Fall. Large, very double, dark pink, almost red flowers; borne very freely. 90 cts. for 3, $2.50 for 10, $20 per 100.

A. japonica, Queen Charlotte. 3 ft. Fall. Large, semi-double, deep pink flowers. Desirable for cutting; is well known and widely planted.

A. japonica, Richard Arends. 4 ft. Autumn. Glistening white, single flowers, sometimes tinted with lavender. Vigorous plant. 90 cts. for 3, $2.50 for 10, $20 per 100.

A. japonica rosea superba. 2 ft. Fall. Flowers of medium size, delicate silvery rose-color, borne profusely on rigid stems.

A. japonica, Whirlwind. 3 ft. Fall. Large, semi-double, snowy white flowers with a whorl of green around base of petals.

*A. pulsatilla. European Pasque Flower. 9 to 12 in. April and May. Well adapted for border or rockwork. Flowers blue to reddish purple.

*A. pulsatilla rubra. Red European Pasque Flower. 9 to 12 in. April and May. A red-flowering form of A. pulsatilla. Fine for rockery or border. $1.05 for 3, $2.70 for 10, $24 per 100.

*A. sylvestris. Snowdrop Anemone. 12 to 15 in. April to July. Fine creamy white flowers which nod gracefully. Foliage deeply cut at top, hairy beneath. Good in border or partial shade.

ANTENNARIA

Distinct and charming Hardy Asters. See page 53
ANTHEMIS • Camomile

These are very hardy bushy plants with daisy-like flowers and strongly scented pungent foliage. They are excellent and enduring subjects for the perennial border and require only ordinary soil and full sunlight.

A. tinctoria. Yellow Camomile. 2 to 3 ft. June to November. Of bushy habit, with angular stem and daisy-like golden yellow flowers, 1 to 2 inches across.

A. tinctoria kelwayi. Kelway Camomile. 2 to 3 ft. June to October. Pretty lemon-yellow flowers similar to the preceding. Good for cutting and for the border.

A. tinctoria, E. C. Buxton. 2 to 3 ft. June to October. A similar variety to above, with cream-colored flowers. 90 cts. for 3, $2.70 for 10, $15 per 100.

A. tinctoria. Yellow Camomile. 2 to 3 ft. June to November. Of bushy habit, with angular stem and daisy-like golden yellow flowers, 1 to 2 inches across.

A. tinctoria kelwayi. Kelway Camomile. 2 to 3 ft. June to October. Pretty lemon-yellow flowers similar to the preceding. Good for cutting and for the border.

A. tinctoria, E. C. Buxton. 2 to 3 ft. June to October. A similar variety to above, with cream-colored flowers. 90 cts. for 3, $2.70 for 10, $15 per 100.

ANTHERICUM

Anthericum liliago. St. Bernard's Lily. 2 to 3 ft. May and June. A very decorative specimen or border plant with slender, ribbon-like leaves and tall stems bearing loose spikes of starry white flowers tipped with green. Of very easy culture. $1.05 for 3, $2.70 for 10, $15 per 100.

A. liliago giganteum. See Paradisea.

AQUILEGIA • Columbine

The Columbines are among the best-known and best-liked plants, thriving, as they do, under many diverse conditions of sun, shade, and varying soil. They are especially good at the edge of a shady border or among the ground-cover beneath densely foliated trees. They combine well with almost all plants, but show up especially well with hemerocallis, pachysandra, wild ferns, Filipendula bexapetala, various irises, trollius, and lupines. For rockeries, the native Canadensis is superb. They are persistent perennials, although they are likely to disappear unaccountably. As they seed very freely, there are always new plants to replace missing ones.

*A. caerulea. Colorado Columbine. 1 to 1 1/2 ft. May to July. Outside petals blue and throat white. Long-spurred flowers.

*A. canadensis. American Columbine. 2 ft. May and June. Our well-known native species, with scarlet sepals and bright yellow petals. One of the gayest of all flowers and most useful for rock gardens. 75 cts. for 3, $2.20 for 10, $15 per 100.

*A. flabellata nana. Fan Columbine. 8 to 12 in. June. Dwarf, compact species with showy purple or lilac flowers. Excellent for rock gardens. 75c. for 3, $2.20 for 10, $15 per 100.

*A. flabellata nana alba. White Fan Columbine. 8 to 12 in. June. A dwarf white form of the above. 75 cts. for 3, $2.20 for 10, $15 per 100.

*A. flabellata nana alba. White Fan Columbine. 8 to 12 in. June. A dwarf white form of the above. 75 cts. for 3, $2.20 for 10, $15 per 100.

*A. formosa, Long-spurred Hybrids. California Columbine. 2 to 3 ft. May to July. Large flowers of a bewildering wealth of delicate colors. Spurs very long and fine. Foliage broad and ornamental.

*A. skinneri. Mexican Columbine. 2 ft. May and June. Crimson sepals lined with light green petals and long, straight, crimson spurs. Good border plants. 75 cts. for 3, $2.20 for 10, $15 per 100.

ARABIS • Rock Cress

These are edging plants of the highest quality, producing a mat of white flowers very early in the season, and providing a soft, grayish green carpet throughout the rest of the season. Splendid both for rockwork and edging borders.

*Arabis alpina. Wall Cress. 6 to 9 in. May. Fragrant white flowers in clusters. Especially adapted to stony banks.

*A. alpina flore-pleno. Double-flowering form of the above. Very desirable. $1.05 for 3, $3 for 10.
Hardy Perennials

Arenaria montana. A glittering white gem for the rock garden

*Armeria alpina. Alpine Rock Cress. 9 in. April and May. Flowers smaller but similar to the former variety and produced in even greater profusion. One of the best rock plants. 75 cts. for 3, $2.20 for 10, $15 per 100.

*Ar. alpina nana compacta. Dwarf Alpine Rock Cress. 6 in. or less. April and May. Similar to the preceding but lower and denser.

*Ar. mollis. Early spring. Glossy tufted plants bearing clouds of white flowers. Foliage attractive all season. $1.05 for 3, $3 for 10, $20 per 100.

ARENARIA • Sandwort

*Arenaria balearica. Corsican Sandwort. 4 in. June. White flowers. Suitable for rockwork. $1.05 for 3, $2.70 for 10, $24 per 100.

*A. montana. Mountain Sandwort. 4 to 6 in. May and June. Very desirable evergreen trailing plant, forming a dense carpet of foliage and covered with large white flowers. Splendid for the rock garden.

*A. verna caespitosa. Moss Sandwort. 1 to 3 in. June. A compact, mossy plant with small flowers on thread-like stems which creeps along the ground and between stones. Excellent for the rock garden and informal flagged walks.

ARMERIA • Thrift

For the edging plants which are commonly called Armeria, see Statice.

ARRHENATHERUM • Oat Grass

*Arrhenatherum bulbosum variegatum. Variegated Oat Grass. 6 to 12 in. A dwarf grass with variegated green and white leaves. Makes a fine edging along a shrub-border, or good foliage masses among other perennials.

ARTESMISA • Wormwood

This family embraces many aromatic and bitter herbs from which various drugs are extracted. Mostly they are used in the garden for their beautiful foliage effects, but A. vulgaris lactiflora is a handsome flowering plant which has attracted considerable attention and has found many decorative uses in garden schemes. All these plants delight in poor, dry soil and in sunny situations, a fact that gives them unusual importance.

Artemisia abrotanum. Old Man; Southernwood. 3 to 4 ft. Flowers inconspicuous. Foliage deep green, pleasantly fragrant, and finely cut. $1.50 for 3, $4.50 for 10.

A. absinthium. Common Wormwood. 2 to 4 ft. Flowers unimportant. An old-fashioned garden herb from which the bitter wormwood tea is brewed.

A. dracunculus. Tarragon. 3 ft. Another old-fashioned herb with dark green, pointed foliage, which is used for flavoring. $1.05 for 3, $2.70 for 10, $20 per 100.

A. pontica. Roman Wormwood. 9 to 12 in. Shrubby erect plants with handsome silvery foliage and whitish yellow flowers in nodding heads.

A. Silver King. Ghost Plant. 3 ft. July. White, silvery leaves and sprays of mint-like flowers, useful for cutting and for lightening heavy color combinations in the border. Sprays keep indefinitely and may be dried for winter bouquets. A very useful plant. 90 cts. for 3, $2.50 for 10, $20 per 100.

A. stelleriana. Old Woman; Dusty Miller; Beach Wormwood. 2 ft. Attractive for its silvery, fine-cut foliage, which makes a splendid edging, especially when mixed with pinks or some low blue flower. 75 cts. for 3, $2.20 for 10, $15 per 100.

A. vulgaris lactiflora. White Mugwort. 3 to 4 ft. August and September. Unlike the other varieties, which are grown for their foliage, this introduction from China bears sprays of creamy white flowers on tall, erect stems which are clothed with fine-cut, dark green foliage. It makes a splendid cut-flower for mixing with flowers of decided color or form, such as delphiniums. $1.05 for 3, $2.70 for 10, $20 per 100.

ARUNCUS • Goatsbeard

Aruncus sylvester. Common Goatsbeard. 4 ft. June. A bold, and highly ornamental perennial, resembling the astilbes but taller, and producing long, feathery plumes of white flowers. $1.05 for 3, $3 for 10, $20 per 100.

ASCEPIAS • Milkweed

Asclepias incarnata. Swamp Milkweed. 3 to 4 ft. July. Leafy and branching with nodding heads of showy purplish red flowers. The seed-pods are curiously owl-like and they are fascinating in winter.

As. tuberosa. Butterfly Weed. 18 to 24 in. July to September. A handsome low, bushy plant, with heads of dazzling orange-colored flowers. Fine plant for naturalizing. $1.05 for 3, $2.70 for 10, $21 per 100.

ASPERULA • Woodruff

*Asperula odorata. Sweet Woodruff. 6 to 8 in. May. Erect little plants with fine-toothed leaves in clusters of eight, and heads of snowy white flowers. Increases rapidly and is used for carpeting shady places and for edgings. A fine scented herb. 90 cts. for 3, $2.40 for 10.

ASPHEODELINE • Jacob’s-Rod

Asphodeline lutea. Common Jacob’s-Rod. A fine border plant, having tall spikes of very fragrant, bright yellow, lily-like flowers and sword-like foliage.

ASTER

A very beautiful class of hardy plants, including a great variety of forms which vary a great deal in size of blooming, size of flowers, and stature. The dwarf, alpine species indicated below bloom early and are splendid decorative plants for either rockery or border. The tall, fall-blooming kinds, or Michaelmas Daisies, are descendants from the beautiful wild New England Aster so common in Massachusetts, and many other native species.
**North Abington, Mass.**

**Hardy Perennials**

**Asters, continued**

| Name | Height | Flowers | Description
|------|--------|---------|-----------------------------------------------------|
| *A. longifolius* | 12 to 18 in. | White similar to *A. alpinus albus*. | Soft blue flowers similar to *A. alpinus giganteus*. 12 in. to 1 ft. May and June. 

**Abendroth.** 5 ft. September and October. Bright rosy red flowers of great profusion. One of the best. 90 cts. for 3, $2.40 for 10, $18 per 100.

**Anita Ballard.** 4 ft. August and September. Large, pale, cornflower-blue, semi-double flower with recurved rays. $1.05 for 3, $3 for 10, $21 per 100.

**Beauty of Colwall.** 4 ft. August and September. Charming double flowers of soft lavender. 90 cts. for 3, $2.40 for 10, $18 per 100.

**Lady Gem.** 4 to 5 ft. September and October. Very large, double flowers of a glorious shade of rich dark blue. One of the handsomest ever introduced. $1.20 for 3, $3.50 for 10, $24 per 100.

**Feltham Blue.** 2½ ft. to 4 ft. August and September. A decorative, free-blooming variety with bright blue flowers, having yellow centers. 90 cts. for 3, $2.40 for 10, $18 per 100.

**Grey Lady.** 3 to 4 ft. Large, double-flowered variety of most exquisite shade of opal-grey, resembling small chrysanthemums. $1.20 for 3, $3.50 for 10, $24 per 100.

**King of the Belgians.** 3 ft. September. Immense, semi-double, lavender-blue flowers with bright golden centers. $1.20 for 3, $3.50 for 10, $24 per 100.

**Lady Lloyd.** 3 to 4 ft. August and September. A very beautiful variety with large heads of clear rose-pink flowers. 90 cts. for 3, $2.40 for 10, $18 per 100.

**Lady Trevillyn.** 3 to 4 ft. September. Immense heads of white flowers with yellow centers. Most conspicuous and ornamental. $1.05 for 3, $3 for 10, $21 per 100.

**Mme. Emilie Thouy.** 3 ft. August. Profuse bloomer; flowers light ageratum-blue. Earlier than Climax. $1.20 for 3, $3.50 for 10, $24 per 100.

**Peggy Ballard.** 3 ft. Large, pyramidal sprays of double rosy mauve flowers on compact plants. A fine thing. 90 cts. for 3, $2.40 for 10, $18 per 100.

**Perry's Favorite.** 18 to 24 in. A very showy variety with erect, bright reddish pink flowers of medium size. 90 cts. for 3, $2.40 for 10, $18 per 100.

**Perry's White.** 2 ft. August and September. White flowers over 2½ inches across, with a golden disk that turns to rich maroon. $1.05 for 3, $3 for 10, $21 per 100.

**Queen Mary.** 3 to 4 ft. Enormous rich blue flowers in large, conical trusses. A new sort of great merit, much praised abroad. $1.20 for 3, $3.50 for 10, $25 per 100.

**Sam Banham.** 3 to 4 ft. August. Long, feathery sprays of large, pure white flowers. $1.20 for 3, $3.50 for 10, $24 per 100.

**Snowflake.** 24 in. August and September. Flowers snow-white. Fine. $1.05 for 3, $3 for 10, $21 per 100.

**St. Egwin.** 18 to 24 in. September and October. A charming bright pink Aster produced on strong, symmetrical plants. 90 cts. for 3, $2.40 for 10, $18 per 100.

**Thomas Ware.** 3 to 4 ft. Late. Effectively delicate pink flowers. Very dense habit. $1.20 for 3, $3.50 for 10, $24 per 100.

**White Climax.** 5 ft. August. A pure white form of the ever-popular Climax. 90 cts. for 3, $2.40 for 10, $18 per 100.
The fluffy plumes of the Astilbes have an airiness and a laciness about them unequalled by any perennial of similar habit. They are not very common in gardens, although they succeed well in ordinary soil, and even in partial shade if they are given plenty of water during the growing and flowering season. They are most familiar as pot plants from which they are not.

They have an indescribable beauty when used as an edging to a border of shrubs or evergreens, and the many varieties shade into each other in delicate tints of white, cream, pink and rose. We recommend them highly.

**Astilbe arendsi.** This is a horticultural name given to a number of hybrids of *A. davidii*, all of exquisite beauty, and of which a representative collection follows:

**America.** A charming, pale pink, medium tall variety which is much used for early forcing. 50 cts. each, $4 for 10, $30 per 100.

**Betsy Cuperus.** 5 ft. Stout, well-filled spikes, tipped with drooping sprays of pure white flowers dotted with pink in the center. 60 cts. each, $5 for 10.

**Ceres.** 2½ to 3 ft. Last of July to August. Well-branched panicles of brilliant rose lilac flowers. 50 cts. each, $4 for 10.

**Crepuscule.** 2½ to 3 ft. Flesh-colored flowers in large sprays. 50 cts. each, $4 for 10.

**Feerie.** 18 to 24 in. Very handsome panicles of pale flesh-white flowers of great delicacy and charm. 50 cts. each, $4.50 for 10.

**Gerbe d’Argent.** 2 to 3 ft. The big sprays of almost pure white flowers are most handsome. 50 cts. each, $4 for 10, $30 per 100.

**Gloria.** 2 ft. July and August. Compact dwarf plants with dense, creamy sprays of deep pink flowers. 40 cts. each, $3.50 for 10, $25 per 100.

**June.** 3 ft. Plumes rich violet-rose. 50 cts. each, $4 for 10, $30 per 100.

**Marguerite van Rechteren.** 5 ft. August. A handsome, tall sort with fringy red flowers tinted with lilac. 60 cts. each, $5 for 10.

**ASTILBE, continued**

**Meta Immink.** 3 ft. Deep pink flowers in dense plumes. 50 cts. each, $4 for 10, $30 per 100.

**Moerheim.** 4 ft. Its well-branched, erect spikes of flowers have a length of over 2 feet and are pure white. 50 cts. each, $4 for 10.

**Pyramidal.** 2 to 3 ft. Very fine panicles of pure milky white. 50 cts. each, $4 for 10, $30 per 100.

**Rose Pearl.** 2½ ft. July and August. Shell-pink flowers of a very delicate and appealing shade. 40 cts. each, $3.50 for 10, $30 per 100.

**Salland.** 6 ft. Gigantic feathery sprays of rich red flowers. 50 cts. each, $4 for 10, $30 per 100.

**Vesta.** 1½ ft. Very graceful plumes of light mauve and lilac. 40 cts. each, $3.50 for 10, $30 per 100.

**A. astilboïdes.** **Goatsbeard Astilbe.** 2 to 3 ft. The erect branching panicles are crowded with dense clusters of white flowers. 35 cts. each, $2.70 for 10, $20 per 100.

**A. chinensis.** **Chinese Astilbe.** 18 in. July and August. Finely cut foliage. Pink flowers in fine sprays which are effective in masses and in the border. 35 cts. each, $2.70 for 10, $20 per 100.

**A. davidii.** **David Astilbe.** July and August. The flower-spikes are 5 feet high, like a gigantic Astilbe japonica, of lovely pink. 50 cts. each, $4 for 10.

**A. japonica.** **Japanese Astilbe.** 1 ft. June and July. Its plumè-like spikes of pure white flowers and pretty dark green foliage make this a valuable sort for shady places in the garden or forcing. 35 cts. each, $3.00 for 10, $20 per 100.

**A. japonica, Peach Blossom.** 15 to 18 in. July and August. Soft pink flowers. 40 cts. each, $3.50 for 10, $27 per 100.

**A. japonica, Queen Alexandra.** 2 ft. A very fine early-flowering variety of soft creamy pink color. 40 cts. each, $3.50 for 10, $24 per 100.

**A. japonica, W. E. Gladstone.** 2 ft. Similar to Queen Alexandra, but has feathery plumes of pure white flowers. 50 cts. each, $4 for 10, $30 per 100.

**AUBRIETIA**

Charming little plants closely related to the Alyssum tribe and used for the same purpose, providing a wide range of purple, violet, and pink shades in ideal plants for rockwork or edging.

*Aubrietia deltoidea.** **Common Aubrietia.** 3 to 4 in. April and May. Small, showy purple flowers which almost hide the silvery foliage, making a closely woven mat between rocks and along edges of borders. 10 cts. for 3, $1.05 for 10, $7 per 100.

*A. deltoidea bougainvillei.** **Bougainville Aubrietia.** 4 in. A more compact little plant than the foregoing, with flowers of light violet. $1.05 for 3, $2.70 for 10, $20 per 100.

*A. deltoidea graeca.** **Greek Aubrietia.** 3 to 4 in. May. A rock plant of trailing habit, thickly covered with dark violet flowers larger than other Aubrietias. $1.05 for 3, $2.70 for 10, $20 per 100.

*Baptisia • Wild Indigo*

*Baptisia australis.** **Blue Wild Indigo.** 2 to 3 ft. Late May and June. A handsome plant, with deep blue, lupine-like flowers in long, curving racemes. Easily cultivated and adapted to any garden soil.

**B. tinctoria.** **Yellow Wild Indigo.** 2 to 3 ft. July. A bushy plant with dark green, deeply cut foliage and showy spikes of bright yellow flowers. 75 cts. for 3, $2.20 for 10, $15 per 100.

**BELAMCANDA • Blackberry Lily**

*Belamcanda chinensis.** **Blackberry Lily.** 2 to 3 ft. July and August. A loosely formed, iris-like plant with slender, much branched stems bearing bright orange-yellow, lily-like flowers, spotted with brown.
They are very easy to grow and take care of them—6 to 7 ft. October. Flowers are pink, B. laevigata. Dwarf Pink-rayed Boltonia. B. latisquama. Violet Boltonia. 4 ft. July to October. A handsome plant with large, ruffled foliage and nodding clusters of creamy flowers which are followed by grayish seeds that make a pleasant rattle in the wind. Good in wild garden or shrubbery and for subtropical effects. 75 cts. for 3, $2.20 for 10, $15 per 100.

BOLTONIA

A group of plants closely related to the hardy asters and useful for the same purposes. Their stems are stiffer and wirier, requiring less support. They form a very large and much-varied family, containing plants of absorbing interest and beauty for every purpose. The taller sorts are indispensable for handsome garden effects, and the dwarfer types are equally at home in the rockery or at the edge of garden beds.

CAMpanula • Bellflower

No one interested in rock gardening can afford to pass by the Bellflowers, and perennial borders rely upon them for some of their finest effects. They form a very large and much-varied family, containing plants of absorbing interest and beauty for every purpose. The taller sorts are indispensable for handsome garden effects, and the dwarfer types are equally at home in the rockery or at the edge of garden beds.

CAMPANULA • Bellflower

No one interested in rock gardening can afford to pass by the Bellflowers, and perennial borders rely upon them for some of their finest effects. They form a very large and much-varied family, containing plants of absorbing interest and beauty for every purpose. The taller sorts are indispensable for handsome garden effects, and the dwarfer types are equally at home in the rockery or at the edge of garden beds.

CAMPANULA • Bellflower

They form a very large and much-varied family, containing plants of absorbing interest and beauty for every purpose. The taller sorts are indispensable for handsome garden effects, and the dwarfer types are equally at home in the rockery or at the edge of garden beds.

BUPHTHALMUM • Oxeye

Buphthalmum salicifolium. Willowleaf Oxeye. 1½ ft. June and July. A showy garden plant of compact habit, with a profusion of flowers like big, clear yellow daisies. $1.05 for 3, $2.70 for 10, $20 per 100.

B. speciosum. Heart-leaved Oxeye. 3 to 4 ft. June and July. A much larger plant than the preceding, with very big, heart-shaped leaves and large, yellow flowers. It grows very thickly and makes splendid masses. $1.05 for 3, $2.70 for 10, $20 per 100.

CALMERIS

Calimeris incisa. Starwort. 1 to 2 ft. July and August. A plant of easy culture in any good soil. Similar to the hardy asters and makes a brave display of large, purple-rayed flowers shading to pale lavender with yellow centers.

CALTHA

Caltha palustris. Marsh Marigold. 1 ft. May and June. A cheerful little plant for marshy places and by the sides of streams and ponds. Flowers bright yellow and look like clusters of big buttercups.
CAMPANULA, continued

C. latifolia macrantha. Royal Bellflower. 3 ft. June and July. Very handsome, enormous drooping bells of fine satiny lilac and deep purplish shades in splendid spikes. Similar to but larger than the preceding variety.

*C. latiloba (grandis). Olympic Bellflower. 1½ ft. May and June. Very showy, large, saucer-shaped flowers of rich violet-blue often 2 inches across.

C. latiloba alba. A charming form of the above.

C. medium. Canterbury Bells. 2 to 3 ft. Late June and July. Very large, bell-shaped flowers of blue, white, pink, and mixed. This is, perhaps, the most delicately beautiful of all. The white and pink kinds are especially lovely. Colors separate or mixed as desired.

C. medium calycanthema. Cup-and-Saucer Bellflower. 2 to 3 ft. July. The enlarged calyx is of the same color and texture as the flower, giving a cup-and-saucer effect. Pink, Blue, White, and Mixed. Sold in separate colors or mixed, as desired.

C. muralis (C. portenschlagiana). 6 to 9 in. A profuse, blue-flowering trailer similar to C. garganica but with differently shaped flowers. $1.05 for 3, $3.70 for 10, $24 per 100.

C. persicifolia. Peachleaf Bellflower. 2 to 3 ft. June and July. Broad, single, blue, bell-shaped flowers arranged along a tall flower-spike. One of the most desirable border plants.

C. persicifolia alba. White Peachleaf Bellflower. Similar to the above, but has white flowers.

C. persicifolia, Feltham Beauty. 3 ft. June, July. A delightful new variety with large, single bells of soft, light blue. Most attractive. $1.05 for 3, $3 for 10, $24 per 100.

C. pulcherrima. 2 ft. July. A variety with numerous small blue bells. 75 cts. for 3, $2.20 for 10, $15 per 100.

C. punctata. Spotted Bellflower. 1 ft. A very pretty little plant, quite hairy, with large whitish flowers spotted with purple inside. One of the most interesting of the whole family.

*C. pyramidalis. Chimney Bellflower. 4 to 6 ft. July and August. Forms a pyramid composed of numerous stems, crowded with large, handsome blue, salver-shaped flowers. This is undoubtedly the choicest variety of Bellflowers. $1.05 for 3, $2.70 for 10, $20 per 100.

C. pyramidalis alba. White Chimney Bellflower. Similar to the above, but has white flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

*C. rotundifolia. Harebell. 1 ft. June to August. In the wild it is more slender and taller than in the garden. Clear blue flowers. Especially suited for crevices in the rock garden or steep slopes, where it can show its pendent habit. This is the true Bluebell of Scotland.

*C. trachelium. Coventry Bells. 2 to 3 ft. July and August. Sturdy, hairy plant, with drooping, light purple, somewhat downy flowers.

CAREX • Sedge

*Carex morrowi variegata. Silver-edged Morrow Sedge. 1 ft. A handsome, grass-like plant suited for the border. The stiff, clean, white-edged foliage keeps in condition for months. Perfectly hardy, holding its foliage all winter. $1.05 for 3, $3 for 10.

CASSIA

Cassia marilandica. Wild Senna. 3 to 4 ft. June to September. A splendid border plant with bright yellow flowers in clusters at the tops of the stems. Fine light green foliage. Good for planting among shrubbery.
Hardy Perennials

CERASTIUM
*Cerastium tomentosum. Snow-in-Summer. 3 to 6 in. May and June. Spreading plant with silvery foliage covered with a sheet of small white flowers. Used principally for edging and rockwork. It is especially good in the corners of stone steps and its gray foliage looks well with low pink flowers. 75 cts. for 3, $2.20 for 10, $15 per 100.

CERATOSTIGMA
*Ceratostigma plumbaginoides. Larpente Plumago. One of the most desirable border and rock plants. It is of dwarf, spreading habit, growing 6 to 8 inches high, covered with deep blue flowers during summer and fall. Comes up very late in spring so the ground should not be disturbed until it appears. $1.05 for 3, $3.50 for 10, $27 per 100.

CHEIRANTHUS
*Cheiranthus allioni. Wallflower. 6 to 12 in. May to July. Small plants, with erect stems crowned by flat heads of dazzling orange-yellow flowers. One of the finest plants for massing or edging. A very peculiar, modernistic color combination is to plant it with pale blue forget-me-nots. It also looks exceedingly well with dark purple, not violet flowers; white is not very good with it.

CHELONE • Turtlehead
C. lyonii. Pink Turtlehead. 2 to 3 ft. August and September. Produces rosy purple flowers in profusion. Foliage dark glossy green. It prefers a moist, half-shady situation.
C. maximum, Shasta Daisy. 2½ ft. One of the handsomest and hardiest. Remarkable for its gracefulness and the pure whiteness of its extremely large flowers which are desirable for cutting. 75 cts. for 3, $2.20 for 10, $15 per 100.

C. maximum, The Speaker. 2½ ft. July to October. A new variety which has extremely large, ivory-white flowers nearly 6 inches in diameter. $1.05 for 3, $2.70 for 10, $20 per 100.

C. uliginosum. Giant Daisy. 4 to 5 ft. July to September. Large, tall-growing variety, bearing a profusion of large, pure white flowers with yellow centers; foliage light green. Desirable for shrubbery border. 75 cts. for 3, $2.20 for 10, $15 per 100.

Named Hardy Chrysanthemums

Late in autumn, in the midst of frosts and freezes, these Hardy Chrysanthemums make the garden gay with color. They should be planted most generously in order to provide a brave display, for they are almost the only things in bloom at their season. They may be inter-planted with earlier flowers, or moved in to follow such things as Canterbury bells. A very successful way of handling them is to grow them all summer in an out-of-the-way place—a nursery or even in the vegetable-garden—and move them to the places where they are to flower when the ground is cleared of other plants. They may be moved when in full bloom without interfering with their beauty, and live on from year to year, spreading rapidly, but should have a light covering after the ground has frozen.

*Chrysanthemum arcticum. Arctic Chrysanthemum. 1½ ft. September and October. This charming plant forms an attractive rosette of dark green foliage, covered in September with multitudes of blush-white, daisy-like flowers from 2 to 2½ inches in diameter.

C. coccineum. See Pyrethrum at end of Chrysanthemum list.

C. coreanum. Korean Chrysanthemum. 2 to 3 ft. September and October. A superb garden plant, coming into bloom before the first frosts. Flowers are single, 2 to 3 inches across, white at first, acquiring a rose-pink tinge with age. Showy in masses and charming when cut. $1.05 for 3, $2.70 for 10, $20 per 100.

C. maximum, Alaska. 2 ft. All summer. Large white flowers which are splendid for cutting and much used by the florists.

C. maximum, Burbank's Frilled. 2½ ft. A gorgeous new variety produced by the creator of the original Shasta Daisy. The large, white flowers have great substance and are beautifully undulated and frilled. The stock is scarce and in great demand. At the Harvard Botanic Garden, in Cambridge, it has been tremendously admired, and everyone who has seen it has demanded plants at once. We have watched it in our nursery with increasing enthusiasm from year to year and believe it is superior to existing varieties in size, floriferousness, habit, and form of flower. Strong plants, 75 cts. each.

C. maximum, King Edward. 3 ft. July to October. New. One of the largest and finest varieties, producing Marguerite-like flowers of glistening white.

C. maximum, Triumph. 2 to 3 ft. Gigantic white flowers 4 inches across, on very long stems. Very showy.

Chrysanthemums: White Doty  
Lucifer  
Glory of Seven Oaks  
Captain Cook
NAMED HARDY CHRYSANTHEMUMS, continued

Old Homestead. Late. Large flowers of lavender-pink.

Pauline Wilcox. Large flowers, yellow; bronze, mixed with red and gold. Loose, graceful sprays and clusters.

Petit Louis. Pompon. Late October. Rosy pink flowers with bronzy centers.

Provence. Large flowers of rose-pink, tipped rosy red.

Ruby Queen. Small button-like flowers of dark ruby-red. Late.

Ruth Hatton. Pompon. Very double, clear ivory-white flowers produced early in great abundance. Buds and half-open flowers delicate lemon-yellow. In full flower about October 10 and is very resistant to frosts. A splendid new white variety. 50 cts. each, $4 for 10.

Soleil d'Or. Pompon. Late. Bright bronzy orange.

Victory. Large flowers of snowy white.

White Doty. Pompon. October. Large pure white flowers with creamy center. One of the very finest. Tall grower.

CHRYSANTHEMUM COCCINEUM

Pyrethrum Roseum (Painted Lady)

Two feet. May and June. Most useful hardy flowers, thriving in almost any soil or situation, and when established thrive for many years without transplanting. There are many varieties, both single and double, and all are beautiful flowers in the border and unsurpassed for cutting. They should be planted in generous masses to give best effects. We list only single-flowering varieties as follows:

Hybrid Pyrethrum

Elsie Gertrude. Pale flesh-pink; very large.

Hebe. Pure white with golden center.

James Kelway. Vivid scarlet; very large and free.

Nimrod. Large flowers of silvery rose.

Rosy Morn. Rose-pink; very pretty.

Any of the above varieties, $1.05 for 3, $3 for 10, $24 per 100

Single Varieties, Mixed. 90 cts. for 3, $2.40 for 10, $18 per 100.

CIMICIFUGA • Bugbane

*Cimicifuga foetida simplex. Kamchatka Bugbane. 3 to 4 ft. July. Slender racemes of densely packed creamy white flowers. Attractive both in flower and fruit. $2.25 for 3, $6 for 10.

C. racemosa. Cobab Bugbane. 4 to 6 ft. July to September. A stately plant, with fine, long, elegantly twisted racemes of feathery white flowers. Effective against a dark background in a moist, shady corner. Fine for naturalizing. $1.05 for 3, $3 for 10, $21 per 100.

CLEMATIS

Clematis heracleefolia davidiana. Fragrant Tube Clematis. 3 ft. August and September. Bushy plants with whorls of hyacinth-like, sweetly scented, pale blue flowers. Leaves larger than any other variety.

C. integrifolia. 18 to 24 in. June to August. Erect, bushy plants with handsome foliage and small, but interesting, porcelain-blue flowers. A fine border plant. $1.20 for 3, $3.50 for 10, $30 per 100.

C. recta. Ground Clematis. 2 to 3 ft. Tufted plants with large panicles of small, fragrant, white flowers on long stalks. $1.05 for 3, $3 for 10, $21 per 100.

For other Clematis see section devoted to Vines and Climbing Plants

CONVALLARIA

Convallaria majalis. Lily-of-the-Valley. 8 in. May, June. So familiar to everyone that we scarcely need to describe it. Large, luxuriant foliage, with sprays of small, bell-shaped flowers of most delightful fragrance. Clumps, 50 cts. each, $4.50 for 10, $40 per 100; Strong Pips, 50 cts. for 3, $1 for 10, $7.50 per 100.

COPTIS

*Coptis trifolia. Goldthread. A little low evergreen, with bright shiny leaves and white flowers. Will thrive in shade and moist, peaty ground. A pretty and unusual plant with curious flowers. 75 cts. for 3, $2.20 for 10, $15 per 100.

COREOPSIS

A group of splendid bedding and cutting flowers, mostly in clear, bright shades of yellow, with strong, wiry stems. They bloom over a very long season
and are invaluable for maintaining continuous color and life in the garden.

**Coreopsis**

*Coreopsis delphiniformia*. Larkspur Coreopsis. 2 ft. July. Deep blue flowers in large and lovely clusters, with dark brown disk. 75 cts. for 3, $2.20 for 10, $15 per 100.

*C. grandiflora*. Big Coreopsis. 2 to 3 ft. May to September. Large Showy flowers of pure yellow. An excellent showy garden plant and beautiful when cut. 75 cts. for 3, $2.20 for 10, $15 per 100.

*C. lanceolata*. Lance Coreopsis. 2 ft. June to September. Large showy flowers of pure yellow. A fine rock plant. 75 cts. for 3, $2.20 for 10, $15 per 100.

*C. rosea*. Rose Coreopsis. 1 ft. July and August. Beautiful rosy pink flowers, with yellow centers. One of the finest for permanent effects because it persists so long.

**Cynanchum**

**Cypripedium**

*Cypripedium acaule*. Pink Ladyslipper. 8 to 12 in. May. June. A hardy native Orchid, with curious pocket-like flowers of vinous pink. It does best in a very dry, southerly soil in open places in the woods, or in a half-shady border. From 4-in. pots.

*C. pubescens*. Yellow Ladyslipper. 1 to 2 ft. May. June. Tapering to a symmetrical cone. Clear, reddish blue, from delicate lavender to purple. A splendid strain of high-class Delphiniums for mass planting and general garden effects.

**Cynanchum**

*Cynanchum spectabile*. Showy Ladyslipper. 1 to 3 ft. June. The largest and handomest of our native Orchids. The large-pouched flowers are pale pink or white, stained purple which they provide. In-acements, and satisfaction. These make tall, sturdy plants of perfect habit, with large flowers in all shades of blue, lavender, violet, and mauve. This strain is famous wherever Delphiniums are grown and always arouses great enthusiasm. 50 cts. each, $4 for 10, $35 per 100.

**Gold Medal Hybrids.** 3 to 5 ft. June and July. Stately, decorative plants for masses, beds, and clumps. The flowers range in color from light azure to deep bluish violet and from delicate lavender to purple. A splendid strain of high-class Delphiniums for mass planting and general garden effects.

**Advancement.** 7 to 8 ft. Enormous flowers and gigantic spikes nearly a foot in diameter at the base tapering to a symmetrical cone. Clear, reddish blue, with mauve center. $5 each.

**Bay State Seedlings.** An unusual variety with double, delicate mauve blossoms. 90 cts. each. $7.50 for 10.

**Countess Cowley.** 5 ft. Light blue and mauve, semi-double flowers of wonderfully fine form; black eye. Magnificent. $3 each.

**Edward Bromet.** 5 ft. The purplish blue ground is especially rich and the white eye extremely large. Individual pips are of enormous size and are well set on immense spikes. $2.50 each.

**Great Strides.** 4 to 5 ft. Long spires of giant, semi-double flowers of pale blue, blended with pinkish mauve, emphasized by a striking black center. $3 each.

**Happy Thought.** 5 ft. Enormous flowers with medium blue outer petals, shaded pansy-violet and amethyst with a bright gold and brown bee. Late flowering. $3 each.

**Named Delphiniums**

The following list represents a careful selection from the many improved, named varieties which have been imported and tested. These are hybrids of many types and vary tremendously in height, form of spike, and in delicacy of shades and combinations of tints. They are the supreme product of the best hybridizers, and we recommend them highly. They have been carefully selected from seedlings of the best named varieties from English seed and are strong, heavy plants. We believe they are really superb, and the varieties bound to make a sensational display, and a source of continual pleasure and satisfaction.

**D. bellamosum.** Dark blue form of Belladonna. $1.05 for 3, $3 for 10, $15 per 100.

**D. elatum.** Bee Larkspur. 3 to 6 ft. June to September. Dark blue flowers in long spikes. If plants are cut back when flowering, they will blossom a second time.

**D. formosum.** Hardy Larkspur. 3 to 4 ft. June and July. A splendid old hardy plant, with rich blue flowers, tinged with purple, and having white eye. One of the finest for permanent effects because it persists so long.

**D. formosum calestiens.** Sky-blue Larkspur. A light blue form of Formosum.

**D. grandiflorum chinense.** Slender Larkspur. 2 to 3 ft. June to August. One of the finest of the lower-growing types, with numerous very large flowers of varying shades of blue, lilac, mauve, and pale blue.

**D. grandiflorum album.** White Siberian Larkspur. A pure white-flowering form.

**D. grandiflorum azureum.** A selected pure blue form. Very choice.

**Mixed Hybrids.**

Blackmore & Langdon’s Hybrids

These are hybrids of many types and vary tremendously in height, form of spike, and in delicacy of shades and combinations of tints. They are the supreme product of the best hybridizers, and we recommend them highly. These make tall, sturdy plants of perfect habit, with large flowers in all shades of blue, lavender, violet, and mauve. This strain is famous wherever Delphiniums are grown and always arouses great enthusiasm. 50 cts. each, $4 for 10, $35 per 100.
**DIANTHUS • Pink**

Delightful edging or border plants, also including a great many excellent rock plants. The Dianthus family is extensive and has long been one of the most popular garden flowers, embracing the fragrant, old-fashioned Pinks and Carnations, and the charming China Pinks and the beloved Sweet Williams. As a race they like good soil and a situation which will be dry in winter. They should be planted in masses to get the best effects. As a race they like good soil and a situation which will be dry in winter. They should be planted in masses to get the best effects.

*D. arenarius.* 5 to 8 in. July to August. A beautiful new hybrid producing pure white flowers without any shading. A free and continuous bloomer. 90 cts. each, $7.50 for 10.

*M. Norman Holdon.* 5 ft. Mauve and blue, semi-double flowers of unusual size, set off by a glittering black eye. Very handsome. $3 each.

*Mrs. Shirley.* 5 to 6 ft. Lovely lilac-mauve variety, with white and sulphur edging. $3 each.

*Mrs. Townley Parker.* 5 ft. Single. Sky-blue, white eye. $1.50 each.

*R. A. Pilkington.* 5 ft. Very large, semi-double flowers of rich purple-violet, edged blue. $3 each.

**D. alpinus.** 3 in. A dainty little Pink from Iceland. A delightful rock plant. The Dianthus family is extensive and has long been one of the most popular garden flowers, embracing the fragrant, old-fashioned Pinks and Carnations, and the charming China Pinks and the beloved Sweet Williams. As a race they like good soil and a situation which will be dry in winter. They should be planted in masses to get the best effects. As a race they like good soil and a situation which will be dry in winter. They should be planted in masses to get the best effects.

**D. barbatus.** Scarlet Beauty. A deep rich scarlet. A fine double-flowering scarlet type of compact growth. For Double Sweet William, see D. latifolius.

**D. cassius.** Cheddar Pink. 3 to 6 in. May to July. Makes close tufts of grayish foliage from which it produces its delicate pink, fragrant flowers. Excellent in sunny place in the rock garden or as an edging plant.

**D. caryophyllus.** Hardy Carnation. 12 to 20 in. June and July. Fine double-flowering border plants producing great quantities of lovely pink, scented flowers, which are splendid for cutting or garden decoration. The colors run through many shades of white, pink, and crimson.

**D. caryophyllus, Grenadin White.** A white variety which is a delightful border plant.

**D. chinensis Heddewigii.** Heddewig Pink. 6 to 9 in. June to autumn. Flowers are very large and vary from pure white to richest crimson, many curiously marbled and streaked and fringed. Very charming.

**D. deltoides.** Maiden Pink. 6 in. June and July. One of the prettiest border Pinks of creeping habit, with dark pink, crimson-eyed flowers on slender, erect stems. Good for rock-garden and edging purposes.

**D. deltoides albus.** White Maiden Pink. 6 in. June and July. A variety with white flowers.

**D. deltoides, Brilliant.** 6 to 9 in. June and July. An improved variety with tiny, rosy crimson flowers.

**D. latifolius atro-peccineus fl.-pl. Double Cluster Pink.** 6 to 8 in. June to October. A hybrid, ever-blooming Sweet William, producing masses of the brilliant, double, fiery crimson flowers. Excellent for border or rock garden.

**D. neglectus.** 3 to 6 in. A fine large-flowered Pink from the Alpes-Maritimes, and one of the gems of the family. The fringed flowers vary from deepest carmine-pink to palest rose, and are mostly pale buff-yellow on the backs of the petals. Thrives on well-drained, sunny slopes, and is a perfect rock-garden subject because of its compact, dwarf habit. 90 cts. for 3, $2.50 for 10.

**D. plumarius.** Grass Pink. 9 to 12 in. June. Pink, purplish, and white, fragrant flowers. An old-fashioned favorite much used for edging and bedding. Especially good for border or rock garden. Blooms continuously if flowers are cut when they begin to fade. 75 cts. for 3, $2.20 for 10, $15 per 100.

**D. plumarius semperflorens.** Perpetual Pink. Charming pink flowers produced throughout the summer. 75 cts. for 3, $2.20 for 10, $15 per 100.

**D. speciosus.** Lacy, fragrant flowers of lavender-pink, especially adapted to hot and dry positions.

**D. superbus.** Lilac Pink. 10 to 20 in. June to August. A charming variety, with fringed lavender-pink flowers which are very fragrant. 90 cts. for 3, $2.40 for 10.
Hardy Garden Pinks

This group contains hybrids of many of the preceding species and selected garden strains. All are charming subjects, most of which are delightful when cut for the delicate poise of the flowers and their delicious fragrance. To enjoy them fully they should be planted in masses. They make compact cushions of gray foliage which is very decorative in the border or when used for edging.

*Abbotsford.* Rich crimson flowers, marked white.
*Carmen.* 6 in. Light pink; fragrant.
*Delight.* 2 to 3 ft. May and June. Large, single flowers of rose-pink sometimes striped with red 90 cts. for 3, $2.50 for 10, $20 per 100.
*Essex Witch.* Bright but delicate pink, finely fringed flowers.
*Fuschia Bismarck.* 6 to 8 in. Never out of bloom during summer. Same shade as Paul Neyron rose slightly darker. Dark green foliage. Very hardy Pink. $1.05 for 3, $3 for 10, $20 per 100.
*Her Majesty.* Very large, smooth-edged flowers of pure, glistening white.
*Homer.* Rosy red, with a dark center. $1.05 for 3, $2.70 for 10, $20 per 100.
*Lord Lyons.* A beautiful, fully double variety of soft lavender-pink.
*Louisa M. Alcott.* Large, deep pink.
*Mrs. Sinkins.* Large, white, fragrant fringed flowers delightful for cutting.
*Rose de May.* 9 to 15 in. Everyone who has seen this Pink has liked it. The delicate pink blossoms, which are borne steadily throughout the summer, will delight you with their exquisite fragrance. Add several of them to your garden. $1.05 for 3, $2.70 for 10, $20 per 100.
*White Reserve.* Exceptionally fragrant, pure white flowers produced continuously.

**DIGENTS**

**Dicentra eximia.** Fringed Bleeding-heart. 1 ft. All summer. A delightful-looking, plum-like plant with fern-like foliage and drooping racemes of curious rose-colored blooms. Excellent in shady places, rock garden, and mixed border. $1.05 for 3, $2.70 for 10, $20 per 100.

**D. formosa.** Western Bleeding-heart. 15 in. April to August. Similar to the preceding, with finely cut foliage and showy pink flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

**D. spectabilis.** Bleeding-heart. 2 ft. Late April to July. Large, rosy red, heart-shaped flowers. A fine old-fashioned flower desirable for planting in the shade. 75 cts. each, $7 for 10, 60 per 100.

**DICTAMNUS • Gas Plant**

**D. albus caucasicus.** Giant Gas Plant. 3 to 4 ft. June and July. Similar to D. albus but larger in all respects, producing flower-spikes fully twice as long. $1.35 for 3, $4 for 10, $35 per 100.

**D. albus ruber.** Purple Gas Plant. 2 to 3 ft. June and July. Similar to the above, but has very fragrant flowers of reddish color. $1.20 for 3, $3.50 for 10, $25 per 100.

**DIGITALIS • Foxglove**

There is an uncommon dignity and stateliness to the Foxgloves which make them invaluable for permanent and settled effects in the garden. They seem to add an air of calmness and peace to any DIGITALIS, continued situation, and are best at the back of the border, or grouped in a little bay in the shrubbery. Should be planted in bold masses to get best effect.

**Digitalis ambigua.** Yellow Foxglove. 2 to 3 ft. June and July. A hardy plant, with slender spikes of medium-size yellowish flowers, marked with brown. Effective in groups in wild garden and when near pale mauve or magenta flowers.

**D. lanata.** Grecian Foxglove. 2 to 3 ft. July and August. A slender persistent perennial, with spikes of rather small grayish or purplish yellow flowers, a very different and interesting form.

**D. purpurea.** Common Foxglove. 2 to 3 ft. July to September. Handsome tubular flowers in tall terminal racemes. The blooms are purple on the outside, marked inside with dark purple spots, edged with white. The old-fashioned garden favorite adapted to wild garden or border, or for planting among shrubbery.

**D. purpurea alba.** Common White Foxglove. A beautiful white form of the Common Foxglove.

**D. purpurea gloxiniaeflora.** Gloxinia Foxglove. 3 to 4 ft. June and July. A highly improved popular variety, with large flowers ranging from pure white to deep purple. Robust habit.

**D. purpurea gloxiniaeflora rosa.** 2 to 3 ft. June and July. A selected form with charming rose-colored flowers.

**D., Shirley Hybrids.** A magnificent strain raised by the originator of the famous Shirley poppies. The plants grow 5 to 7 feet tall, with flower-spikes 4 feet long, carrying blooms of enormous size, ranging from white to dark rose-purple, handsomely spotted with crimson, maroon, and dark mahogany-brown. $1.05 for 3, $3 for 10, $24 per 100.

**DOCECATHEON**

*Dodecatheon meadia.** Common Shooting-star. 1 to 2 ft. May and June. A tufted plant from which arise tall slender stems bearing a cluster of rose-colored flowers like small cyclamens, with the petals bent backward and the stamens forming a sharp point. A most interesting and beautiful plant for grouping in shady places. 90 cts. for 3, $2.40 for 10.

**DORONICUM • Leopardbane**

**Doronicum caucasicum.** Caucasian Leopardbane, 1 ft. May and June. Yellow daisy-like flowers generally borne one to a stem. Succeeds well in ordinary soil and is very good for cutting. 50 cts. each, $4 for 10.

**D. clusi.** Donny Leopardbane. 2 ft. Larger flowers than D. caucasicum and blooms a little later. The foliage and stems are covered with silky hairs. 50 cts. each, $4 for 10, $36 per 100.

**D. magnificum.** Sunflower Leopardbane. A very attractive sort with large flowers resembling a single sunflower. 50 cts. each, $4 for 10, $36 per 100.

**DRABA**

*Draba fladnizensis.** Arctic Whitlowgrass. 4 in. A fine little rock plant of creeping habit, with yellowish white flowers in early spring. $1.50 for 3, $4 for 10.

*Dr. repens.** 2 to 3 in. Dense little rosettes of leaves covered with yellow flowers in early spring. Handsome in the mass and a splendid rock plant. $1.50 for 3, $4 for 10, $30 per 100.

**ECHINACEA**

**Echinacea purpurea.** Purple Coneflower. 2 to 3½ ft. July and August. Large, reddish purple, daisy-like flowers, with drooping rays which increase in length as the flower opens. Showy, vigorous plants.
**ECHINOPS • Globe Thistle**

**Echinops pumilum.** Globe Thistle. 3 ft. August. Dark blue. Smaller than *E. ritro.* 75 cts. for 3, $2.20 for 10, $15 per 100.

**E. ritro.** Steel Globe Thistle. 4 ft. July and August. Handsome thistle-like foliage and large, globular heads of blue flowers. A wild-garden plant and looks well combined with yellow Helianthus or even Bocconia cordata.

**E. sphaerocephalus.** Common Globe Thistle. 5 to 7 ft. A much more vigorous background plant, with bluish flowers and yellowish spines. 75 cts. for 3, $2.20 for 10, $15 per 100.

**EPILOBIUM**

Epilobium angustifolium. Blooming Sally. 3 to 6 ft. June to August. A very handsome plant which spreads rapidly. Valuable for shrubberies or along streams, producing showy spikes of clear red flowers.

**EPIMEDIUM**

Choice plants for the rock garden or shady places in the border. They belong to the very interesting Barberry family, all of which are curious and beautiful. They do well in most soils. The foliage of all is attractive.

*Epimedium alpinum.** Alpine Epimedium. 9 in. May and June. A charming little plant with bronzy foliage and sprays of curious, spurred flowers of exquisite beauty. Give it shade, good drainage, and a sour, peaty soil. $1.05 for 3, $2.70 for 10, $20 per 100.

**ERIGERON • Fleabane**

Perennials of very easy culture, producing aster-like flowers on slender stems rising from a compact rosette of foliage. They bloom early and are very showy planted in masses in the border or rockery, showing up much better in big clumps than as scattered plants.

*Eriogonum amethystinum.** Amethyst Eryngo. 2 ft. June and July. Handsome thistle-like foliage and large, globular heads of blue flowers. A wild-garden plant and looks well combined with yellow Helianthus or even Bocconia cordata.

**ERYNGIUM • Eryngo**

*Eryngium alpinum.** Bluetop Eryngo. 2 ft. A bold, picturesque plant with numerous heads of flowers of attractive blue, which color extends to the leaves of the upper part of the plant.

**ERYNGIUM • Eryngo**

*E. alpinus albus.** A form of the foregoing, with white flowers. $1.05 for 3, $3 for 10.

**ERYSIMUM**

*Erysimum pulchellum.** Rockey Blister Cress. 6 to 12 in. A dwarf rock plant bearing tufts of light sulphur-yellow flowers. Closely related to the wallflowers.

**EUPATORIUM**

Eupatorium aromaticum melissoides (frazeri). Melissa Thoroughwort. 2 to 3 ft. August to October. Delicate white flowers in large terminal heads. Useful for cutting and grows well in poor, sandy soil.

*E. coelestinum.** Mistflower. 2 ft. August to October. A wiry plant producing heads of misty flowers of delicate heliotrope-purple. Splendid for mass planting, blending well with early yellow chrysanthemums. $1.05 for 3, $2.70 for 10, $20 per 100.

**E. purpureum.** Joe-Pye-Weed. 6 to 7 ft. Autumn. A gigantic perennial with whorled leaves and branching heads of purple flowers 18 inches across. Naturalizes well on banks of streams or wet meadow-land. 75 cts. for 3, $2.20 for 10, $15 per 100.

*E. urticaefolium (ageratoides).** Snow Thoroughwort. 2 to 3 ft. August and September. A superb native plant with handsome heads of feathery pure white flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

**ERINUS**

*Erinus alpinus.** Alpine Liver Balsam. 3 to 4 in. April to June. A tiny plant suitable for massing on banks or among stones which it covers with a mantle of rosy purple flowers. $1.05 for 3, $3 for 10.

*E. alpinus albus.** A form of the foregoing, with white flowers. $1.05 for 3, $3 for 10.

**EUPATORIUM**

*Eupatorium aromaticum melissoides (frazeri).** Melissa Thoroughwort. 2 to 3 ft. August to October. Delicate white flowers in large terminal heads. Useful for cutting and grows well in poor, sandy soil.

**E. coelestinum.** Mistflower. 2 ft. August to October. A wiry plant producing heads of misty flowers of delicate heliotrope-purple. Splendid for mass planting, blending well with early yellow chrysanthemums. $1.05 for 3, $2.70 for 10, $20 per 100.

**E. purpureum.** Joe-Pye-Weed. 6 to 7 ft. Autumn. A gigantic perennial with whorled leaves and branching heads of purple flowers 18 inches across. Naturalizes well on banks of streams or wet meadow-land. 75 cts. for 3, $2.20 for 10, $15 per 100.

**E. urticaefolium (ageratoides).** Snow Thoroughwort. 2 to 3 ft. August and September. A superb native plant with handsome heads of feathery pure white flowers. $1.05 for 3, $2.70 for 10, $20 per 100.
**EUPHORBIA**

**Euphorbia corollata.** *Flowering Spurge.* 18 in. July and August. An erect plant bearing broad clusters of pure white flowers with green eye which can be used like gypsophila for mixing with other flowers. Plants 3 ft. $2.23 for 10, $15 per 100.

**E. myrsinites.** 4 to 6 in. May and June. A very pretty creeper with thick bluish leaves and yellow-orange flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

### HARDY FERNS

The Ferns of New England take as readily to cultivation as the common garden flowers. While flowers require a sunny place, Ferns delight in some shady nook; they also can be grown in boxes or pans on the porch, in the house or under trees, any place that is shady, but are not suitable for house culture in winter, for that is their time of rest.

The price of all hardy Ferns is 90 cts. for 3 of a kind, $2.40 for 10, $18 per 100.

*Adiantum pedatum.** *American Maidenhair Fern.* 12 to 18 in. One of the finest native Ferns. Grows with exceedingly graceful fan-like foliage which produces a handsome effect when massed in broad patches. Plant 8 inches apart.

*Aplectrum hyemale.** *Ebony Spanglewort.* 6 to 15 in. A splendid Fern for stone places and in and up in woodlands and very desirable for rock-garden work.

*Asplenium complexum.** *American Maidenhair Fern.* 3 to 6 ft. Finely cut foliage of rich green, making a handsome specimen plan plant if well grown in moist soil, either in sun or shade. Massed 2½ to 3 feet apart it makes a splendid sight in the fall.

*Cryptogramma acrostichoides.** *American Rock-brake.* 6 in. A small, evergreen Fern of delightful form which is entirely adapted to the rock garden and for edging shady borders.

*Dennstiedia punctiloba.** *Hay-scented Fern.* 1½ to 2 ft. A good massing Fern, with broad fronds. Increases rapidly and good for naturalizing.

*Dryopteris goldiana.** *Goldie’s Fern.* 2 to 3 ft. Very stately Fern with handsome fronds 12 to 18 inches wide. Its unusual beauty and grace make it desirable in all fern plantings.

*D. marginalis.** *River Woodfern.* 2 ft. An evergreen species with leathery, rather stiff foliage, adapted especially to rocky places. Good when cut for mixing with flowers.

*Festuca glauca.** *Blue Fescue.* 6 to 12 in. An ornamental grass which makes dense tufts of very narrow bluish leaves, excellent in contrast with darker foliage. Desirable for rock-garden or edging purposes.

**FILIPENDULA • Meadowsweet**

These are handsome, spirea-like flowers blooming in early midsummer. They delight in cool, rich soil, and look especially well at the back of the border, where their fern-like foliage and feathery and foamy flowers form an admirable background for the plants in front of them. Plant them in bold, broad masses or considerable drifts to give a permanent, stable effect.

*Filipendula camtschatica (Spiraea gigantea).* *Kamebokta Meadowweet.* 5 to 6 ft. July. A bold background plant with frothy, white flowers held well above the foliage.

*Filipendula ulmaria flore-pleno.** *Double Dropwort.* 18 to 24 in. A handsome double-flowering form of the preceding. 90 cts. for 3, $2.40 for 10.

*F. purpurea (Spiraea palmata).** *Japanese Meadowweet.* 2 to 4 ft. June to August. Undoubtedly the finest of the Meadowweets, with carmine or dark pink flowers in large clusters on strong wiry dark crimson stems. Very desirable. $1.05 for 3, $2.70 for 10, $20 per 100.

*F. purpurea alba.** *White Japanese Meadowweet.* 2 to 4 ft. June to August. A dainty white variation of the preceding. $1.05 for 3, $3.70 for 10, $24 per 100.

*F. purpurea elegans.** *Showy Japanese Meadowweet.* 2 to 4 ft. June, July. One of the most useful hardy plants, with dark green foliage, and purple-red stems and branches, passing into the silvery pink of the broad corymbs of flowers which are very freely produced.

*F. rubra venusta.** *Carmine Meadowweet.* 4 to 5 ft. June and July. A vigorous plant for the back of the border with very large heads of rich, carmine-pink flowers. $1.05 for 3, $5 for 10, $24 per 100.

*F. ulmaria.** *Queen of the Meadows.* 4 to 5 ft. June and August. Pure white flowers form an admirable background for the flowers. A fine plant for the rockery. $1.05 for 3, $2.70 for 10, $20 per 100.

*Nocolea sensibilis.** *Sensitit Fern.* 1 ft. A rather rough Fern with large, triangular fronds. It likes a moist situation and will grow in places too wet for other Ferns.

*Osmunda cinnamomea.** *Cinnamon Fern.* 2 to 5 ft. Very handsome Fern of perfect habit with big fronds in circular clusters. Woolly when young and needs only common, well-drained soil. Its spore-bearing fronds rise well above the foliage. $1.05 for 3, $2.20 for 10, $20 per 100.

**GAILLARDIA**

*Gaillardia aristata.** *Common Perennial Gaillardia.* 1½ to 2 ft. June to November. The blooms are 2 to 3 inches across with dark red and brown centers, and orange, crimson, and red rays shaped into rings of color. Plants 3 ft. $2.50 for 10, $15 per 100.

*G. aristata, Golden Gleam.* Pure yellow flowers without marks or other colors, of great size, and carried erect on stout, wiry stems. Good as a cut-flower and a garden plant of fine habit and effective color. $1.05 for 3, $5 for 10, $24 per 100.

*G. aristata grandiflora.* 2 ft. July to autumn. Large, gorgeous flowers of crimson and gold are borne throughout the season. 75 cts. for 3, $3.20 for 10, $15 per 100.

*G. aristata, Portola.* A much improved variety with flowers of exception size and substance, brilliantly colored. This is a decided improvement in color, habit, and refinement over the varieties commonly grown. 90 cts. for 3, $2.50 for 10, $20 per 100.
**GALAX**

*Galax aphylla.* 8 to 10 in. June. Large, round, varnished, evergreen leaves, which turn deep bronze in autumn. The slender spike of white flowers is pretty and graceful. Demands acid soil, moisture, and heavy shade. Foliage fine for Christmas greens. 90 cts. for 3, $2.40 for 10, $18 per 100.

**GALEGA • Goatsrue**

*Galega heldreichii.* 2 to 3 ft. June to frost. Very bushy plants with large lavender flowers like pea blossoms, borne in fine clusters. A good and seldom seen perennial. $1.05 for 3, $2.70 for 10, $20 per 100.

*G. officinalis.* Common Goatsrue. 2 to 3 ft. June to September. A slender, bushy plant with lilac-purple flowers in compact racemes. $1.05 for 3, $2.70 for 10, $20 per 100.

*G. officinalis alba.* Hartland Goatsrue. An excellent form of the Common Goatsrue with variegated flowers of white and lavender. $1.05 for 3, $2.70 for 10, $20 per 100.

**GALIUM**

*Galium boreale.* Northern Bedstraw. 2 to 3 ft. June to September. The delicate sprays of minute white flowers and lime-green leaves in which words make this an excellent variety for cutting, giving a light, airy effect to masses of heavier flowers.

**GAULTHERIA • Wintergreen**

*Gaultheria procumbens.* Wintergreen. A low, small-leaved evergreen, which bears clusters of bright red, aromatic berries, sought for their fragrance and flavor. It grows in association with *Epigaea repens* and enjoys the same sharp acid soil and good drainage. Makes a fine evergreen carpet where it is happy.

**GERANIUM • Cranesbill**

A group of delightful spring-flowering plants which are very effective among stones and in semi-shaded places. The common Wild Geranium is one of the handsomest wild flowers, and it takes kindly to cultivation. It blooms with the pale yellow *Rosa bugonis* and makes a delightful combination with many other flowers.

*G. chiloense,* Mrs. Bradshaw. 12 to 15 in. June to September. A very choice variety with large, double, brilliant scarlet flowers. $1.05 for 3, $3 for 10, $20 per 100.

**GLENILLA**

Gillenia trifoliata. *Bourmansroot.* 3 ft. June and July. A graceful spirea-like plant, with slender, dark red stems, clothed with pretty, star-shaped, rose-pink and white flowers. Effective planted liberally with lilies and irises. $1.05 for 3, $2.70 for 10, $20 per 100.

**GLADIOLUS BULBS**

Most gardeners find that Gladiolus interplanted with the early-flowering perennials, shoot up among them, and take possession of their space when they are through blooming, thus giving a second period of very desirable bloom. Of course, they are splendid when bedded by themselves, and that is really the best way to grow them for either garden display or for fine, individual cut spikes.

Our list of Gladiolus is not long, but it includes splendid varieties in a fine assortment of colors. We offer good, first-class bulbs of flowering size.

*Alice Tiplady.* Orange-yellow and saffron. Good grower, and very showy. 75 cts. for 10, $6 per 100.

*Baron Hulot.* Deep violet-blue. One of the best of its color. 75 cts. for 10, $6 per 100.

*Carmen Sylva.* Snow-white, penciled with lavender in the throat. 75 cts. for 10, $7 per 100.

*Flora.* Almost pure golden yellow. Flowers large, and a strong grower. 75 cts. for 10, $7 per 100.

*Mrs. Dr. Norton.* La-France-pink, shading to rose and tinted with sulphur-yellow. 75 cts. for 10, $7 per 100.

*Mrs. Francis King.* Light salmon-scarlet; very large and fine. 75 cts. for 10, $6.50 per 100.

*Mrs. Frank Pendleton.* Salmon-pink, blotted with velvety maroon. 75 cts. for 10, $6.50 per 100.

*Peace.* Large, white flowers veined lilac on the lower petals. Late blooming. 75 cts. for 10, $7 per 100.

*Pink Wonder.* Many massive light pink flowers open at once on heavy spikes. 75 cts. for 10, $7 per 100.

*Purple Glory.* Deepest velvety maroon flowers with darker blotches; petals ruffled at the edges. $1 for 10, $7 per 100.

*Rose Ash.* Flowers dull ash-rose color, very different from all other shades. 75 cts. for 10, $7 per 100.

*Scarlano.* Light, bright orange-red, with edges finely ruffled. 75 cts. for 10, $7 per 100.

*Wat.* Large flowers of dark glowing red. Very tall spikes. 75 cts. for 10, $6.50 per 100.

*Exhibition Mixture.* Fine varieties. $5 per 100.

**GYPSOPHILA**

Essential plants in every garden, not so much for their own flowers as for the assistance they render by contrast of color and form to showier plants. This use extends to the cut-flowers which are an important part of every artistic flower arrangement. No satisfactory substitute exists for the feathery, airy grace of Baby’s Breath in bouquets of showier, heavier flowers.

*G. cerastoides.* Mouse-Ear Gypsophila. 3 to 4 in. A woolly little plant which forms a dense mat-like growth over rockwork or among edgings, and covers itself with large lilac or white flowers veined pink.
HELEN IUM • Sneezeweed

An important group of late summer and autumn flowers, bearing some resemblance to the rather common daisy-like type of flower, but distinguished by curiously reflexed rays and a profusion of massed bloom which is quite distinct. The colors are warm and lively, and combine well with other autumn flowers to give color and comfort to the late season. For best effect, of course, they should be planted in broad masses against the shrubbery, and in particular they look well with some of the misty lavender hardy asters.

HELENIUM, continued

Helenium autunnale. Common Sneezeweed. 4 to 6 ft. August and September. An elegant autumn plant with showy golden yellow flowers borne at the top of branching stems. Suitable for planting among shrubbery.

H. autunnale pumilum. Dwarf Sneezeweed. 1 to 2 ft. August and September. A very free-flowering dwarf sort much liked for cut-flowers and the front of the border. $1.50 for 3, $4 for 10.

H. autunnale pumilum magnificum. 1½ ft. June to September. A very fine and vigorous plant which produces throughout the summer a continuous supply of splendid, soft, pale yellow flowers. $1.20 for 3, $3 for 10, $20 per 100.

H. autunnale, Riverton Beauty. 4 to 5 ft. August to October. A distinct novelty. Its flowers are of a rich lemon-yellow with a large eye of purplish black. $1.05 for 3, $2.70 for 10, $20 per 100.

H. autunnale rubrum. 4 ft. September and October. In color the flowers resemble the blood-red English wallflowers. Fine for cutting. $1.20 for 3, $3 for 10, $24 per 100.

H. hoopesi. Orange Sneezeweed. 1½ to 2 ft. May to August. A fine border plant with very showy, bright orange-yellow flowers. Especially useful for cutting. $1.05 for 3, $2.70 for 10, $20 per 100.

HELIANTHEMUM • Sun Rose

The surprising beauty of the Sun Roses astonishes everyone who is not familiar with them. The wiry little plants form dense, spriny tufts which are covered by the dainty, rose-like flowers in a great variety of delicate shades of pink, copper, and yellow. The various kinds are much alike in habit but are most variable in the color of the flowers, many of which come double at times. It is an indispensable rock plant and should be used liberally wherever there is opportunity.

*Helianthemum chamaceistus (vulgare). Common Sun Rose. 8 to 10 in. June, July, and August. A pretty, almost shrubby evergreen plant having nearly rather wiry foliage with a silvery sheen, which makes a low, thick carpet. Flowers yellow, like small single roses. Desirable for rock garden.

*Helianthemum, Bride. 8 to 10 in. Very dainty; delicately white.

*Helianthemum, Fireball. 4 to 5 in. A dazzling double red variety of an amazingly bright shade.

*Helianthemum, Bride. 8 to 10 in. Very dainty; delicately white.

*Helianthemum, Fireball. 4 to 5 in. A dazzling double red variety of an amazingly bright shade.

*Helianthemum, Bride. 8 to 10 in. Very dainty; delicately white.

*Helianthemum, Fireball. 4 to 5 in. A dazzling double red variety of an amazingly bright shade.
HELIANTHUS • Sunflower

For the most part, this group is composed of big showy plants suitable for bordering woodland paths or massing in a naturalistic fashion along streams or before shrubbery. They are very effective planted close to the eupatoriums, either ceulennium or purpureum, and look well mingled with the great violet ironweed and various of the darker purple hardy asters. Their beauty is in the mass of color they make, and they should be used generously for bold effects.

Helianthus decapetalus. Thinleaf Sunflower. 4 to 5 ft. August to October. A fine free-blooming form, with clear yellow flowers in immense panicles. One of the best late-blooming plants. Desirable for shrubbery border and naturalistic effects. 75 cts. for 3, $2.20 for 10, $15 per 100.

H. decapetalus multiflorus flore-pleno. Double Golden Thinleaf Sunflower. Similar to above, but the flowers are double. $1.05 for 3, $2.70 for 10.

H. maximiliani. Maximilian Sunflower. 5 to 7 ft. The latest of all to bloom, perfecting its fine golden yellow flowers in long, graceful sprays during August, October, when all others have finished flowering. 75 cts. for 3, $2.20 for 10, $15 per 100.

H. mollis. Asby Sunflower. 3 to 4 ft. July to September. Large, single, lemon-yellow flowers and downy white foliage. 75 cts. for 3, $2.20 for 10, $15 per 100.

H. orgyalis. 6 to 8 ft. September. Tall and graceful, with very leafy stems and flowers 3 to 4 inches in diameter, produced abundantly. Plant among shrubs. 90 cts. for 3, $2.40 for 10.

H. rigidus. Prairie Sunflower. 2 to 3 ft. July and August. A showy plant making a great display of large, semi-double golden yellow flowers over a very long season.

H. scaberrimus, Miss Mellish. 5 to 6 ft. Late August and September. Vigorous, leafy plant with large, graceful, yellow flowers. A very desirable variety either isolated or massed in waste places.

H. scaberrimus, Wolley Dod. 6 ft. September. One of the best autumn-flowering varieties, producing great quantities of deep yellow flowers. Entirely distinct.

HELIOPSIS • False Sunflower

This family of False Sunflowers is closely related to the preceding group and may be used for the same purposes, supplying lower, denser-growing subjects than in helianthus. It is very useful for that reason, and striking effects may be obtained by large-scale planting.

Heliopsis helianthoides (laevis). Sunflower Heliopsis. 3 to 5 ft. July to October. An erect, robust plant, producing fine heads of golden yellow flowers.

H. helianthoides pitcheriana. Pitcher Heliopsis. 2 to 3 ft. July to October. A choice dwarf variety with deep orange-yellow flowers of great value for cutting all through the summer. Especially good for dry situations.

H. helianthoides pitcheriana semi-plena. 2½ to 3 ft. July to October. Semi-double form of above, with curious, narrow petals of the same orange color issuing from the center of the flowers. 90 cts. for 3, $2.40 for 10.

HEMEROCALLIS • Day Lily

Much attention has been paid of late to improving the Day Lilies, and now a proper selection of varieties will enable one to have them in flower the greater part of the season. They are very decorative, with their ribbon-like foliage and their beautiful lilac-like flowers, especially when grown in clumps at prominent places in the border. The pale lemon types are lovely with light blue flowers such as Belladonna delphiniums, and soft magenta or mauve tones find a happy combination with them. The richer yellow flowers give opportunity for combinations with darker blues and purples, as well as bolder, tawny flowers. They are very hardy, very persistent, and make permanent borders when established.

Hemerocallis aurantiaca major. Great Orange Day Lily. 1½ to 2 ft. June to September. A splendid variety from Japan, with large, trumpet-shaped, sweetly scented flowers of deep orange. $1.05 for 3, $3 for 10.

H. dumortieri sieboldi (Blooms three weeks after Dumortierii). 1½ to 2 ft. June and July. Flowers orange-yellow; large leaves, long, narrow and tapering.

H. flava. Lemon Day Lily. 3 ft. May and June. Flowers clear lemon-yellow and very fragrant. Fine for cutting. Charming in masses on the banks of streams and in clumps in border or rock garden. $1.20 for 3, $3 for 10, $24 per 100.

H. fulva. Tawny Day Lily. 3 ft. June and July. Handsome foliage with trumpet-shaped flowers of dusty orange with darker, almost crimson, shading. Attractive in semi-wild spots on the edge of water. A very vigorous and persistent plant. 75 cts. for 3, $2.20 for 10, $16 per 100.

H. gracilis. 2 ft. Grass-like foliage, yellow flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

H. luteola. Golden Day Lily. 4 ft. Golden yellow flowers 6 inches across. A splendid variety which is effective both in the garden and when cut. $1.20 for 3, $3 for 10, $21 per 100.

H. middendorfii. Amur Day Lily. 2 to 3 ft. June and July. Handsome golden orange flowers especially good for cutting.

New Varieties. We are the introducers of Betcher’s remarkable Hemerocallis Hybrids. Described and offered on page 68.
Hemerocallis
Betscher's New Hybrids

For more than twelve years Charles Betscher has been patiently working with Day Lilies, interbreeding and selecting all varieties and species. Last year we were glad to introduce to American gardeners twelve of his original varieties which he selected, and three of which he named for us.

We have been growing them in our nursery for over three years, and we are just as enthusiastic about them now as when we first saw them. Last year we offered them for sale for the first time and had an excellent demand for them. Visitors who saw them in our nursery were particularly interested in them. We trust that you will be able to come to our nursery and see them this summer.

We can supply strong plants of the varieties described at $2.50 each, $22.50 for 10

Bay State. Tall variety with deep yellow blossoms a shade lighter than Goldeni, and having wavy edge. A persistent bloomer from early July to middle August.

Cressida. A lovely deep reddish orange with narrow band across center. It is of medium height, with heavy foliage, and blooms from middle of July to middle of August.

D. D. Wyman. Light golden yellow at first, with a tawny splash across center of petal, becoming paler with maturity. Blooms from July 10 to early August.

Golden. A bushy sort with heavy foliage and deep orange flowers on short stems in July.

Gypsy. Orange-yellow blooms not quite so large as some of the other varieties. Very tall and strong; neat in appearance. This past year it bloomed from July 9 to August 20.

Lemon. A splendid pale lemon-yellow which grows about 4 feet high and blooms in late July and into August.

Modesty. Medium to large, pale yellow blooms on slender stems from middle to late July.

Mrs. A. H. Austin. Handsome, large flowers of deep golden yellow. Very fine variety which blooms over a long period beginning about July 10.

Mrs. W. H. Wyman. A wonderful sort and the very last to bloom. About same height as Lemon but just a shade lighter. Blooms from mid-July to latter part of August.

The Gem. Deep yellow blossoms of very fine substance, wavy edge. Medium height; light foliage. One of the first to bloom.
Hybrid Hemerocallis
These are all highly improved sorts, with purer color and flowers of higher finish than the species. Very splendid garden pictures can be made by placing them in appropriate locations. They look especially well near pools, although they are in no sense water-plants. A remarkable, new set of varieties is offered on preceding page.

Apricot. 2 ft. A very pretty clear bright orange flower of excellent size and finish. $1.05 for 3, $2.70 for 10, $20 per 100.

Auricula. 3 ft. May and June. A splendid early sort of rich orange-yellow.

Betcher's Hybrids. See preceding page.

Kwanzo flore-pleno. 2 to 3 ft. June and July. Very large flowers of excellent size and finish. $1.05 for 3, $2.70 for 10, $24 per 100.

Orangeman. 3 ft. June and July. Very large flowers of bright orange-yellow.

HEPATICAZ*Hepatica acutiloba. Sharplobe Hepatica. 6 in. April and May. The flowers vary from pure white to purple and into shades of pink. It has leathery, three-lobed leaves resembling the following, but lobes more pointed.

*H. triloba. Roundlobe Hepatica. 6 in. Late April and early May. Flowers white, dark rose, or purple. Good for eastern and northern exposures in the rock garden and shady places generally.

*H. pilosella. Yellow Hawkweed. 6 to 12 in. June to October. A low herb, producing small clusters of dandelion-like orange flowers, on leafless stems, rising from tufts of shaggy foliage. Good ground-cover for sterile waste land or wild garden.

*H. sanguinea. White Coral Bells. A variety of the above having white flowers.

HEUCHERA • Alum-Root
Abroad, these pretty perennials are called "Fairy Flowers," a name they deserve for their delicacy and grace. They make handsome rosettes or mats of good-looking leaves from which rise slender, swaying stems bearing showers of tiny bells. They look well about a sun-dial, at the edge of a pool, or planted among rocks, or in the perennial border. The descriptions of the many kinds sound much alike, but they have a varied charm and all are beautiful in their different ways.

*Heuchera brizoides. Pink Bells. 1 ft. June to August. Pale pink flowers on slender red stems. A very interesting plant because of its bigeneric origin, being a variety of Tiarella. $1.05 for 3, $2.70 for 10, $24 per 100.

*H. x Hybrids. 1½ ft. Plants of similar habit and flowers of various shades of best red. Twice as large as H. sanguinea. $1.05 for 3, $2.70 for 10, $24 per 100.

*H. sanguinea. Coral Bells. 12 to 18 in. June to September. A splendid border or rock plant with big rosettes of leaves from which rise clusters of slender stems bearing showers of tiny crimson bells. Pretty for cutting and excellent for the rock garden. $1.05 for 3, $2.70 for 10, $24 per 100.

HEUCHERA sanguinea

HEUCHERA, continued

*H. sanguinea alba. White Coral Bells. A variety of the above having white flowers.

*H. sanguinea gracillima (gracilis rosea). Grass-leaf Coral Bells. A slender and even more dainty plant than H. sanguinea. Suiet to similar situations. $1.05 for 3, $2.70 for 10, $24 per 100.

*H. x Splendens. Crimson Bells. 18 in. May to September. A very rich, dark crimson form which blooms over a very long season. $1.05 for 3, $2.70 for 10, $24 per 100.

HIBISCUS • Rose Mallow
The native Mallows are almost all swamp plants, but their garden forms seem to thrive well in dry places. They are big and bold, almost shrub-like, and look well against a shrub background. As they come up very late in the spring, their positions ought to be marked so that they will not be overlooked and cut with the hoe or other cultivating tools.

Hibiscus militaris. Soldier Rose Mallow. 5 ft. August. A strong-growing plant, with small leaves and large blush or pale rose flowers with purple eye.

Except where otherwise indicated, all Perennials are 90 cts. for 3, $2.40 for 10, $18 per 100
HIBISCUS, continued

H. moscheutos. Common Rose Mallow. 3 to 4 ft. August and September. Large flowers of light rose-red. Excellent for water edge or bog-garden.

H. moscheutos, Marvel Mallow, Red, White, Pink, and Mixed. 3 to 6 ft. August and September. Robust plants with giant flowers often 10 to 12 inches in diameter, of varying shades from white to dark red. Useful in shrub border to give color when the shrubs are out of flower, but highly decorative in any situation. They do well in almost any location, but enjoy moisture at the root. Few plants are more spectacular.

H. oculiroseus. Crimson-Eye Rose Mallow. 3 to 6 ft. August and September. A similar plant to H. moscheutos but has very large snow-white flowers with a quiet crimson center. Very showy and does well in almost all locations, even very wet ones.

HOLLYHOCKS. See Althaea

HOSTA (Funkia) • Plantain Lily
Shade-loving plants that look well just at the edge of a heavy shrub border, or along shady paths. The flowers are like small, clustered lilies and rise on tall stems above the big, glossy leaves. Decorative in or out of flower.

H. lancifolia albo-marginata. Silver-edge Lance-leaf Plantain Lily. 1 to 2 ft. A fine foliage plant with handsome leaves, variegated with white. One of the best for edging.

H. ovata. 1½ ft. June. Large, handsome, glossy green foliage and big spikes of trumpet-shaped, lilac-colored flowers. $1.20 for 3, $3 for 10, $24 per 100.

H. plantaginea grandiflora. Big Plantain Lily. This is the variety found in old gardens and yards, with big ribbed leaves and tall stems of waxy white flowers. 50 cts. each, $4.50 for 10, $39 per 100.

H. sieboldiana. Cushion Plantain Lily. Flowers pale blue and leaves metallic blue. $1.20 for 3, $3.50 for 10, $30 per 100.

HYPERICUM

*Hypericum repens. 4 to 6 in. A creeping plant with dark foliage and bright yellow flowers 1½ inches in diameter. A wonderful little plant. $1.20 for 3, $3.50 for 10, $25 per 100.

HYSSOPUS

*Hyssopus officinalis. Hyssop. 1 to 2 ft. June to August. Aromatic shrubby herb of culinary and medicinal value with blush purple flowers in leafy spikes. Good for edging and can be trimmed like box.

*H. officinalis rosea. A seedling variety which originated in our fields. Similar to the species but the flowers are pink.

Iberis and Incarvillea will be found on page 74

INULA

*Inula ensifolia. Swordleaf Inula. 6 to 8 in. July and August. A narrow-leaved sort with large, bright yellow flowers. Showy for a bold clump in the rockery. $1.20 for 3, $3 for 10, $24 per 100

IRIS

Irises appeal both to the connoisseur who enjoys their delicacy of texture, beauty of form, and the exquisite colorings, ever modified by the interplay of light, shadows, and reflections within the complexity of the flower, but also to the “quick and easy” back-yard gardener because of their everlasting willingness to grow anywhere and bloom their heads off without any attention at all.

They rank among the most important of all plants and share the top of the perennial list only with the peony.

We have upward of one hundred and fifty varieties in our collection, including all classes in both named varieties and separate colors.

German Iris • Tall Bearded Iris

This class of Iris is particularly adapted for the wild-garden, shrubbery border, or any well-drained garden soil. They bloom early and their variety of color is infinite. Very useful for cutting, the buds opening rapidly in water.

The following list includes many old varieties with certain characteristics that make them still greatly desirable, and we have added a number of newer varieties of real value. The figures which follow the names of the originators denote the rating according to the symposium of the American Iris Society, published in May, 1922.

They should be planted in full sunlight, in well-drained soil, and it is conceded that a little lime now and then is beneficial. There is considerable prejudice among Iris fanciers against using manure, and fertilization is usually accomplished by the use of bone-meal or some commercial product.

Admiral Togo. White, faintly tinted lavender; F. and S. lightly bordered purple; of the habit of Mme. Chereau. 30 cts. each, $2.40 for 10, $18 per 100.

Afterglow. (Sturtevant, 1915.) 8.6 Soft grayish pink, shading to rich yellow through the center. 3 ft. 75 cts. each.

Alcazar. (Vilmorin, 1910.) 8.9 S. light bluish violet; F. deep purple, with bronze-veined throat. 3 to 4 ft. 40 cts. each, $3 for 10, $27 per 100.

Amas. (Foster, 1885.) 7.8 S. rich blue; F. violet; very large, beautiful flower. 2 ft. 40 cts. each, $3.50 for 10.

Ambassadeur. (Vilmorin, 1920.) 9.4 S. lavender with smoky stains and crystalline texture; F. glorious purple with a silky velvety sheen of glowing crimson. One of the tallest, largest, and most beautiful Irises in the world. 60 cts. each, $5 for 10.

Archeveque. (Vilmorin, 1911.) 8.3 S. deep purple-violet; F. deep velvet violet. 2 ft. 50 cts. each, $4 for 10.

Atroviolacea. (Salter, before 1859.) S. violet-blue; F. deep purple. 30 cts. each, $2.40 for 10, $18 per 100.

Attraction. (Sir Robert Peel, 1885.) S. pale blue; F. darker blue, penciled white on lower half; anthers white, tipped yellow. 30 cts. each, $2.40 for 10, $18 per 100.

Augustina. Thunbergian. S. yellow; F. yellow and maroon. 30 cts. each, $2.40 for 10, $18 per 100.

Aurea. (Jacques, 1830.) S. and F. rich chrome-yellow. Large flowers of perfect form. 35 cts. each, $3 for 10, $24 per 100.

Caprice. (Vilmorin, 1898.) 7.5 S. rosy red; F. deeper rosy red. 25 cts. each, $3 for 10, $24 per 100.
GERMAN IRIS, continued

Cecil Minturn. (Farr, 1922.) S. light lavender-pink; F. pale purple, center violet stained, and illuminated by a golden beard. Medium-sized flower on stems 27 in. high. A wonderful "pink" Iris for specimen clumps or broad landscape effect. 30 cts. each, $5 for 10.

Charles Dickens. (1889.) S. blue; F. dark blue, suffused and veined dark violet; anthers white, tipped yellow. 30 cts. each, $2.40 for 10, $18 per 100.

Cherubim. (Vilmorin, 1911.) 6.8 S. pinkish violet or mauve, rose-pink, veined darker. 30 cts. each, $2.40 for 10, $18 per 100.

Darius. (Parker, 1873.) S. chrome-yellow; F. purple, margined pale yellow and reticulated white. 30 cts. each, $2.40 for 10, $18 per 100.

Eldorado. (Vilmorin, 1919.) 7.8 S. brassy yellow stained mauve; F. violet and yellow-bronze. 2½ ft. 30 cts. each, $2.40 for 10, $18 per 100.

Flavescens. (De Candolle, 1813.) S. and F. blue; F. with a groundwork of the same color but richly overlaid and veined with deep purple. 28 in. 30 cts. each, $4 for 10.

Garrick. (De Candolle, 1813.) S. and F. blue; F. with S. faintly bordered pale blue. 28 in. 50 cts. each, $3 for 10, $21 per 100.

Hector. (Lemon, 1840.) S. dark blue; F. purple. 30 cts. each, $2.40 for 10, $18 per 100.

Her Majesty. (Perry, 1903.) 7.3 S. rose-pink; F. bright crimson, shaded darker. 22 in. 35 cts. each, $3 for 10, $21 per 100.

Herant. (1889.) S. bright blue; F. much deeper in color. A beautiful broad-leaved sort, free flowering. 30 cts. each, $2.40 for 10, $18 per 100.

Horatius. (Farr, 1909.) 8.4 S. light silvery mauve; F. rosy lavender, veined darker. 30 cts. each, $2.40 for 10, $18 per 100.

Hector. (Lemon, 1840.) S. lilac; F. dark violet- blue. 30 cts. each, $2.40 for 10, $18 per 100.

Gen. Grant. (Dutch, 1889.) S. pale lemon; F. purple, striped white on the lower half, narrowly bordered with lemon. 30 cts. each, $2.40 for 10, $18 per 100.

Gold Imperial. (Sturtevant, 1924.) S. and F. rich golden yellow, intensified by a bright orange beard. Flower of medium size on tall stems, 33 inches. One of the rare choice Irises. Good, pure yellow varieties are very scarce. 30 cts. each, $10 per 100.

Lute. (Vilmorin, 1904.) 6.8 S. light mauve with a groundwork of the same color but richly overlaid and veined with deep purple. 28 in. 30 cts. each, $3 for 10, $27 per 100.

Malvina. (Lemon, 1857.) S. yellow, blotched with brown; F. rich purple, flecked with white, the middle striped white, base tinted yellow. 30 cts. each, $2.40 for 10, $18 per 100.

Mexicana. (Salter, before 1839.) S. yellow, suffused with old-gold on the tips; F. purple, tipped old-gold with yellow base. 30 cts. each, $2.40 for 10, $18 per 100.

Midnight. A rich velvety dark purple. 28 in. 30 cts. each, $2.40 for 10, $18 per 100.

Mme. Chereau. (Lemon, 1844.) S. and F. white, edged and feathered with violet and pale blue. Very free flowering. 30 cts. each, $2.40 for 10, $18 per 100.

Monsignor. (Vilmorin, 1907.) 8.4 S. pale violet; F. with a groundwork of the same color but richly overlaid and veined with deep purple. 28 in. 30 cts. each, $4 for 10.

Mother of Pearl. (Sturtevant, 1921.) S. and F. pale bluish lavender with a faint creamy undertone. Large flowers of exceptional substance and perfect form on well-branched stems. 75 cts. each, $6 for 10, $50 per 100.

Mrs. Horace Darwin. (Foster, 1903.) 6.8 S. pure white; F. slightly reticulated violet at the base. 2 ft. 30 cts. each, $2.40 for 10, $18 per 100.

Nebelungen. (Goos & Koenemann, 1910.) 7.3 S. pale blue; F. violet-pink, veined violet-bronze. Large. 2½ ft. 35 cts. each, $2.70 for 10, $20 per 100.

Nuee d'Orage. (Verdier, 1905.) 7.6 S. pale mauve or slate-color; F. reddish purple. Free-flowering. 1 ft. 30 cts. each, $2.40 for 10, $18 per 100.

Oroya (Charles Dickens). S. purple; F. purple, penciled white and mauve; limb purple, splashed with dark shade. 30 cts. each, $2.40 for 10, $18 per 100.

Pallida Dalmatica, Princess Beatrice. True Pallida Dalmatica, and still one of the most attractive varieties as well as very satisfactory. Large flowers of a clear lavender-blue, shading to a pale silvery blue at the base, and sweetly scented. 40 cts. each, $3 for 10, $24 per 100.

Perfex. (Barr.) 7.8 S. light blue; F. velvety purple-black, with conspicuous orange beard. 3 ft. 35 cts. each, $3 for 10, $21 per 100.

Pocahontas. (Farr, 1915.) 7.7 S. and F. pure white, with S. faintly bordered pale blue. 28 in. 30 cts. each.

Princess Victoria Louise. (Goos & Koenemann, 1910.) 7.2 S. sulphur-yellow; F. rich plum, bordered cream. 2½ ft. 35 cts. each, $2.70 for 10, $20 per 100.

Parc de Neully. (Verdier, 1910.) 8.1 Flowers rich plum-purple; S. arching, ruffled; F. drooping. 2½ ft. 30 cts. each, $4 for 10.

Parisiana. (Vilmorin, 1911.) S. white, dotted with rose purple; F. white, veined with violet. 30 cts. each, $2.40 for 10, $18 per 100.

Pauline. (Farr, 1913.) S. bright blue; F. dark blue. 30 cts. each, $2.40 for 10, $18 per 100.

Perfection. (Barr.) 7.8 S. light blue; F. velvety purple-black, veined in the heart of the flower, and bearing a rich orange beard. 40 cts. each, $3.20 for 10, $27 per 100.

Prosper Laugier. (Verdier, 1914.) 8.3 S. light bronze-red; F. deep velvety crimson, richly veined at the throat. 35 cts. each, $2.70 for 10, $20 per 100.

Purple King. A bright purple. 30 cts. each, $2.40 for 10, $18 per 100.

Quaker Lady. (Farr, 1909.) 8.4 S. smoky lavender with yellow shading; F. ageratum-blue and old-gold. 32 in. 40 cts. each, $3.50 for 10, $30 per 100.

Queen Caterina. (Sturtevant, 1891.) 9.1 S. and F. light, silvery blue, with a very faint lavender tinge, veined bronzed in the heart of the flower, and bearing a rich orange beard. 40 cts. each, $3.20 for 10, $27 per 100.

Queen of May. (Salter, before 1839.) S. most delicate rose-pink. 30 cts. each, $2.40 for 10, $18 per 100.

Rebecca. (Lemon, 1840.) S. golden yellow; F. yellow, splashed and veined golden brown. 30 cts. each, $2.40 for 10, $18 per 100.

Rhein Nixe. (Goos & Koenemann, 1910.) 8.4 S. pure white; F. deep yellow, veined white edge. 3 ft. 35 cts. each, $3 for 10, $21 per 100.
GERMAN IRIS, continued

Shekinah. (Stutevant, 1918.) 8.8 S. and F. pale lemon-yellow, shading to buff and straw-color, and a strong orange beard. A fine tall plant and one of the very few good, tall yellow varieties. 50 cts. each, $4 for 10.

Sherwin-Wright. (Kohankie, 1915.) 7.6 Fine golden yellow; vigorous grower. 2 ft. 35 cts. each, $3 for 10, $24 per 100.

Sabinville de Mme. Gaudichau. (Millet, 1914.) 9.3 A splendid early variety of clear, distinct blue-purple, very dark and fine. Excellent substance and tall stems. $1 each, $8 for 10.

Speciosa. (Old French, before 1830.) S. dark lavender; F. light purple. 30 cts. each, $2.40 for 10, $18 per 100.

St. Clair. (Lemon, 1854.) S. and F. white, with well-defined blue borders half an inch wide. One of the best. 3 ft. 30 cts. each, $2.40 for 10, $18 per 100.

St. Louis. (Vilmorin, 1906.) Double; charming shades of lilac and blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

St. Patrick. (Sturtevant, 1918.) S. and F. pale blue. 30 cts. each, $2.40 for 10, $18 per 100.

Iris kaempferi • Japanese Iris

Extremely showy plants, bearing enormous, flat, salver-like flowers in many shades of white, lavender, purple, violet, blue, and beautifully veined types. They bloom about one month after the German Iris varieties, usually in mid-July. They are so distinct from other Irises that they seem to belong to a different family.

Prices of Japanese Iris, except where otherwise noted, are 50 cts. each, $4 for 10, $36 per 100. We will furnish 10 named Japanese Iris of our own selection for $4—all good varieties (10 named Japanese Iris, your selection, would cost 50 cts. each).

Alida. White, six-petaled variety, with stripe of light blue.

Aspasie. (Vilmorin, 1905.) Single; soft mauve-blue.

Asstare. (Vilmorin, 1903.) Double; beautiful dark violet.

Babylon. (Hallock, 1889.) Reddish purple; very rich color; extra-large flowers.

Band of Clouds. (Kumo-no-Obi.) Bright clear purple with distinct rays and halo of white surrounding the golden throat.

Blue Belle. Beautiful deep blue, yellow center; large and full.

Blue Bird. (Hallock, 1889.) Intense blue throughout; large and full.

Blue Danube. (Hallock, 1889.) Pure rich blue, yellow center; six petals.

Commodore Perry. Very dark violet-red; six petals; medium size.

Double Blue Belle. Beautiful, double deep blue flowers; very late.

Gold Bound. (Hallock, 1885.) Large white flowers, yellow center; six petals.

Harlequin. (Vilmorin, 1914.) Whitish lavender; large.

Helen Von Siebold. Deep pink, white lines.

Hercules. (Vilmorin, 1910.) Light blue, shaded with violet.

Iso-no-Nami. Cerulean-blue on gray-lilac, flaked and speckled, large yellow blotches; six petals.

Kamaochi-guma. Dark purplish indigo; midseason; double.

Japanese Iris. Iris kaempferi.

JAPANESE IRIS, continued

Mahogany. (Hallock, before 1893.) Dark red, shaded maroon; six petals; very distinct.

Maple Cascade. A choice double variegated variety; bright crimson-purple, beautifully feathered in white.

Melpomene. (Vilmorin, 1906.) Double; charming shades of lilac and blue.

Minervve. (Vilmorin, 1908.) Single; a lovely pink shade, tinted rose.

Moonlight Waves. (Gekka-no-nami.) White, overlaid light pink; yellow center. A very choice variety. 75 cts. each, $7 for 10.

Navy Blue. Rich dark blue, yellow at base; six petals.

Neptune. (Vilmorin, 1906.) Violet, overlaid dark blue; single.

Norma. (Hallock, 1893.) Double. Shining lavender-pink, tinged blue and gold at center. Large and fine.

Oscar. (Hallock, 1885.) Dark red, changing to a very light color.

Painted Lady. White, richly suffused and striped with bright pink; very showy.

Paragon. (Hallock, 1885.) Rich velvety purple; six petals.

Patrocle. (Vilmorin, 1907.) Single; superb dark reddish violet.

Proserpine Vilmorin. (Vilmorin, 1908.) Rich lavender, stippled on grayish ground, center lavender-violet edged white.

Purple and Gold. Enormous double flowers; early and free blooming. Color rich violet-purple with white petals.

Purple Emperor. (Wallace, 1910.) Very dark purple, yellow center; large flower and strong grower.

Pyramid. (Hallock, before 1893.) Lilac-blue veined with white in center of petals; six petals.

Reine des Bulgares. (Vilmorin, 1910.) Single; the three large outer petals of soft lilac-blue finely veined with white, the lilac a little more pronounced in the small center petals, half yellow.

Turban. (Hallock, 1889.) Beautiful light blue and white; six petals. One of the best.

Uchi Wa. Cerulean-blue, yellow blotches surrounded with white halo radiating out into broad line; six petals; very long stems.

Venus. (Hallock, before 1893.) Pure white. A strong grower and free bloomer.
JAPANESE IRIS, continued

White Crane. (Manaduru.) Six large white petals blotched yellow and feathered blue. A very handsome and decorative variety. 90 cts. each, $4.50 for 10, $40 per 100.

William Tell. (Hallcock, 1885.) White, veined with indigo; six petals. A very attractive variety. 50 cts. each, $4.50 for 10, $40 per 100.

Zama Forest. Large white blossom, the face of which is shaded with purple; three petals.

Kaempferi, Mixed Colors (Mixed Japanese Iris). 35 cts. each, $3 for 10, $20 per 100.

DWARF BEARDED IRIS

Charming, very dwarf plants which bloom very early. The flowers are large and showy, of the same general appearance as the German Iris. They are very easily grown and spread rapidly into a dense mat, which makes them very suitable for edging borders and for rather broad patches in the rock garden. Coming into flower with the daffodils and tulips, they make a splendid prelude to the grand chorus of German and Japanese varieties which follow them.

*Bride. (Caparne, 1901.) A large, showy, pure white. $1.05 for 3, $2.70 for 10, $20 per 100.

*Charmer. (Caparne, 1901.) A pretty little light blue flower, delightful in the rock garden. $1.05 for 3, $2.70 for 10, $20 per 100.

*Cyanea. (Goos & Koenemann, 1899.) Deep blue. $1.05 for 3, $2.70 for 10, $20 per 100.

*ExceIsa. (Goos & Koenemann, 1889.) 5 in. A fine yellow form. $1.05 for 3, $2.70 for 10, $20 per 100.

*Pumila Atroviolacea. (Todaro, 1856.) A rich royal purple. $1.05 for 3, $2.70 for 10, $20 per 100.

*Pumila Aurea. Bright yellow. $1.05 for 3, $2.70 for 10, $20 per 100.

*Sambo. (Perry, 1903.) 10 in. Dark purple with crimson veins. $1.05 for 3, $2.70 for 10, $20 per 100.

*Schenckuppe. (Goos & Koenemann, 1910.) White, slightly veined darker at the base of petals. $1.05 for 3, $4 for 10.

MISCELLANEOUS IRIS

*Iris cristata. Crested Iris. 4 to 5 in. Early. A very low, southern species with charming light blue flowers marked with white. Pretty in open border and on a rock ledge. 90 cts. for 3, $2.40 for 10, $18 per 100.

1. chrysographes. Goldfin Iris. 2 to 3 ft. Rich, dark red-violet flowers of graceful form, conspicuously veined with golden yellow. A handsome late Iris, good for water-planting. $1.05 for 3, $2.70 for 10, $20 per 100.

1. pseudacorus. 4 ft. May and June. The common yellow Water-Flag, suitable for marshes and water-courses. 90 cts. for 3, $2.40 for 10, $18 per 100.

1. sibirica. 3 ft. June. Long, narrow leaves; pale blue flowers. Fine for water-garden. 90 cts. for 3, $2.40 for 10, $18 per 100.

1. sibirica alba. A fine, pure white form. 75 cts. for 3, $2.20 for 10, $15 per 100.

1. orientalis. A fine shade of Yale blue. 90 cts. for 3, $2.20 for 10, $15 per 100.

1. Snow Queen. (Collected in Japan, 1900.) 3 ft. Large, well-formed and exquisite snowy white flowers in great abundance. Foliage very graceful. A gem for border or waterside. 90 cts. for 3, $2.40 for 10, $18 per 100.

1. verna. 4 in. A little low Iris with blue flowers, having a yellow center. 90 cts. for 3, $2.40 for 10, $18 per 100.

1. versicolor. 20 in. A native of stream-sides and swamps, producing its charming light purple flowers very freely in spring and early summer. 75 cts. for 3, $2.20 for 10, $15 per 100.

IBERIS

Edging and rock plants of much refinement and beauty. They should be planted in broad clumps or long lines, and they like to be let alone when once established.

*Iberis gibraltarica. 1 ft. May and June. White flowers tinged rose. One of the most striking and showy sorts and not always obtained easily as the true stock is fairly rare.

*1. sempervirens, Little Gem. 6 in. May. A miniature form of the above which blooms profusely and makes a splendid little evergreen rock plant or edging.

*1. sempervirens, Snowflake. An early-flowering variety, with large, snowy white flowers.

INCARVILLEA

Incarvillea delavayi. 18 in. June and July. A hardy, tuberous-rooted plant, and one of the choicest perennials yet introduced. The large, rose-colored, trumpet-shaped flowers are produced in clusters and have unusual lasting qualities. Good border plants for sheltered positions. $1.20 for 3, $3 for 10.

JASIONE

*Jasione perennis. Sheep’s-Bit. 6 to 12 in. July and August. A good rock or border plant of compact habit, bearing numerous round heads of blue flowers. 90 cts. for 3, $2.40 for 10, $18 per 100.

KNIPHOFIA • Torch Lily

Kniphofia uvaria pfizertiana. Bonfire Torch Lily. 2 to 3 ft. August to October. A lily-like plant which produces extra-fine spikes of orange-scarlet flowers, with long, protruding anthers.

Lilium regale. Royal Lily. See page 76

Except where otherwise indicated, all Perennials are 90 cts. for 3, $2.40 for 10, $18 per 100
KNIFOHIA, continued

K. uvaria grandiflora. Dayglow Torch Lily. 3 to 4 ft. The old-fashioned, late-flowering sort, with rich red flowers, changing to salmon.

LATHYRUS • Pea

Lathyrus latifolius. Perennial Pea. 4 ft. July to September. Clusters of large, bright rosy red flowers, on long stems produced in abundance. Can be used as a tall, bushy perennial, or makes an excellent vine for covering rocks, stumps, and walls.

L. latifolius albus. White Perennial Pea. 4 ft. July to September. A white-flowering variety of the above, useful for the same purposes. 90 cts. for 3, $2.40 for 10, $20 per 100.

L. latifolius, Pink Pearl. 4 ft. July to September. An improved variety with clusters of large pink flowers. Fine.

LAVANDULA

Lavandula officinalis (vera). True Lavender. 1½ ft. July and August. This is the true Sweet Lavender. Delightfully fragrant blue flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

*L. officinalis nana. A dwarf, more compact plant than L. officinalis, with somewhat darker flowers, and blooms earlier. Good for rock garden. $1.05 for 3, $2.70 for 10, $20 per 100.

L. spica. Spike Lavender. 1 ft. July and August. A little lighter in color than the preceding, with shorter, denser spikes of flowers and even stronger and more pervasive scent. $1.05 for 3, $2.70 for 10, $20 per 100.

LEONTOPODIUM • Edelweiss

*Leontopodium alpinum. 6 to 8 inches. June to August. A famous alpine plant for a dry situation. The flowers are woolly, grayish white, and curiously shaped rosettes on the tops of sturdy stems. $1.20 for 3, $3.50 for 10, $30 per 100.

LILAIRIA

Ligularia clivorum. Cat-tail Gayfeather. 3 to 5 ft. August to October. A striking and desirable plant, with great rocket-like spikes of pale purple flowers. Excellent for the border or among shrubbery.

LILIUM • Lily

The Lilies are a marvelously beautiful and variable race and merit a great deal of attention in all perennial plantings. The white kinds are most highly finished and look best in more or less formal surroundings, while the red and orange kinds are more adapted to the edges of shrubbery or meadow planting. Most Lilies require a little shade about their roots, and for that reason are best planted among low shrubs, or under thin trees. They like good soil, but no manure, and they must not be in wet ground.

Lilium auratum. Goldband Lily. 3 ft. July and August. Gigantic, pure white flowers with tiny crimson spots and a broad gold band through each petal. Especially effective scattered in rhododendron beds or massed in border. $1.50 for 3, $4 for 10, $30 per 100.

L. canadense. Canada Lily. 4 to 6 ft. July and August. Slender stems with whorled leaves and big, branching sprays of drooping, bell-like flowers varying from orange-yellow to tawny red.

L. candidum. Madonna Lily. 2 to 3 ft. June and July. The most popular of garden Lilies. The pure white, very fragrant flowers are arranged like a snowy pyramid about the stiff, tapering stem. $1.20 for 3, $3.50 for 10, $30 per 100.

L. carolinianum. Carolina Lily. 2 to 4 ft. July and August. Same color as L. superbum, but with paler, almost white throat. $1.05 for 3, $3 for 10.

L. elegans. 1½ ft. A dwarf sort, bearing clusters of erect flowers varying from orange to deep maroon. $1.05 for 3, $3 for 10.
LILIUM, continued

L. Hansoni. Japanese Wax Lily. 3 to 4 ft. Stiff stems with whorls of narrow leaves, surmounted by sprays of nodding, reflexed flowers with thick, waxy petals of apricot-orange colors dotted with brown. Grows well in ordinary garden soil, likes partial shade, and blooms in late spring. A very quaint and charming Lily, and one of the easiest to raise. $2.25 for 3, $6 for 10.

L. Henryi. Henry Lily. 6 to 8 ft. July and August. A very tall, sturdily Lily bearing giant sprays of reflexed, bright apricot-orange flowers somewhat like the Speciosums, each marked by a rich emerald-green crest at the base of each petal. Needs shade at the root and sun for the flowers. 75 cts. each, $6 for 10.

L. longiflorum giganteum. Giant Easter Lily. 4 to 5 ft. July and August. The white Lily sold by florists at Easter, and much more beautiful when grown in the garden where the golden anthers give it life and spirit. $1.80 for 3, $5 for 10.

L. regale. Royal Lily. 2 to 3 ft. This variety has enormous white flowers, shaded pink or purple, with a canary-yellow center. Undoubtedly the easiest of the white Lilies to grow and will grow almost anywhere, so long as the flowers can reach the sunlight. Lovely on top of a wall, or in the higher sections of the rock garden where it can be looked up to. $1.80 for 3, $5.50 for 10, $50 per 100.

L. speciosum album. White Speciosum Lily. 3 ft. August and September. Large, pure white, fragrant flowers. Fine for planting among rhododendrons. $1.50 for 3, $4.40 for 10, $40 per 100.

L. speciosum rubrum. Red Speciosum Lily. 3 ft. August and September. Large, fragrant flowers of light pink with a crimson stripe and many deep pink dots. Fine for planting among rhododendrons. $1.20 for 3, $3.50 for 10, $25 per 100.

L. superbum. American Turkscap Lily. 3 to 4 ft. July. Flowers bright reddish orange, conspicuously spotted with a vermilion spot. Fine for planting among rhododendrons. $1.05 for 3, $2.70 for 10, $20 per 100.

L. tenuifolium. Coral Lily. 18 in. July. Slender, narrow-leaved plants with a few drooping smallish flowers of coral and vermilion. Very pretty and showy. $1.05 for 3, $3 for 10, $25 per 100.

L. tigrinum. Tiger Lily. 2 to 5 ft. August. Nodding, bright red flowers, thickly covered with large purplish spots in a pyramidal cluster. A thoroughly old-fashioned and remarkably useful plant. 90 cts. for 3, $2.40 for 10, $20 per 100.

LIMONIUM • Statice

*Limonium latifolium. Bisleaf Sea Lavender. 2 ft. July and August. A most valuable plant either for the border or for the rockery. It bears tufts of leathery foliage and immense candelabra-like heads of minute, purplish blue flowers, the sprays often 1½ feet high and 2 feet across. If cut and dried, the flowers last in perfect condition for months.

LINARIUM • Flax

*Linaria cymbalaria. Kenilworth Ivy. A trailing plant or vine with ivy-like leaves and dainty little lavender flowers. A perfect plant for rockeries and for flaggings and walls. Also much used in hanging-baskets or wherever a vigorous, persistent trailing plant is desired.

LYCHNIS • Campion

A much-varied family of old-fashioned plants which have been grown under various names—Viscaria, Lychnis, Agrostemma, etc. They are all permanent and pleasing and full of old-time charm. The individual plants are usually small and should be massed to secure showy effect. This is especially applicable to L. chalcedonica and L. coronaria.

*Lychnis alpina. Arctic Campion. 4 in. An attractive alpine plant with tufted foliage and reddish purple flowers. $1.05 for 3, $2.70 for 10, $18 per 100.

L. chalcedonica. Maltese Cross. 2 to 3 ft. June to August. An old and valued plant with terminal heads of very showy orange-scarlet flowers.

L. coronaria. Rose Campion. 18 in. A low-growing, bushy plant with white, pink or crimson flowers. $1.05 for 3, $2.20 for 10, $15 per 100.

L. coronaria alba. White Campion. Same as preceding, except the flowers are white. They look well together. 75 cts. for 3, $2.20 for 10, $15 per 100.

LOBELIA

Lobelia cardinalis. Cardinal-flower. 3 ft. July and August. A very showy variety with long spikes of scarlet flowers and handsome green foliage. Desirable for planting along ponds or streams.

L. speciosa. Large Blue Lobelia. 2 to 3 ft. August and September. An interesting plant with dense spikes of showy deep blue flowers. Useful along edge of ponds or streams.

L. speciosa alba. Large White Lobelia. A handsome white variety. Good for damp ground or bog. 90 cts. for 3, $2.40 for 10.

LUPINUS Lupine

The Lupines are a coming flower. While they have long been grown to a limited extent, we are just beginning to realize the possibilities of these beautiful plants. They delight in dry, sunny situations and resent being disturbed when once established. A most valuable plant either for flower beds and for the rockery. It bears tufts of leathery foliage and immense candelabra-like heads of very showy orange-scarlet flowers. June to September. A very quaint and charming plant, and for flaggings and walls. Also much used in ordinary garden soil, likes partial shade, and blooms in late spring. Large, fragrant flowers of light pink with a crimson stripe and many deep pink dots. Fine for planting among rhododendrons. $1.20 for 3, $3.50 for 10, $25 per 100.

L. speciosum album. White Speciosum Lily. 3 ft. August and September. Large, pure white, fragrant flowers. Fine for planting among rhododendrons. $1.50 for 3, $4.40 for 10, $40 per 100.

L. speciosum rubrum. Red Speciosum Lily. 3 ft. August and September. Large, fragrant flowers of light pink with a crimson stripe and many deep pink dots. Fine for planting among rhododendrons. $1.20 for 3, $3.50 for 10, $25 per 100.

L. superbum. American Turkscap Lily. 3 to 4 ft. July. Flowers bright reddish orange, conspicuously spotted with a vermilion spot. Fine for planting among rhododendrons. $1.05 for 3, $2.70 for 10, $20 per 100.

L. tenuifolium. Coral Lily. 18 in. July. Slender, narrow-leaved plants with a few drooping smallish flowers of coral and vermilion. Very pretty and showy. $1.05 for 3, $3 for 10, $25 per 100.

L. tigrinum. Tiger Lily. 2 to 5 ft. August. Nodding, bright red flowers, thickly covered with large purplish spots in a pyramidal cluster. A thoroughly old-fashioned and remarkably useful plant. 90 cts. for 3, $2.40 for 10, $20 per 100.

LINUM, continued

*L. perenne. Perennial Flax. 1½ ft. May to August. A desirable bushy little plant with wiry stems and a multitude of large, clear blue flowers. Good in either border or rockery. $1.05 for 3, $2.70 for 10, $18 per 100.

*L. perenne alba. White Perennial Flax. A white-flowered variety of the above.
LYCHNIS, continued

L. flox-jovis. Flower-of-Jove. 12 to 18 in. A fine old-fashioned plant making dense rosettes of leaves from which rise clusters of fringed rosy red flowers.

L. haageana. Haage Campion. 1 ft. June to August. A very showy perennial, producing orange-red, scarlet, or crimson flowers nearly 2 inches across.

L. viscaria splendens flore-pleno. Double Rose-pink Campion. 12 to 15 in. June and July. A splendid variety of tufted habit with large, double, rose-colored flowers closely arranged on slender stems. A fine old-fashioned perennial adapted to the rock-garden or border, also good for cutting.

LYTHRUM, continued

L. virgatum. Wand Lythrum. 4 to 5 ft. July to September. A more slender plant than L. salicaria with smaller flowers, but of a deeper, more intense shade of rose-pink and purple. An excellent variety for landscape work because of its color value which shows up remarkably at a distance. $1.05 for 3, $3 for 10.

MALVA • Mallow

Malva alcea. Hollyhock Mallow. 2 ft. Round, much-divided leaves and numerous bright pink flowers; like small hollyhocks. Blooms all summer.

M. moschata. Musk Mallow. 1½ to 2 ft. July to September. Fragrant, rosy-tinted flowers in clusters. A very pretty and deserving plant which should be massed in borders.

M. moschata alba. White Musk Mallow. An exceptionally attractive variety with white, fragrant flowers.

MAZUS

*Mazus rugosus. 4 in. An interesting alpine plant from the Himalaya Mountains, covered in spring with dainty lilac and white flowers. $1.05 for 3, $2.50 for 10, $20 per 100.

MELISSA • Balm

MENTHA • Mint

Mentha piperita. Peppermint. A well-known useful herb with fragrant foliage. Thrives well in any soil. 75 cts. for 3, $2.20 for 10, $18 per 100.

*M. requieni. Requien Mint. 2 to 4 in. This minute, creeping herb has tiny, round leaves and pale mauve flowers. Peppermint scented. $1.05 for 3, $3 for 10.

M. spicata. Spearmint. Purplish flowers on slender spikes. Foliage has an attractive taste and fragrance.

Except where otherwise indicated, all Perennials are 90 cts. for 3, $2.40 for 10, $18 per 100

Nepeta mussini. A fine edging or rock plant. See page 78
**MERTENSIA • Bluebells**

*Mertensia virginica*. Virginia Bluebells. 1 to 2 ft. Bears drooping clusters of beautiful blue and pink bell-like flowers in early spring. The foliage is large, light green, and disappears in midsummer. Prefers a moist, shady place.

**MISCANTHUS • Eulalia**

*Miscanthus sinensis*. Eulalia. 4 to 8 ft. A fine ornamental grass with ribbon-like leaves 2 to 3 feet long, making a big fountain-like clump from which its plummy flowers rise on stiff stems several feet above the leaves. Splendid for specimens and bordering paths or drives. $1.05 for 3, $3 for 10, $20 per 100. M. sinensis variegatus. Striped Eulalia. Similar to M. sinensis but the leaves are striped lengthwise with yellowish white. $1.05 for 3, $3 for 10, $20 per 100. M. sinensis zebrina. Zebra Grass. A variety with striped leaves. $1.05 for 3, $3 for 10, $20 per 100.

**MITCHELLA**

*Mitchella repens*. Partridge Berry. A little trailing evergreen which forms firm mats in shady places and covers itself with sparkling crimson berries. It likes a very sour and a moist but well-drained situation.

**MONARDA**

Bold, showy, native plants which grow along streams and in fence corners, and light up the dark corners of woods or thickets. They are much used in landscape work for broad, showy effects, and do well at the back of ordinary borders, in full sun. The flowers have a rich bergamot fragrance.

**MYOSOTIS**

Finest of all edging plants for borders of spring-flowering bulbs, the Forget-me-nots are equally good for informal rock gardens or stonework of any kind; and the second variety is particularly adapted to the banks of streams or ponds. These are among the prettiest and showiest of flowers without being unduly gaudy, and they are especially fine with pale pink or creamy yellow flowers.

*Myosotis dissitiflora*. Swiss Forget-me-not. 6 to 12 in. May to July. The deep sky-blue flowers are borne in small clusters. A good early-blooming variety for rock garden and edging bulb-beds. 75 cts. for 3, $2.20 for 10, $15 per 100.

*Myosotis scorpioides semperflorens*. Perpetual Forget-me-not. 8 in. All summer. Bright blue flowers in clusters, each one lit with a bright yellow eye. A very charming edging or rock-garden plant of spreading habit then the preceding. Also fine for ponds and streams, grows very well in water. 75 cts. for 3, $2.20 for 10, $15 per 100.

**NEPETA**

*Nepeta hederacea* (glechoma). Ground Ivy. A low plant with pretty, round foliage and light blue flowers in early spring. As it creeps extensively, it is desirable for covering banks or under trees, spreading rapidly.

*N. mussini*. An excellent plant for any position, but especially useful in the rock garden. Bright blue flowers in early spring. As it creeps extensively, it is desirable for covering banks or under trees, spreading rapidly. $1 for 3, $3 for 10, $20 per 100.

**NIEEREMBERGIA • Cupflower**

*Nierembergia rivularia*. Whitecup. Beautiful dwarf alpine plant with large, creamy white, cup-shaped flowers. A very adaptable and extraordinarily persistent plant for stream-banks, dry borders, or rock gardens. $1.05 for 3, $2.70 for 10, $20 per 100.

**GENOTHERA**

*Genothera fruticosa major*. Bush Snowdrops. 2 ft. June to September. A strong-growing plant, forming a dense bush-like specimen and bearing deep yellow flowers in profusion.

*Genothera fruticosa youngi*. Young's Sundrops. 2 ft. June to August. Strong, stocky, large-leaved plant with firm, shiny foliage and numerous bright lemon-yellow flowers.

*Genothera missouriensis*. Oakark Sundrops. 10 in. June to August. Low-branched, almost prostrate plants, bearing a profusion of large, bright yellow, solitary flowers often 5 inches across. Good for rock garden or border. $1.20 for 3, $3 for 10, $25 per 100.

*Genothera speciosa*. 18 in. August and September. A fine, hardy plant with large, pure white flowers. Spreads rapidly and is attractive in rock garden or naturalistic planting. $1.05 for 3, $2.70 for 10, $20 per 100.

**PACHYSANDRA. See Evergreen Shrubs**

**PARADISEA**

*Paradisea liliasmum giganteum*. St. Bruno’s Lily. 1 1/2 to 2 ft. Similar to St. Bernard’s Lily, *Anthericum lilium*, but has larger flowers and more of them. A charming lily-like flower. $1.05 for 3, $2.70 for 10, $20 per 100.
**Paeonia** - Peony

There is no question but that Peonies are one of the most important of the Hardy Perennials. The plants grow easily, are beautiful in foliage all season long, become larger and finer year by year, and are superbly beautiful when in flower, either for garden decoration or cutting. The numbers following the names of the varieties indicate the rating of their merit upon the basis of 10 as perfection. This rating was determined by a symposium among the members of the American Peony Society.

**Albert Crousse.** (Crousse, 1893.) 8.6 Large, ball-like flowers of magnificent form, and soft, creamy salmon-pink. One of the very finest. 75 cts. each, $6 for 10.

**Augustin d’Hour.** (Calot, 1867.) 7.8 Large, compact bomb-type flower of bright red. $1 each, $9 for 10.

**Baroness Schroeder.** (Kelway, 1889.) 9.0 Very large white flowers sometimes tinted pale pink, fragrant and floriferous. A strong-stemmed variety particularly good for cutting. 75 cts. each, $5 for 10.

**Beaute Francaise.** (Guérin, 1830.) 6.5 Pale lilac-rose. Mids. 75 cts. each, $6 for 10.

**Comte de Nippon.** Large; white with crimson spots. 75 cts. each, $6 for 10.

**Couronne d’Or.** (Calot, 1873.) 8.1 Fine, very double flowers of creamy white with a strongly marked band of crimson-flecked petals and bright golden stamens about the center. A late and profuse bloomer. 75 cts. each, $6 for 10.

**Dorchester.** (Richardson, 1870.) 7.7 Large, compact flower; pale hydrangea-pink; fragrant. Late. 90 cts. each, $8 for 10.

**Dr. Bretonneau.** (Guerin, 1850.) 6.9 Large; pale lilac. Midseason. 75 cts. each, $6 for 10.

**Duchesse de Nemours.** (Calot, 1856.) 8.1 Beautifully cupped, pure white flowers of medium size, with lemon-yellow tints in the depths of its petals and a green base. Medium height; strong stems; early and productive. 90 cts. each, $8 for 10, $70 per 100.

**Edulis Superba.** (Lemon, 1824.) 7.6 Splendid, early flowers of rich rose-pink, with a fluffy, mounded or tufted center of lighter shades; fragrant. Tall, but stems bend, and very floriferous. An indispensable variety for its very colorful, extremely early flowers, and widely popular. 75 cts. each, $6 for 10.

**Felix Crousse.** (Crousse, 1881.) 8.4 Rich satiny crimson flowers with round, ball-like centers. Stems good; plant very floriferous. One of the very best crimson Peonies, and extremely effective in the garden. $1 each, $9 for 10.

**Festiva Maxima.** (Mijleze, 1851.) 9.3 An old variety which carries a very high rating because of its superb, enormous, pure white flowers with occasional crimson flakes, its tall stems, and abundant blooming habit. Early. 75 cts. each, $6.50 for 10, $50 per 100.

**Francois Ortegat.** (Parmentier, 1850.) 6.7 Semi-double; large; purplish crimson with brilliant golden yellow anthers. 75 cts. each, $5 for 10.

**Golden Harvest.** (Rosenfield, 1900.) 7.3 Medium size; pale lilac-rose; fragrant. Dwarf. Mids. 75 cts. each, $6 for 10.

**Humei.** (Anderson, 1810.) 5.7 Large, cherry-pink, tipped silver; fragrant. Very late. 75 cts. each, $6 for 10.
Officinalis Rosea. (Rosenfield, 1908.) 8.8 Double, light crimson flowers of shapely form with distinctly waved and curving petals. Vigorous, floriferous plants with strong stems. The finest red Peony at a moderate price, and by some regarded as the best of all. $1.50 each, $14 for 10.

Kelway’s Glorious. (Kelway, 1900.) 9.8 Immense, pure white petals with long, deeply fluted petals arranged symmetrically about a lovely, rose-like center. Strong, delicious fragrance. Moderate height, good stems, and a free bloomer when established. One of the finest Peonies in the world and a general favorite for specimens in the landscape. $12 each.

Lady Leonora Bramwell. (Kelway, ante 1895.) 6. Medium-sized flowers. 75 cts. each, 8 for 10.

Le Cygne. (Lemoine, 1907.) 9.9 A gigantic, ball-like bloom of purest cream-white, the broad, white petals incurved and overlapping like the feathers on the breast of a swan. The flower is the most nearly perfect of all Peonies and is correspondingly rated. Plant is not tall, rather compact, and blooms abundantly when once established. No Peony has been more eagerly desired and sought for and the stock is still scarce. $10 each.

L’Indispensable. 7.3 Large to very large full rose type. Lilac-white, shading to pale violet at the center. $1 each, $9 for 10.

Louis Van Houtte. (Calot, 1867.) 6.9 Large, dark crimson-purple variety. None better. Late. 90 cts. each, $8 for 10.

Marie Jacquin. (Verdier.) 8.3 A very beautiful cup-shaped Peony of pale pink and lilac which opens pure white, with an elusive opalescence that defies description. The incurved petals cluster about its golden center in the most charming fashion and give warrant for its popular name, “The Water Lily Peony.” $1.25 each, $11 for 10.

Mary Brand. (Brand, 1907.) 8.7 Large, globe-shaped blossoms of light, showy crimson, a shade darker than Karl Rosenfield, which it resembles superficially, although it is somewhat larger and has other differences. One of the finest red Peonies in beauty of color, growth, and blooming quality. $2.50 each, $24 for 10.

Mme. Auguste Dessert. (Dessert, 1899.) 8.6 Large flower of beautiful rose-pink, with outer petals and center slightly flecked with crimson. A very fine variety for landscape planting. Early midseason. $2 each, $18 for 10.

Mme. de Verneville. (Crousse, 1885.) 7.9 Very large, pure white with center tinged carmine. 90 cts. each, $8 for 10.

Mons. Jules Elie. (Crousse, 1888.) 9.2 An extra-fine early variety with a high mounded center clasped by an envelooping circle of wide, undulating guard petals, all shimmering, silvery pink. One of the finest and largest varieties for all purposes and should be in every garden. $1.25 each, $11 for 10.

Officinalis Rosa. Pink. 75 cts. each, $7 for 10.

Officinalis Rubra. Brilliant, glowing, deep crimson. Early. This is the old-fashioned red Peony. $1 each, $9 for 10.

Phoebe Caz. (Brand, 1907.) 8.8 An exquisite, globular flower of pale old-rose-pink with a delicate overcast of silverly lavender and lilac. Its broad, imbricated petals give it a strongly individual character and charm. A very tall variety with long bending stems. Late-blooming. $6.50 each.

Rosa Plena Superba. Delicate pink and salmon. 60 cts. each, $5 for 10.

Solfatare. (Calot, 1861.) 7.6 Milk-white, with a sulphur-yellow center. Midseason. 90 cts. each, $8 for 10.

Souvenier de Louis Bigot. (Dessert, 1913.) 9.1 A beautifully cupped, semi-double variety of soft rose-pink shaded with shell-pink and illuminated by numerous yellow stamens. One of the most exquisitely colored Peonies in existence, approaching Walter Faxon in this respect. Dwarf, free-blooming plants with strong stems. Midseason. $6 each.

Therese. (Dessert, 1904.) 9.8 Very large flowers with long, crisp petals of translucent old-rose-pink, spreading wide as it opens, disclosing a lovely rose-bud center. This Peony is impossible to describe in words; its superb beauty here; it must be seen in your own garden to understand the enthusiasm with which all lovers of the Peony regard it. $3.50 each, $33 for 10.

Tourangelle. (Dessert, 1910.) 9.4 A delicious variety with pale creamy flowers shaded to apple-blossom-pink and pale champagne, deepening to shell-pink at the center. There is probably no Peony of greater delicacy of color and refinement of shape. It is not the most liberal bloomer in the world but is well worth having for its extreme grace and beauty. $3 each.

Walter Faxon. (Richardson.) 9.3 Glowing pink of extraordinary brilliance, almost salmon-pink at times. Midseason. See picture in color, page 79. $3.50 each, $33 for 10.

Double Pink, Double Red, and Double White. 90 cts. each, $4 for 10.

Single Peonies

Camille. (Dessert, 1908.) 7.3 A splendid dark rose (nearly red), single Peony which blooms very late in the season. $1.50 each, $13.50 for 10.

Carnot. (Dessert, 1913.) 7.7 A red single Peony blooming earlier in the season than Camille. This variety has splendid stiff stems, and also a nice quantity of petals. $2 each, $18 for 10.

Le Jour. (Shaylor, 1915.) 8.6 Very large, single white flowers with a golden center. We think it is the loveliest of all the single Peonies, from the first unfolding of its waxen buds to the wide-flung beauty of its broad, undulating petals held firmly through all weathers, an excellent variety for landscape use because of its strong stems, its floriferousness, and long blooming season. $2.50 each, $22.50 for 10.

Lucienne. (Dessert, 1908.) 7.7 A dainty pink, single Peony whose laterals open almost as soon as the main bloom, but which, on account of being a little later, shows a deeper pink color. This variety is taller than Nellie. $2 each, $18 for 10.

Madeleine Gauthier. (Dessert, 1908.) 8.5 Exquisitely tinted silvery pink; single flowers of great size and charm. $2.50 each, $22.50 for 10.

Marguerite Dessert. (Dessert, 1913.) 8.5 Very large, full bloom on its laterals. $1.50 each, $13.50 for 10.

Mikado. (Japan, 1893.) 8.6 A gorgeous Japanese variety brought to the Chicago World’s Fair in the Japanese exhibit in 1893. It has a flaring crimson cup surrounding a bronzey yellow tuft of staminodes compactly curled in the center. Extremely showy and brilliant in the landscape, and desirable for its vigorous growth, stiff stems, and great floriferousness. 2.50 each, $22.50 for 10.

Minerve. (Dessert, 1908.) 7.3 A pink, single Peony which is somewhat darker than the excellent variety Nellie, and the same height as that variety. $1.50 each, 13.50 for 10.

Minerva. (Dessert, 1905.) 7.3 This is a deep rose, single Peony, so deep in fact, that the color approaches red or carmine. It has strong stems and good bloom on its laterals. $1.50 each, $13.50 for 10.

Nellie. (Kelway.) 8.6 Clear, shell-pink, single flowers with a brilliancy and extraordinary brilliance, almost salmon-pink at times. Very good. $4 each, $35 for 10.

Othello. (Dessert, 1908.) A deep rose, single Peony with a slightly brighter color-tone than Camille. It has good stems and good laterals. $1.50 each, $13.50 for 10.

Princess Mathilde. (Dessert, 1908.) 7.2 2½ ft. Large, single blossom, of white shaded lavender-pink. $2.50 each, $22.50 for 10.
PEONIES, continued

The Moor. (Barr.) 7,8 Single, dark silky garnet flowers with a large showy mass of golden stamens. A fine dark single. $1.90 each, $13.50 for 10.

Vesuvius (Dessert, 1905). 7,6 Very closely resembles Carnot. Intensely dark red, which contrasts well with golden stamens. $2 each, $18 for 10.

PAPAVER - Poppies

*Papaver alpinum. 6 in. A pretty little alpine Poppies, and bedding, fragrant yellow flowers $1.05 for 3, $2.70 for 10.

*P. alpinum album. $1.05 for 3, $2.70 for 10.

*P. nudicaule. 2 to 3 ft. May to July. Glowing scarlet flowers of giant size, with black blotch at base of each petal. A good plant for hardy or shrubbery borders. 90 cts. for 3, $2.40 for 10, $18 per 100.

Hybrid Oriental Poppies

50 cts. each, $4 for 10, $30 per 100

The Hybrid Oriental Poppies are unrivaled in their barbaric splendor of color, ranging from silvery white, soft pink, and salmon to dark blood-crimson and black-maroon. They are very hardy and are one of the most permanent features of the garden. As they thrive in any good garden soil, they can be easily transplanted during their dormant season. In the spring we ship pot-grown plants only.

Beauty of Levermere. 4 ft. Enormous flowers of dark blood-red, sometimes a foot in diameter, with crimped petals and glittering black center. $2 each, $9 for 10.

Cerise Beauty. Brilliant salmon-cerise with a glittering black blotch at the base of each petal. 95¢ each, $4 for 10.

Golden. 3½ ft. One of the most effective. Strong, erect stems, with enormous scarlet flowers in great abundance.

Lovelace. Orange-scarlet. Mrs. Perren. 3 ft. Beautiful shade of salmon-pink. One of the finest.

Olympia. Semi-double flowers, extremely unusual in this family. They are brilliant scarlet overlaid with orange, giving them a blazing, iridescent sheen. Plants bushy and extremely free-flowering.

Orange Queen. Very large flowers of rich orange. Freely-flowering and extremely showy.

Ornamental King. Strong stems of upright habit; large crimson-scarlet flowers.

Oriflame. Immense, handsome flower of brilliant orange-scarlet.

Perry’s White. Enormous flowers of pure satiny white with a striking crimson base. Extremely effective in masses.

Princess Victoria Louise. Soft salmon-pink flowers, shaded to blush-pink.

Queen Alexandra. Beautiful clear rose-pink, with salmon shades.

PENTSTEMON - Spear-lobelia

Attractive, showy plants for the hardy border allowing great range for choice in color and habit. The species are among the most permanent and hardy plants. They like full sunshine, but the ground must not be too dry, or they are likely to disappear within a season or two.

Pentstemon acuminatus. 15 to 18 in. June and August. An attractive and very satisfactory plant with stiff spikes of large lilac flowers changing to purple.

P. arizonicus. 6 to 8 in. A low, somewhat sprawling variety with erect stems bearing slender tubular flowers of purplish blue. $1.20 for 3, $3.50 for 10, $27 per 100.

*P. barbatus, Coral Gem. 2½ ft. Dense, showy spikes of brilliant coral-red flowers. $1.05 for 3, $3 for 10.

*P. barbatus Pink Beauty (formerly Huntington’s Shell-Pink), 30 in. Clear, bright shell-pink flowers on good spikes, not stringy like Torreyi. Perfectly hardy and makes a beautiful cut-flower and garden decoration. Very effective with gypsophila. $1.20 for 3, $3 for 10, $24 per 100.

P. heterophyllus, Hot Penstemon. 2 ft. June and July. Flowers of a lovely azure-blue.

P. laviguatus digitatus. Foxglove Penstemon. 3 ft. June and July. Large spikes of long, pure white flowers, with purple-spotted throats. Excellent for planting in shrubbery border.

P. torreyi. Torrey’s Penstemon. 2½ to 3½ ft. July. One of the best varieties. Tall, loose spikes of scarlet flowers. Will bloom constantly if flowers are cut.

PHALARIS

Phalaris arundinacea variegata. Ribbon Grass; Gardener’s Garters. 2 to 3 ft. An old-fashioned ornamental grass for bedding, specimens, or edging streams and ponds. The leaves are striped lengthwise with yellowish white.

PHLOX

About the most satisfactory of all perennials is the Phlox. It deserves a good place in the hardy garden or border. The best effects are obtained by planting masses of each color, not less than six, and even as many as two dozen or more of one kind together. They begin blooming in midsummer and continue until frost. In making selections keep in mind that while descriptions are often similar, the varieties have distinct characteristics and usually bloom at different periods. Our collection includes the finest sorts to be found in this country.

The Phlox family is very large and varies widely in habit and time of blooming. While the Paniculata varieties are fine, showy border or massing plants, there are dwarf, early-flowering types which are splendid ground-covers, edging plants, and rock plants.

*Phlox amoena. Amaena Phlox. 4 to 5 in. April and May. Slender, erect plants, with clusters of bright pink flowers. A charming variety.

*P. divaricata. Wild Blue Phlox. 1 ft. May and June. The flat heads of large, fragrant, lilac-blue flowers are borne on slender, erect stems. One of the most delightful flowers of spring. Beautiful with pale yellow tulips. $1.20 for 3, $3 for 10, $20 per 100.

*P. divaricata alba. White form of Wild Blue Phlox.

*P. divaricata laphamii. 1 ft. May and June. A new variety of P. divaricata, with darker blue flowers in wide-spreading heads. A splendid variation, blooming over a much longer period. $1.20 for 3, $3 for 10.

P. glaberrima ssp. Miss Lingard. 1½ ft. June and July. Large spikes of light purple flowers, with dark blue blotch at base of each petal. A good rock plant. 75 cts. for 3, $2.20 for 10, $15 per 100.

P. glaberrima ssp. Miss Lingard. 2 to 3 ft. June and July. Fine white variety with very faint lilac eye and large individual florets.

*P. ovata. Mountain Phlox. 1 to 1½ ft. Erect stems with small clusters of light red flowers about an inch across. A good rock plant.

P. paniculata. Garden Phlox. See page 83.

*P. stolonifera (reptans). Creeping Phlox. 6 to 12 in. A low, prostrate plant with tufts of light foliage, throwing up slender spikes with small clusters of purple and violet flowers. A rock plant. 75 cts. for 3, $2.20 for 10, $15 per 100.
A great many varieties of Phloxes look too much alike in the mass, although they may differ widely in detail and habit. But here are five distinct kinds, illustrating almost the complete range of Phlox colors, each so different from the other that distinct masses of harmonizing or contrasting colors could be arranged. Plant them in good-sized clumps or broad sweeps of one or two kinds to get the best effect.

**B. Comte.** Crimson-purple.
**Blue Hill.** Light violet.
**Maid Marion.** Pale lilac.

**Daybreak.** Flesh-pink.
**Firebrand.** Scarlet.
PHLOX, continued

*P. subulata. Moss Pink, 4 in. May and June. Forms a carpet of moss-like foliage, covered with pink flowers. A hardy species, and blooming generally to a dark, velvety rose. $1.20 for 3, $3.60 for 10, $30 per 100.

*P. subulata alba. White Moss Pink. A form of P. subulata in all respects, with charming white flowers. 75c for 3, $2.20 for 10, $18 per 100.

*P. subulata G. F. Wilson. Blue Moss Pink. Lilac-blue flowers with a lighter center. 75c for 3, $2.20 for 10, $18 per 100.

*P. subulata lilacina. Soft light lilac flowers and rapid growth. A charming companion for early, pale yellow flowers. 75c for 3, $2.20 for 10, $18 per 100.

*P. subulata Nelsoni. White flowers occasionally very faintly tinged at the eye. Growth is compact and moss-like. 75c for 3, $2.20 for 10, $18 per 100.

*P. subulata, The Bride. White, with red center. $1.50 for 3, $4 for 10, $36 per 100.

P. subulata, Vivid. The clearest bright pink color in the creeping Phloxes. Makes a very bright and pretty showing free from the magenta tones which many object to. A compact grower; very fine. $1.50 for 3, $4 for 10, $36 per 100.

P. subulata nelsoni. White flowers occasionally very faintly tinged at the eye. Growth is compact and moss-like. 75c for 3, $2.20 for 10, $18 per 100.

P. subulata, Ethel Pritchard. Very dark, velvety red. The most effective dark variety. Very late.

Note.—We have two varieties of Phlox subulata, one light pink, and the other deep pink. Specify which you prefer.

PHLOX PANICULATA, continued

Elizabeth Campbell. Bright salmon-pink, dark red eye. One of the really famous varieties. $1.05 for 3, $3 for 10, $24 per 100.

Enchantress. Very bright salmon-pink. Large trusses. Similar to Elizabeth Campbell, but a little brighter and a stronger grower. $1.05 for 3, $3 for 10, $24 per 100.

Evelyn's Choice. White, very tall, free-flowering white. Europa. Flowers large, white with a decided crimson eye; trusses large.

Firebrand. Bright red with deeper center. $1.05 for 3, $3 for 10, $24 per 100.

Etta's Choice. A very new and choice variety. $1.05 for 3, $3 for 10, $24 per 100.

General van Heutz. Orange-scarlet with white eye. Goliath. An excellent red sort with darker eye. Tall; large trusses.

Hans Volmuller. Large, white flowers marbled with pale violet and suffused with mauve. A very delicate color. $1.50 for 3, $4 for 10.

Independence. See Mrs. Jenkins.

Iris. 4 ft. Light purple-blue.

Jeanne d'Arc. Tall; pure white; late flowering.

Johnson's Favorite. Light salmon-pink with a dark red eye, resembling Elizabeth Campbell, but a stronger grower. $1.50 for 3, $4.50 for 10, $39 per 100.

Jules Sandeau. A large, fine, very free-flowering, pure pink variety that grows about 15 inches high. $1.05 for 3, $3 for 10, $24 per 100.

Juliet. Light pink, dark red eye.

Julius Heurlin. Light salmon-pink.

L'Esperance. Light lavender-pink, large white center.

L'Evenement. Delicate pink, tinted salmon; dwarf.

Le Mahdi. Large trusses of deep velvety purple blooms.

Maid Marian. Soft lavender, very even in color. $1.05 for 3, $3 for 10, $24 per 100.

Mia Ruys. 12 in. A good improvement over Tapis Blanc. Pure white blooms in big trusses. $1.20 for 3, $3.50 for 10, $30 per 100.

Michael Buchner. Dark purple.

Mme. Paul Dutrie. Soft pink, suffused with white.

Mme. Prosper Laugier. Bright red, vermilion center.

Mrs. Jenkins. Independence. Pure white; very large truss.

Mrs. Milly van Hoboken. Bright pink with soft mauve suffusion. A splendid Phlox and unquestionably one of the finest of the new varieties. $1.05 for 3, $2.70 for 10, $20 per 100.

Mrs. P. Pittner. A splendid, newly imported variety of a very clear shade of light mauve-pink. It is of dwarf, studly habit and a splendid addition to the fine newer Phloxes. $1.50 or 3, $4 for 10.

Mrs. Rutgers. Enormous, broad trusses of extra-large flowers tinted with light rosy lilac. $1.20 for 3, $3.50 for 10.

Pantheon. Brilliant rose with lighter center.

Peachblow. Delicate pink, rose center; beautiful trusses. Rather dwarf.

Pecher d'Island. A splendid tall variety with bright purple blooms.

Professor Virchow. Brilliant carmine, overlaid with orange-scarlet.

Rheinlander. This new variety has immense blossoms of salmon-pink, with claret eye. $1.05 for 3, $3 for 10, $24 per 100.

Richard Wallace. Pure white, violet-rose center.

Rijnstrom. Bright carmine-rose.

R. P. Struthers. Bright, pinkish salmon; crimson eye.

Special French. Mammoth trusses of fine, even form. Florets very large, soft rose-pink with bright eye. Somewhat like Mrs. Milly van Hoboken, but not quite so tall.

Tapis Blanc. A beautiful pure white variety with large flowers. A very dwarf grower. $1.05 for 3, $2.70 for 10, $20 per 100.

Except where otherwise indicated, all Perennials are 90 cts. for 3, $2.40 for 10, $18 per 100.
PHlox paniculata, continued

Thor. Lively shade of deep salmon-pink, suffused and overlaid with a scarlet glow; aniline-red eye.
Victor. Very large salmon-pink bloom. $1.05 for 3, $2.70 for 10, $20 per 100.

W. C. Egan. Very large flowers of delicate lilac, with large, bright silver-eye. The color effect as a whole is a pleasing shade of soft pink.

Widar. Light reddish violet with large white center.

Physalis • Ground Cherry

Physalis franchetii. Chinese Lantern Plant. 1 to 2 ft. Large heart-shaped leaves, with small whitish flowers, followed in the autumn with large, bright coral-red fruit, enclosed in a brilliant orange-red balloon-shaped bag of papery texture. Fine for decoration in winter.

Physostegia • False Dragonhead

These native plants revel in damp lowlands along streams or in cool fence-corners. They are splendid for naturalizing, and make good border plants, quickly forming broad, permanent clumps. In borders where the wild things are growing that are likely to be crowded out by them, it is wise to dig them up every spring and reset them. There will always be plenty of roots left over to use in some other part of the garden.

Physostegia virginiana alba. 2 to 3 ft. White False Dragonhead. A similar variety with dark pink or rosy red flowers.

P. virginiana rubra. 3 ft. Red False Dragonhead. A similar variety with dark pink or rosy red flowers.

P. virginiana speciosa. Tall Cluster False Dragonhead. 3 ft. August. A tall and very useful form, with showy dark pink flowers.

Platycodon • Balloon Flower

As soon as the bells of Campanula medium have faded, the Platycodons open their handsome, saucer-like flowers and take up the burden of carrying on the beauty of the Bellflower race. Their stems are wiry and very slender and the plants are growing well. Use them in masses or borders in any part of the garden.

P. grandiflorum. Large, bright salmon-pink bloom. $1-05 for 3, $2.70 for 10, $20 per 100.

P. grandiflorum album. White Balloon Flower.

P. virginiana grandiflora, Vivid. A tall and very useful form, with showy dark pink flowers.

P. virginiana rubra. Red False Dragonhead. A similar variety with dark pink or rosy red flowers.

P. virginiana speciosa. Tall Cluster False Dragonhead. 3 ft. August. A tall and very useful form, with showy dark pink flowers.

Plumbago. See Ceratostigma.

Podophyllum • Fleece Flower

Podophyllum peltatum. Common May-apple. 1 ft. An erect herb with creeping rootstalks and fibrous roots. The large leaves are usually borne in pairs and look like an umbrella, bearing an exquisite white flower at the point where their stems divide.

Polunyonium continued

*P. reptans. Jacob’s Ladder. 8 to 10 in. April to June. Dwarf, bushy plant of graceful growth, with showy blue, bell-like flowers. Fine rock-garden and border plant. Not a creeping plant as its specific name would indicate.

*P. richardsonii. Dwarf Polemonium. 15 to 18 in. June to August. Very bushy plant with persistent foliage, handsome all season long, and fine curved clusters of ruffled, blue, bell-like flowers.

Polygonatum • Fleece Flower

Polygonatum commutatum (giganteum). Great Solomon’s Seal. 2 to 3 ft. Long, arching stems, with pairs of lily-like leaves from the joints of which the tiny white flowers hang down like little bells. Fine for growing in shade.

Polygonum • Cinquefoil

Few flowers are more persistent and easily grown than these graceful little relatives of the roses. The leaves and flowers resemble those of the strawberry, and they are particularly pretty and attractive in the rockery during July, when their bloom is most profuse.

Potentilla • Cinquefoil

Podophyllum peltatum. Common May-apple. 1 ft. An erect herb with creeping rootstalks and fibrous roots. The large leaves are usually borne in pairs and look like an umbrella, bearing an exquisite white flower at the point where their stems divide.

*P. reptans. Jacob’s Ladder. 8 to 10 in. April to June. Dwarf, bushy plant of graceful growth, with showy blue, bell-like flowers. Fine rock-garden and border plant. Not a creeping plant as its specific name would indicate.

*P. richardsonii. Dwarf Polemonium. 15 to 18 in. June to August. Very bushy plant with persistent foliage, handsome all season long, and fine curved clusters of ruffled, blue, bell-like flowers.

Polygonatum • Fleece Flower

Polygonatum commutatum (giganteum). Great Solomon’s Seal. 2 to 3 ft. Long, arching stems, with pairs of lily-like leaves from the joints of which the tiny white flowers hang down like little bells. Fine for growing in shade.

Polygonum • Fleece Flower

Polygonum affine. Himalayan Fleece Flower. 12 to 18 in. June and September. An excellent little plant for the cool places, with bright rosy red flowers in dense spikes at the tips of the stems.

P. cuspidatum (sieboldii). Japanese Fleece Flower. 4 to 6 ft. August and September. A very effective plant for formal effects, with tall, gracefully arching stems covered with a cloud of small whitish flowers in great drooping sprays. $1.05 for 3, $2.70 for 10, $20 per 100.

P. filifolium variegatum. Marbled Jumpspeed. 18 in. A long-lasting plant with leaves marbled yellow and pale green; slender spikes of whitish flowers.

Potentilla • Cinquefoil

Few flowers are more persistent and easily grown than these graceful little relatives of the roses. The leaves and flowers resemble those of the strawberry, and they are particularly pretty and attractive in the rockery during July, when their bloom is most profuse.

Potentilla atrosanguinea. Himalayan Cinquefoil. 18 in. June to August. A bushy, leafy plant with rich crimson, single flowers.

*P. fragiliformis. 6 to 9 in. June. A choice little plant with leaves like ferns and large yellow or rosy red flowers. $1.20 for 3, $3.50 for 10, $25 per 100.

*P. grandiflora. Alpine Cinquefoil. 10 to 20 in. June and July. These good border plants have an abundance of bright yellow flowers and are also very desirable for the rock garden.

*P. hippiana. 6 in. Silvery foliage and rather small yellow flowers. $1.20 for 3, $3.50 for 10, $25 per 100.

*P. hirsuta. A scarce, but easily naturalizing on dry banks or stony places. $1.20 for 3, $3.50 for 10, $25 per 100.

*P. hybridra, Miss Willmott. 9 in. A prostrate plant with masses of foliage and an abundance of bright cerise flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

*P. purpurea flava. A handsome little plant bearing pretty, double, rich purple flowers in great profusion.

*P. pyrenaica. Pyrenean Cinquefoil. 10 to 15 in. July and August. This very useful little rock plant is closely related to and resembles the Alpine Cinquefoil, with fine yellow flowers an inch or more broad.

*P. tridentata. Wulfenia Cinquefoil. 1 ft. June to August. A splendid plant for dry banks and rockeries, with small clusters of white flowers.

Primula • Primrose

Primroses, Cowslips, and Oxlips are among the plants of song and story. They are none too common...
Primula japonica. In moist shady places the Japanese Primrose thrives in a beautiful fashion

PRIMULA, continued

mon in American gardens, chiefly because they do not like hot, dry situations and need the moist, deep ground along a stream-bank or the deep shade of deciduous trees or shrubs. Given the locations they like, and a few leaves scattered over them in autumn, even the fine hybrid strains thrive in a wonderful fashion. Mixed with forget-me-nots, they make a very attractive carpet under the edge of shrubs or along a shady border, but they should always be massed in quantity and fairly close together. Besides the common and fancy varieties of Primroses, we have a few of the more unusual species and varieties of this almost endless family. To grow all the Primroses would be a fascinating and absorbing pastime, but there is scarcely land enough in New England to do it.

*Primula acaulis (vulgaris). English Primrose.
6 to 8 in. May and June. The true English Primrose is a delightful, much-prized plant, for small tufted rosettes of leaves among which the charming light yellow flowers nestle on the tip of slender stems. A beautiful little rock-garden plant or edging for an informal path, and makes a delightful combination with myosotis. $1.05 for 3, $2.70 for 10, $20 per 100.

*P. auricula alpina. Alpine Auricula.
6 to 8 in. Attractive rosettes of thick leaves often covered with a mealy down. The flowers are large and round, borne in a cluster on the top of short, erect stems, and come in many shades. They are very fragrant. A very charming plant for the rock garden. May and June.

*P. Beesiana.
2 ft. Spikes of rich, velvety purple flowers with showy yellow eyes. Unusual and very choice. $1.05 for 3, $2.70 for 10, $20 per 100.

P. bulleyana.
1½ to 2½ ft. Late spring and summer. Long, thin leaves, widest at the ends, with a tall stem bearing several clusters of orange-yellow flowers above each other. A good plant for a half-shady border or among large rocks in the rock garden. $1.05 for 3, $2.70 for 10, $20 per 100.

*P. denticulata cachemiriana. Kashmir Primrose. Clusters of leaves which are heavily dusted with meal on the under side. The flowers are large, purple-blue with a golden eye, clustered on an erect stem. Rare and handsome.

*P. elatior alba. Oxlip. 8 to 12 in. May and June. Taller and stronger than the Primroses and Cowslips, with big clusters of erect white flowers. A fine plant of many old associations. $1.05 for 3, $2.70 for 10, $20 per 100.

*P. japonica. Japanese Primrose. 1 to 2 ft. Early to midsummer. Strong, handsome plants for rich soil in shady places, producing fine clusters of flowers of light pink and cream shades on the top of slender but strong, erect stems. A highly desirable plant.

*P. Moeheim’s Hybrids. A handsome strain of the P. japonica type with flowers of all colors and shades—yellow, purple, crimson, orange, cream, gold. They like a moist, half-shaded location. $1.05 for 3, $2.70 for 10, $20 per 100.

*P. polyantha, Munstead Strain. 6 to 12 in. May and June. A splendid strain of the popular Polyanthus, comprising flowers of many charming shades of yellow from cream to dark orange. This strain was perfected by Miss Jekyll in England.

P. pulverulenta. Silverdust Primrose. 1½ to 3 ft. Early to midsummer. A fine plant for massing in deep, rich soil, and is particularly fine along banks of streams. Much like P. japonica but taller, with a silvery stem and darker, almost violet, flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

*P. veris hybrida (officinalis). Drooping Cowslip. 6 in. April and May. The clustered, drooping flowers range in color from crimson to deep yellow and pure white.

P. vulgaris. See P. acaulis.

PYRETHRUM
See Chrysanthemum coccineum

PRUNELLA • Self-Heal

*Prunella grandiflora. Great Self-Heal. 9 to 10 in. June and July. A pretty little border or rock plant with large heads of dark violet-blue flowers of curious shape.

*P. webbiana. Webb’s Self-Heal. 1 ft. Round heads of showy purple flowers throughout the summer.
PULMONARIA • Lungwort
*S. officinalis. Great Azure Sage. 1 to 2 ft. June and July. Flowers come in whorls, varying in size and color from blue to white. Fine for rockery plant. $1.05 for 3, $3 for 10, $20 per 100.
*S. verstans. Meadow Sage. 18 to 24 in. June to September. Useful plant for borders, with violet-blue flowers in showy clusters. $1.20 for 3, $3.50 for 10, $20 per 100.
*S. scabra. 2 to 3 ft. July to September. A fine graceful plant with slender spikes of clear pink or lavender-pink. Pretty with Madonna lilies and in the rock garden. $1.50 for 3, $4 for 10.

RANUNCULUS • Buttercup
*Ranunculus acris flore-pleno. Tall Double Buttercup. 2 ft. May to September. Flowers deep glossy yellow golden yellow and very double. Leaves coarsely toothed or cut. This is one of the many plants referred to as Mother’s Buttons.
*R. repens. Creeping Buttercup. 8 in. May to July. A coarse-leaved plant having flowers of glossy yellow and protrate branches often 2 feet long.

RUDBECKIA • Coneflower
These very showy plants are found in most gardens in one or more of their many forms. They are easy to grow, very persistent, and the single-flowered varieties fit splendidly into any naturalistic planting. Rudbeckia triloba is especially fine in late autumn at the edge of shrubbery and mixed with the late blue and white asters, while R. speciosa and the lighter yellow varieties are excellent with the stronger-growing delphiniums. They are really good only in masses, except such as Golden Glow, which is best grouped in clumps of four or five together for some emphatic point in the garden.
*R. fuligida. Orange Coneflower. 2 ft. August and September. This plant bears numerous heads of bright orange-yellow flowers, with deep purple disk. 75 cts. for 3, $2.20 for 10, $15 per 100.
*R. laciniata, Golden Glow. 5 to 6 ft. July to September. Very popular hardy perennial, with masses of double bright golden yellow flowers. Fine for screening and planting near walls. 75 cts. for 3, $2.20 for 10, $15 per 100.
*R. purpurea. See Echinacea purpurea.
*R. speciosa (newmanni). Showy Coneflower. 2 to 3 ft. July to October. Large yellow or orange-yellow flowers 3 to 4 inches across. Fine for cutting.

RUTA
*Ruta graveolens. Common Rue. 1½ to 2 ft. July. Panicles of small, fragrant flowers and divided leaves. An old-time favorite for medicinal use and for association’s sake. 90 cts. for 3, $2.50 for 10, $20 per 100.

SALVIA
*S. azurea grandiflora. Great Azure Sage. 3 to 4 ft. August and September. Plants of shrubby habit, with beautiful light blue flowers in long, slender spikes.
*S. azurea pitcheri. 3 to 4 ft. September and October. More branching habit than above, with large flowers of rich gentian-blue. This is a very handsome and showy variety which we highly recommend. $1.05 for 3, $2.70 for 10, $20 per 100.
*S. argentea. Silver Sage. 2 to 3 ft. June. Large silvery foliage and white flowers.
*S. officinalis. Garden Sage. 1 to 2 ft. June and July. Aromatic whitish, somewhat downy leaves, used for many medicinal purposes. It has a long list of uses, with crystals of lime. $1.05 for 3, $3 for 10, $20 per 100.
*S. pratensis. Meadow Sage. 18 to 24 in. June to September. Useful plant for borders, with violet-blue flowers in showy clusters. $1.20 for 3, $3.50 for 10, $20 per 100.
*S. scabra. 2 to 3 ft. July to September. A fine graceful plant with slender spikes of clear pink or lavender-pink. Pretty with Madonna lilies and in the rock garden. $1.50 for 3, $4 for 10.

SANGUINARIA
*Sanguinaria canadensis. Bloodroot. 6 to 10 in. April and May. Delicate, star-shaped white flowers on soft, red, juicy stems, followed by tall, broad, gray leaves. One of the most beautiful native wild flowers. 75 cts. for 3, $2.20 for 10, $15 per 100.

SANTOLINA
*Santolina chamaecyparissus. Lavender Cotton. 12 in. A drought-tolerant plant, useful for rockwork, with small pink flowers in loose, broad cymes. Very showy and effective clambering over stones. $1.05 for 3, $2.70 for 10, $20 per 100.
*S. officinalis flore-pleno. Double Bouncing Bet. July and August. Pretty variety, with broad heads of double pink flowers. Fine for wild-garden. Spreads very rapidly and is most persistent, thriving in inhospitable soils.

SAPONARIA
*Saponaria ocymoides. Rock Soapwort. 6 in. May to August. A half-trailing plant, useful for rockwork, with bright pink flowers in loose, broad cymes. Very showy and effective clambering over stones. $1.05 for 3, $2.70 for 10, $20 per 100.

SAXIFRAGA
A very interesting group of dwarf plants, chiefly valuable for rockeries or low borders. There are innumerable species and varieties, and we have assembled here what we consider the best of the various types. They are all charming and easily grown, provided they are not exposed to scorching summer heat. For that reason they are best planted in the shade of late-starting deciduous shrubs. Their greatest beauty is in the even, showy sheets of bloom they make when well grown in masses and for that reason they should be planted liberally and fairly close together.
*Saxifraga aizoon. Neat little tufted plants with rosettes of silvery-edged leaves. The flowers are white, sometimes faintly tinged pink, in graceful sprays. $1.20 for 3, $3.50 for 10.
*S. bathiocerasus. A mossy variety of great charm; flowers white and very freely produced. $1.05 for 3, $3 for 10.
*S. caespitosa. The true variety is very rare, the name being applied usually to hybrids. The plant is tufted, mossy and bears three or four white flowers on each of its short purplish stems. $1.05 for 3, $2.70 for 10, $20 per 100.
*S. coelestis. 4 in. Massed silvery rosettes with thick recurved leaves and large showy white flowers on red stems. A very beautiful rockery plant. It likes lime. $1.05 for 3, $3 for 10.
*S. cordifolia. Heartleaf Saxifrage. 15 in. April and May. A strong-growing species with large, waxy foliage and clusters of bright rose-colored flowers on the tips of tall stems very early in the spring. Fine among large rocks or ledges. $1.05 for 3, $3 for 10, $20 per 100.
*S. crassifolia. 8 in. Massed silvery rosettes with small, soft, downy leaves, large showy white flowers on red stems. A very beautiful rockery plant. $1.05 for 3, $2.70 for 10, $20 per 100.
*S. decipiens. Crimson Moss. 4 in. May, June. A mossy plant somewhat like S. caespitosa with tiny white flowers. The foliage turns bright crimson in winter, the stems are coated with crystals of lime. $1.05 for 3, $3 for 10.
*S. lingulata. 1 to 2 ft. The long, narrow, tufted leaves are lustrous and beaded with crystals of lime. The flower-stalk is composed of several leaves and bears a branched head of tiny white flowers. One of the finest and showiest of the family. It likes limestone soil, and good, sharp drainage. $1.05 for 3, $3 for 10.

Except where otherwise indicated, all Perennials are 90 cts. for 3, $2.40 for 10, $18 per 100.
SCABIOSA

These are handsome, bushy plants suited to any good border, thriving in sunny locations and producing great quantities of beautiful flowers on fine cutting stems. They should be grown in quantity for their excellent decorative effect.

*S. caucasia.* Caucasian Scabiosa. 18 to 24 in. June to September. Vigorous, handsome border plant with large, soft lilac-blue flowers on long stems, useful for cutting. $1.05 for 3, $3.70 for 10, $21 per 100.

*S. alba.* White Caucasian Scabiosa. A charming variety with clusters of white flowers. $1.20 for 3, $3.50 for 10, $30 per 100.

*S. japonica.* Japanese Scabiosa. 2 ft. July to September. This Japanese variety has beautiful blue flowers in great abundance. $1.05 for 3, $3.70 for 10.

*S. spectabile.* Showy Scabiosa. 2 ft. Trailing habit with erect flower-stems with clusters of yellow flowers. 90 cts. for 3, $2.50 for 10, $20 per 100.

*S. redivisum.* 6 in. or more. Pretty cushions of white flowers heavily speckled with large pink-purple dots. $1.05 for 3, $2.70 for 10, $20 per 100.

*S. kamtschaticum.* Orange Stonecrop. 6 to 9 in. July and August. Pulpy, bright evergreen foliage, with golden flowers in flat clusters.

*S. lydium.* Lydian Stonecrop. 2 in. Forms a dense carpet of bright green, turning red in dry, sunny locations. Pure white flowers on short stems. 75 cts. for 3, $2.20 for 10, $15 per 100.

*S. maximowiczii.* Amur Stonecrop. 12 in. A good border and rock plant, covering the earth with a dense mat of its tiny yellow flowers.

*S. maximum.* Great Stonecrop. 1 to 2 ft. September and October. A vigorous, bushy border plant with pinkish or whitish flowers.

*S. maximum gametophytes.* (Atropurpureum), 1 to 2 ft. September and October. Metallic brown foliage and red flowers. Very effective for borders. $1.05 for 3, $3 for 10.

*S. sordidum.* 2 to 3 ft. S. reflexum. S. rupestre. S. hesperium. S. cobelforum. S. reflexum.* Jenny Stonecrop. 8 in. Trailing habit with small, soft white flowers. $1.05 for 3, $3.70 for 10, $21 per 100.

*S. alpestris.* Lydian Stonecrop. 2 ft. Trailing habit with small, soft white flowers. $1.05 for 3, $3.70 for 10, $21 per 100.

*S. pruinatum.* White Caucasian Stonecrop. 8 in. Trailing habit with erect flower-stems with clusters of yellow flowers. 90 cts. for 3, $2.50 for 10, $20 per 100.

*S. rupestris.* 6 in. or more. Close to S. redivisum in habit and appearance. Dense heads of yellow flowers. $1.05 for 3, $3 for 10.

*S. reflexum.* Lemon Stonecrop. 8 in. Trailing habit with erect flower-stems with clusters of yellow flowers. 90 cts. for 3, $2.50 for 10, $20 per 100.

*S. sexangulare.* 2 to 3 ft. Stringy Stonecrop. A slender, creeping plant with whitish thread-like leaves and flat heads of small, fleshy, yellow flowers. $1.05 for 3, $3 for 10.

*S. angustifolium.* Two-row Sedum. 6 in. Compact, green foliage and white flowers in clusters. $1.05 for 3, $3 for 10.

*S. pruinatum forsterianum.* 6 in. August to September. This variety has broad, bluish gray foliage, marked with pink, and rose-pink flowers. Quite showy. $1.05 for 3, $2.70 for 10, $20 per 100.

*S. spectabile.* Showy Stonecrop. 18 in. An erect-growing plant with broad green foliage and large heads of handsome rose-colored flowers. One of the best plants for rock garden or border of shrubbery bed. 75 cts. for 3, $2.20 for 10, $15 per 100.

*S. spectabile.* Brilliant. 1 ft. September and October. A very richly colored form of S. spectabile, being a bright amaranth-red. 90 cts. for 3, $2.50 for 10, $20 per 100.

*S. stoloniferum.* Running Stonecrop. 4 in. July and August. A trailing plant, and one of the most desirable Sedums. It has flat, fleshy leaves and pink flowers.

*S. ternatum.* Mountain Stonecrop. 3 to 6 in. May and June. A small-leaved, very spreading plant with triangular clusters or sprays of starry white flowers. A very charming sort. 90 cts. for 3, $2.40 for 10.

SEMPERVIVUM • Houseleek

A most interesting group of plants suitable for dry walls, rockeries, borders. All of them form tight, fleshy rosettes of foliage with smaller offsets, from which they derive their common name of "Hen and Chickens." Few of them bloom much in summer, and they are attractive chiefly for their very curious habit and amusing form.

*Sempervivum arenarium.* The plant makes small rosettes of broad green leaves varying in size, and spreads rapidly. It is a fine variety where tiny plants are needed in large numbers. 75 cts. for 3, $2.20 for 10, $15 per 100.

*S. arachnoides.* Spiderweb Houseleek. 6 in. A lacy network of fine threads spreads from tip to tip of leaves, giving a cobweb effect. The flowers are bright red. Curious and very interesting plants. 75 cts. for 3, $2.20 for 10, $15 per 100.
**SEMPERVIVUM, continued**

*S. assimile.* 6 in. Compact rosettes of pale gray-green leaves and large, pale pink flowers with narrow petals. 75 cts. for $3, $2.20 for 10, $15 per 100.

*S. falcarii.* 4 to 6 in. The small leaves are arranged in rosettes and the flowers are red. 75 cts. for $3, $2.20 for 10, $15 per 100.

*S. fimbriatum.* Fringed Houseleek. 6 to 10 in. Rosettes reddish at base, very downy and fringed with hairs at the tips. Flowers red, in loose spikes. Very pretty. 90 cts. for $3, $2.20 for 10, $15 per 100.

*S. globiferum.* Globe Houseleek. 6 to 9 in. Flatish rosettes of gray leaves with small yellow flowers. 75 cts. for $3, $2.20 for 10, $15 per 100.

*S. hispidulum.* Dark foliage in tiny rosettes and deep purplish pink flowers. 75 cts. for $3, $2.20 for 10, $15 per 100.

*S. potii.* 6 in. Small rosettes of dark leaves and yellow blossoms. 75c. for $3, $2.20 for 10, $15 per 100.

*S. soboliferum.* Hen and Chickens. 6 to 9 in. Compact little tufts with many loosely attached offsets which roll away and make new colonies. Pretty silvery foliage, lightly tinged bronze. Flowers yellow, in dense, fleshy spikes. 75 cts. for $3, $2.20 for 10, $15 per 100.

*S. tectorum.* Roof Houseleek. 8 to 12 in. Broad rosettes with reddish tip and light red flowers. 75 cts. for $3, $2.20 for 10, $15 per 100.

*S. tectorum violaceum.* Violet Houseleek. 1 ft. Olive-green rosettes tinted with violet-brown; reddish flowers. Largest of the Houseleeks. 75 cts. each, $2.20 for 10, $15 per 100.

**SHORTIA**

Shortia galacifolia. Oconee Bells. 8 in. June. A rare little evergreen plant with round, glossy green, leathery leaves from which rises a slender stem bearing fringed, nodding white flowers about half an inch across. A very dainty thing which wants acid soil and shade. $1.05 for 3, $3 for 10, $25 per 100.

**SIDALCEA • Prairie Mallow**

S. Rosy Gem. 4 ft. One of the finest of the new hybrid sorts. Its graceful spikes of rose-pink flowers resemble the larkspur. 90 cts. for 3, $2.20 for 10, $15 per 100.

**SILENE • Catchfly**

A very pretty family of plants related to the pinks. They make showy little edgings and have very attractive flowers and foliage. Most of them are deep-rooting and will endure rock-garden conditions. The native S. pennsylvanica is perfectly at home on dry, sterile banks.

*Silene alpestris.* A showy variety with bright green foliage and pure white flowers. $1.05 for 3, $3 for 10, $24 per 100.

*S. schafta.* Schafta Catchfly. 4 to 6 in. June to September. Cushion-like plant with clusters of rose-pink flowers on stems springing from the rosettes of leaves. Beautiful for rock garden or edging.

*S. virginica.* Fire Pink. 1 to 2 ft. June and July. This erect plant with loose cluster of blazing scarlet flowers with fringed petals. A superb rock plant in moderately dry and not too shady places. 90 cts. for $3, $2.40 for 10.

**SILPHIUM • Rosin Weed**

Silphium perfoliatum. Cup Rosin Weed. 6 to 8 ft. July to mid-September. Showy heads of yellow flowers.

**SISYRINCHIUM**

Sisyrinchium angustifolium (bermudianum). Common Blue-eyed Grass. 4 ft. May to August. A very pretty grass-like plant with delicately beautiful little blue flowers. 75 cts. for $3, $2.20 for 10, $15 per 100.

**SMILACINA**

*Smilacina bifolia* (Maianthemum bifolium), 6 to 8 in. A small plant like a lily-of-the-valley, with two large leaves and a spiky spray of small white flowers.

**SOLIDAGO • Goldenrod**

The Goldenrods are too well known to need extensive description. They are showy at the back of borders, in meadow plantings, and along the edges of groves or thickets. For bold landscape effects they are unequalled, giving a mass of brilliant color from midsummer until autumn, and the dead heads are still beautiful and graceful as they sway above the winter snow.

*S. canadensis.* Canada Goldenrod. 3 to 4 ft. July to early October. A tall species that is fine for sandy, open places. The numerous flowers are golden yellow, in large, rather flat heads. 75 cts. for $3, $2.20 for 10, $15 per 100.

*S. rigidus.* Stiff Goldenrod. 2 to 3 ft. August and September. A bold plant with large, heavy foliage and immense heads of rich yellow flowers. 75 cts. for $3, $2.20 for 10, $15 per 100.

*S. rugosa.* Wrinkled Goldenrod. 2 to 3 ft. August and September. Massive heads of yellow flowers and large, heavy foliage. 75 cts. for $3, $2.20 for 10, $15 per 100.

*S. sempervirens.* Seaside Goldenrod. 2 to 3 ft. August and September. Very large leaves and large yellow flowers. One of the best Goldenrods. 75 cts. for $3, $2.20 for 10, $15 per 100.

**SPIRAEA**

For herbaceous plants commonly listed under this name see Aruncus, Astilbe and Filipendula.

**STACHYS • Betony**

*Stachys grandiflora.* Big Betony. 12 in. June and July. A fine border plant, with heavily veined leaves and pretty spikes of rosy pink flowers.

*S. lanata.* Woolly Betony. 1 ft. July. A very useful plant for edging because of its dense, attractive, silvery white foliage which is particularly effective in showing off the small, delicately tinted, purple flowers.

**STATICE • Armeria**

There is much confusion in the names of these plants. Those commonly called Statice will be found under Limonium, and here are listed those plants usually found under Armeria. This nomenclature is in accord with best authorities.

They are fine rock garden or edging plants, forming dense carpets or rosettes of foliage above which their globular flower-heads sway on slender stems.

*S. armeria alba* (Armeria maritima alba). 3 to 6 in. May and June. Tufts of deep green foliage; white flowers.

Except where otherwise indicated, all Perennials are 90 cts. for $3, $2.40 for 10, $18 per 100.
STATICE, continued

*S. armeria laueana. 3 to 6 in. April to June. Bright rose-colored flowers. Excellent for rock garden or edging. 75 cts. for 3, $2.20 for 10, $15 per 100.

*S. armeria laueana robusta. 8 to 10 in. June to October. Large crimson flowers. Very useful for edging and cutting.

S. latifolia. See Limonium latifolium.

S. plantaginea leucantha (Armeria dianthoides). White Plantain. 12 in. or more. Tufts of narrow foliage and large, dense heads of pure white flowers.

*S. pseudo-armeria rosea (Armeria formosa rosea). 12 to 15 in. Rather broad leaves in large rosettes and slender stems bearing brilliant pink flower-heads. 75 cts. for 3, $2.26 for 10, $15 per 100.

*S. pseudo-armeria rubra (Armeria cephalotes rubra). 12 to 18 in. Densely tufted plants, with large, rich crimson flower-heads on tall, slender stems. An exceedingly lovely and graceful plant superior to the other Armerias in all respects. Stock is always in heavy demand and consequently scarce.

STENANTHIUM

*Stenanthium robustum. *Feather Fleece. 3 to 4 ft. Long, slender leaves and tall stems with showy panicles of white, feathery flowers often 2 feet long. Valuable for naturalizing in moist, shady corners. 90 cts. for 3, $2.40 for 10, $20 per 100.

STOKESIA

Stokesia leavis (cyanea). Stokesia. 1 to 2 ft. July to October. A charming plant, with very large, lavender-blue flowers resembling the centaureas. Of great value for border and cutting.

S. leavis alba. White Stokesia. A variety of the preceding with pure white flowers.

TEUCRIUM

*Teucrium chamsedrys. *Germander. T. chamsedri's. 3 to 4 ft. Beautiful plant, with heads of feathery cream-colored flowers. Excellent for border and cutting. 90 cts. for 3, $2.50 for 10, $20 per 100.

THALICTRUM • Meadowrue

Unusually graceful plants, beautiful both in flower and foliage, which remain attractive throughout the whole season. The showy part of the flowers is usually the long, thread-like stamens which are very delicately colored, giving a most airy, feathery effect. Tufts of narrow foliage and large, dense heads of pure white flowers.

*S. pseudo-armeria rosea (Armeria formosa rosea). 12 to 15 in. Rather broad leaves in large rosettes and slender stems bearing brilliant pink flower-heads. 75 cts. for 3, $2.26 for 10, $15 per 100.

STOKESIA

Stokesia leavis (cyanea). Stokesia. 1 to 2 ft. July to October. A charming plant, with very large, lavender-blue flowers resembling the centaureas. Of great value for border and cutting.

S. leavis alba. White Stokesia. A variety of the preceding with pure white flowers.

TEUCRIUM • Thyme

*Teucrium chamsedrys. *Chamadry's Germander. 1 ft. July to September. Terminal spikes of bright rose flowers, the lower lips spotted with red and white; evergreen foliage. An especially good plant for late summer bloom and in many places it is being used in place of boxwood for edging. 90 cts. for 3, $2.40 for 10, $20 per 100.

THALICTRUM, continued

*T. minus adiantifolium. Maidenhair Meadowrue. 1 to 2 ft. June to mid-July. Grown for the foliage, which is grayish and resembles that of the maiden-hair fern. Charming in the border as edging or in rock garden.

THERMOPSIS

Thermopsis caroliniana. Carolina Thermopsis. 3 to 4 ft. June and July. A tall plant with bright yellow, pea-shaped blossoms along the upper part of the stalk, and clover-like foliage. Fine for wild-garden or half-shady places in the shrubbery. $1.20 for 3, $3 for 10, $24 per 100.

T. mollis. Soft Thermopsis. 2 to 3 ft. Mid-May to August. Erect, branching plant with yellow flowers in showy spikes. A good border subject. $1.20 for 3, $3 for 10, $24 per 100.

THYMUS • Thyme

Tiny, old-fashioned sweet herbs valuable for edging, stone work, and low carpet bedding. *Thymus serpyllum* is usually evergreen. Splendid for steps and walks for the fragrance exhaled when the plants are brushed or bruised.

Thymus serpyllum. Mother-of-Thyme. 6 in. Creeping, evergreen plant much prized for edging, rockwork, and ground-cover. It has tiny lilac flowers and odorous leaves used for seasoning. A very leafy and attractive plant.

*T. serpyllum album. White Mother-of-Thyme. 2 to 4 in. June to August. A pretty subject for rockery with dark green foliage and little white flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

*T. serpyllum citriodorus. Lemon-scented Thyme. 4 in. Very similar to the common Thyme, with tiny pink flowers and sweet foliage. Excellent for rock garden.
TRILLIUM

*T. grandiflorum. Snow Trillium. 9 in. May. The large, white, three-petaled, lily-like flowers nod at the center of a cluster of three big leaves and change to rosy pink as they fade. Fine for planting in shade. 75 cts. for 3, $2.20 for 10, $15 per 100.

*T. erectum. Purple Trillium. 1 ft. or more. The flowers are smaller than the preceding and brownish purple, sometimes tinted green. 75 cts. for 3, $2.20 for 10, $15 per 100.

TRITOMA. See Kniphofia

TROLLIUS

Very showy flowers of globular shape, resembling giant buttercups. They like damp places, not necessarily shaded as some of them develop their best colors only in sunlight. They are splendid for massing along water-courses for display, and are equally good in the garden for cut-flowers.

*T. asiaticus. Siberian Globeflower. 1 to 1½ ft. May and June. Large orange flowers on leafy stems which are suitable for cutting. 50c. each, $4 for 10.

*T. asiaticus giganteus. Similar to T. asiaticus, but much taller and stronger. 50 cts. each, $4 for 10, $36 per 100.

*T. europaeus. Common Globeflower. 1 to 1½ ft. May to August. A valuable border perennial, with large, globular, lemon-yellow buttercup-like flowers on long stems. $1.20 for 3, $3.50 for 10, $25 per 100.

*T. europaeus, Eleanor. 18 inches. Flowers clear yellow and double the size of T. europaeus. A fine variety. 50 cts. each, $4 for 10, $30 per 100.

*T. europaeus, Orange Globe. 2 ft. June to August. A strong, sturdy grower, with large, globular flowers of a rich, deep glowing orange. Free blooming. 50 cts. each, $4 for 10, $36 per 100.

*T. europaeus japonicus, Excelsior. 2 ft. Rich orange flowers. 50 cts. each, $4 for 10.

*T. ledebouri. Ledebour Globeflower. A giant in the family, 3 feet or more tall. Flowers orange-yellow, spread open more than other sorts. 40 cts. each, $3.50 for 10, $30 per 100.

THYMUS, continued

*T. serpyllum coccineus. Crimson Thyme. 2 to 4 in. Similar in form to preceding with bright crimson flowers. $1.05 for 3, $2.70 for 10, $20 per 100.

*T. serpyllum lanuginosus. Woolly Thyme. 3 to 4 in. June to August. Downy gray foliage. Effective for compact carpeting and edging.

*T. serpyllum roseus. 4 in. A rare form of the Common Thyme making a lovely carpet of pure pink in early summer. $1.05 for 3, $2.70 for 10, $20 per 100.

*T. serpyllum vulgaris. Common Thyme. 6 in. June and July. It is grown as a sweet herb. The small, lilac or purplish flowers are borne in terminal, interrupted spikes. Foliage very fragrant. Fine for rock garden.

TIARELLA

*Tiarella cordifolia. Allegheny Foam Flower. 6 to 12 in. May. An elegant plant with fine foliage and small, creamy white, star-shaped flowers in clusters on slender stems. A fine plant for naturalizing.

TRADESCANTIA

Tradescantia virginiana. Virginia Spiderwort. 2 ft. An old garden plant, with grass-like foliage and violet-blue flowers all summer.

T. virginiana alba. White Spiderwort. White. 75 cts. for 3, $2.20 for 10, $15 per 100.

T. virginiana rosea. Pink Spiderwort. 12 in. Slender, smooth-stemmed with rose-pink flowers. $1.05 for 3, $3 for 10, $25 per 100.

TUNICA

*Tunica saxifraga. Saxifrage Tunic Flower. 6 in. Blooms all summer. A dwarf, tufted rock plant with pinkish flowers and most delicate foliage.

*Tiarella cordifolia. Allegheny Foam Flower. 6 to 12 in. May. An elegant plant with fine foliage and small, creamy white, star-shaped flowers in clusters on slender stems. A fine plant for naturalizing.

VERBASCUM • Mullein

The Mulleins are bold, showy plants, very effective in naturalistic planting and for emphatic effects in the wilder part of the garden. Their foliage is striking and makes a beautiful contrast with the brighter leaves of other perennials.

Verbascum densiflorum (thapsiforme). 4 to 6 ft. June and July. The yellow flowers have mahogany centers and are clustered along the much-branched stems.

V. hybridum, Miss Willmott. 6 ft. A very beautiful variety with large, pure white flowers produced on picturesque plants over a long season.

VALERIANA

V. centranthus. See Centranthus ruber.

90
VERBASCUM, continued

V. longifolium pannosum.  *Golden Gate Mullein.* 3 to 4 ft. A very vigorous, woolly plant with tall, showy spikes of sulphur-yellow flowers.

V. olympicum.  *Olympic Mullein.* 6 to 10 ft. July. A stately variety, with large, woolly, silvery white foliage and bright yellow flowers in branching spikes.

V. phoeniceum.  *Purple Mullein.* 2 to 3 ft. Flat rosettes of crinkly leaves from which rise slender spikes of beautiful mauve-purple and rosy violet flowers. Showy and very desirable. $1.05 for 3, $3 for 10, $20 per 100.

VERBENA

Verbena hastata.  *Blue Vervain.* 4 to 6 ft. August and September. This bold, wiry plant has tough, narrow leaves and long, slender spikes of rich, intensely blue-violet flowers. Showy in meadow or wild-garden.

VERONIA • Ironweed

V. noveboracensis.  *Common Ironweed.* 3 to 6 ft. July to September. One of the noblest and showiest of our native flowers. A tough and rather coarse plant with beautiful heads of violet and purple blooms. Contrasts especially well with groups of helianthus.

VERONICA • Speedwell

A large and very interesting family varying from creeping rock plants to husky shrubs. They all do well in rather moist soil and half shade, but prefer the full sunlight. In masses they make a vivid splash of rich blue in their season, and the foliage of all of them is attractive after their flowers are gone.

*Veronica gentianoides.*  *Gentian Speedwell.* 9 to 12 in. May. One of the earliest and most valuable border plants. It has attractive pale blue flowers with darker streaks.

Except where otherwise indicated, all Perennials are 90 cts. for 3, $2.40 for 10, $18 per 100
VERONICA, continued

*V. spuria, Royal Blue. 1 ft. May and June. A bushy plant with a great abundance of bright blue spikes. Very showy. $1.05 for 3, $2.70 for 10.
*V. spuria, True Blue. 10 to 12 in. June to August. A new variety of dense habit with clear, dark blue flowers. $1.05 for 3, $2.70 for 10.
V. virginica. Culver’s Physic. 3 ft. or more. August and September. An erect plant with terminal spikes of pale blue flowers. Good for wild-gardens.
V. virginica alba. 4 ft. A similar form with erect spikes of white flowers.

VINCA

Vinca minor. Common Periwinkle. See Evergreen Shrub Section.

VINCETOXICUM. See Cynanchum

VIOLA

The Violet family is large and contains many useful and showy plants. Besides several distinctive species, we list a choice selection of varieties of the beautiful Violas. These are especially good for edging in rather moist, half-shady places. They are excellent at the edge of rose-beds and just at the edge of low-growing shrubs.

*Viola bosniaca. 4 in. A distinct alpine species with very pretty rosy pink flowers. $1.05 for 3, $3 for 10, $20 per 100.
*V. cornuta. Tufted Pansy. 8 in. April till frost. A hardy variety with large, pale blue flowers of violet form. A fine border plant. For various hybrid varieties, see Tufted Pansies.
*V. cornuta alba. (Type.) White Tufted Pansy. Large, white-flowered variety of above. A constant bloomer.
V. cornuta, Apricot. Deliciously colored flowers of soft apricot throughout, tinted orange at center. A fine bloomer and exceedingly beautiful. 90 cts. for 3, $2.40 for 10, $21 per 100.
*V. cornuta atropurpurea. (Type.) Purple Tufted Pansy. Deep violet-blue flowers with distinct violet fragrance. Blooms all summer. One of the best for border or rock garden.
V. cornuta, Black Knight. Glossy black flowers of striking appearance. This and Apricot are each unique and extremely valuable plants. 90 cts. for 3, $2.40 for 10, $21 per 100.

VIOLA, continued

*V. cornuta, G. Wermig. 8 in. Dark blue flowers on long stems. 90c. for 3, $2.40 for 10, $20 per 100.
V. cucullata. Blue March Violet. 8 in. April and May. Dark blue flowers freely produced on long stems. Fine for planting in shade. 75 cts. for 3, $2.20 for 10, $15 per 100.
V., Jersey Gem. 8 in. An improved variety with showy violet-blue flowers which are produced more freely and over a longer season than most kinds. It is also very resistant to hot weather. $1.05 for 3, $3 for 10, $20 per 100.
V., Jersey Gem, White. A charming pure white sport of the popular Jersey Gem, with the same profusion and perennial habit. $1.05 for 3, $3 for 10.
V. odorata, Gov. Herrick. 3 to 6 in. April to June. Fine, large flowers of clear blue, moderately fragrant.
V. odorata, Single Russian. Sweet Violet. 8 to 10 in. May to October. Fine flowers of rich fragrance produced at intervals all summer.
V. odorata, Double Russian. A lovely double form of the preceding. Flowers large and richly fragrant. $1.20 for 3, $3 for 10, $24 per 100.
*V. pedata. Bird’s-foot Violet. 6 in. One of the best wild flowers and one of the first to bloom. Deep purple flowers and fine-cut leaves.

Tufted Pansies (Viola cornuta)
The following varieties of Tufted Pansies are the result of hybridizing Viola cornuta with other species. They are somewhat showier than the straight Cornuta varieties but generally less compact in habit.
75 cts. for 3 of one kind, $2.20 for 10, $15 per 100
Blue Perfection. Mauve, yellow eye.
Lutea. Golden yellow.
Mauve Queen. Fine reddish violet.
Papilio. Similar to Cornuta in color but larger and more wavy.

YUCCA

*Yucca filamentosa. Common Yucca. 4 to 5 ft. June and July. Very ornamental, sword-like foliage and tall spikes of fragrant, drooping, bell-shaped, creamy white flowers. A showy landscape plant for bold effects. 2-yr. plants, 90 cts. for 3, $2.40 for 10, $18 per 100; 3-yr. plants, $1.05 for 3, $3 for 10, $20 per 100.

Yucca filamentosa is a fine and stately plant for formal masses
FRUIT TREES

APPELES

Standard Apples
The trees we offer have all been inspected for trueness of name, although not all individually certified.

2-yr. trees, $1 each, $9 for 10, $85 per 100

Baldwin. Famous variety which originated near Boston about 1740. Yellow fruits almost completely overlaid with dark red; very crisp, snappy flavor; good for eating and cooking—keeps long and ships well.

Cortland. A fine new bright red variety resembling the famous McIntosh Red, with the same fine flavor, but keeps in fine condition until late in the winter.

Delicious. Very popular autumn and early winter variety of superb quality. Fruits large, conical and striped red and yellow.

Golden Russet. An ancient English golden brown, long winter-keeping variety of excellent quality.

Gravenstein. A delicious red and yellow autumn variety of superb cooking quality.

McIntosh Red. Large, firm, well-flavored variety of bright red, for autumn and early winter use.

Porter. A fine eating and cooking Apple of bright yellow, tinged with red, for autumn and early winter use. Originated in Massachusetts about 1800.

Rhode Island Greening. Very popular, high-grade, midwinter Apple, both for cooking and dessert. Fruits green and yellow.

Roxbury Russet. Similar to Golden Russet but a little larger, less acid in flavor, and a longer keeper.

Stayman’s Winesap. A handsome late winter variety of excellent cooking quality and well liked everywhere.

Certified Apples
Our 3-year and 4-year Apple Trees have all been certified individually as to trueness of name by Prof. J. K. Shaw, of the Massachusetts Agricultural College.

3-yr. trees, $1.50 each, $13.50 for 10

Baldwin. Described above.

Delicious. Described above.

Fameuse. From October until midwinter a splendid bright red eating Apple of delicious flavor and attractive appearance.

Golden Sweet. Prized for family use in late summer and autumn; very sweet and tender.

Gravenstein. Described above.

McIntosh Red. Described above.

Northern Spy. Very large red and yellow striped fruits of rich juicy quality. One of the best midwinter Apples grown for eating and cooking.

Red Astrachan. Described above.

Rhode Island Greening. Described above.

Roxbury Russet. Described above.

Stayman’s Winesap. Described above.

Tolman Sweet. Small uniform fruit of firm quality, popular for culinary use in late autumn and early winter.

Yellow Transparent. Bright greenish yellow, early summer Apple of good quality for eating and cooking.

Dwarf Apples
2-yr. trees, $1.25 each, $11 for 10
See description under Standard and Certified Apples.

Baldwin

Delicious

McIntosh Red

Red Astrachan

Rhode Island Greening

Yellow Transparent

Crab-Apples
2-yr. trees, $1 each, $9 for 10

Hyslop. Dark red or purplish fruits. One of the best-known Crabs. Late September and October.

Martha. Large, clear yellow tinged red; crisp, juicy and excellent flavor. September to November.

Transcendent. Beautiful red and gold fruits of high quality in August and September.

CHERRIES
2-yr. trees, $1.50 each, $14 for 10

Governor Wood. Handsome, yellow-white, sweet fruits of the best flavor. Excellent for home use.

Napoleon Bigarreau. The largest white sweet Cherry. Beautiful fruits of excellent flavor.

Windsor. A firm, free-bearing, dark maroon fruit of excellent quality.

Yellow Spanish. The oldest and one of the best with red and yellow sweet Cherries of superb quality.

PEACHES
1-yr. trees, 75 cts. each, $6 for 10, $50 per 100

Belle of Georgia. Very beautiful fruit of fair quality, maturing in midseason.

Champion. A most delicious white-fleshed Peach for home use. Early midseason.

Crawford Early. This delicious early golden yellow variety is of wonderful quality, but an erratic bearer.

Crawford Late. The finest quality of all American yellow Peaches. Late-ripening.

Elberta. Most popular of all Peaches for its keeping and marketing qualities. Midseason.

J. H. Hale. A splendid new sort, better than Elberta in size, earliness, and flavor.

Planting and Care

The Time to Plant

The great bulk of planting is done in spring—the earlier, the better. Many herbaceous perennials, and most shrubs, fruit trees, and shade trees, are successfully planted at that time. Evergreens, however, are best moved in early autumn, before the middle of October. Autumn planting is also recommended for shrubs, deciduous trees, and roses, particularly the hardy climbing roses and the shrubby types. Perennials may be planted in September, giving them time to become established before winter.

How to Plant

To a person not experienced in planting trees, it seems quite a task, but in reality it is not difficult. More plants are killed by intended kindness than by willful neglect. Some people are so fussy in planting that they needlessly consume a great deal of time setting a single tree, while there are others drying up awaiting their turn. Do not dig the holes until the plants are on the ground and ready to be put in. A fresh hole for every plant. Plants must not be allowed to remain on top of the ground in the sun, but must be taken one by one from the boxes, or all at one time, and heeled into the ground properly, to be removed as wanted for planting. Dig the holes sufficiently large so that the roots may spread out laterally in their natural position without cramping. Do not dig the holes too deep or too shallow—the collar on the plant will indicate how deeply it was planted in the ground before it was taken up.

Set it about one inch deeper. Use only well-pulverized loam in filling in around the roots. No sods or manure should be used under any circumstances. Shake the soil in gradually and jostle it into the tree or plant until every crevice is filled and no air-chambers left. In case of trees that are too large to be jostled, it is often necessary to tamp the dirt with a hoe handle or other smooth stick again and the second time trodden. Do not be afraid of making the ground too firm around the roots. The final filling should be left without treading. When trees or shrubs are planted in this way, there is little danger of their dying.

Puddling

In case it is very dry, dip the roots into a thick mud paste before planting. This is known as "puddling" the roots. If the season is wet, it is not necessary.

Mulching

We strongly recommend mulching freshly planted trees and shrubs with manure. It conserves moisture, furnishes food for the plants, and renders watering unnecessary except in unusually dry periods.

Formulas for Spraying

Formulas can be had at all of the Agricultural Experiment Stations throughout the United States, and bulletins containing the most efficient and up-to-date methods of applying the same.

Planting Evergreens

It is no more difficult to plant evergreens than deciduous trees, but extra care must be taken that the roots are not allowed to become dry. A few special hints are given in the section of this catalogue devoted to them.

How to Lay Out an Estate

First of all, look at the place in its entirety, as you look upon a picture that you are about to frame, and seek to produce the same effect with planting as the frame produces upon the picture. Arrange the planting so that it will balance, not too heavy at one place and too light at another. Don't scatter shrubs all over the place. If the estate is large, consult a landscape architect. It will save you money. If you don't know where to find one, write to us, and we will put you in touch with a thoroughly reliable architect, as we know scores of them.

If the house is set high on its foundation, make a planting on both sides of the front door, to give the entrance a setting. Arrange a planting at the corners and along the outer sides. On the lawn, set a few ornamental trees, deciduous and evergreen, to give character and dignity to the place; but miscellaneous shrubs scattered aimlessly over the place give neither character nor dignity.

Heights must be taken into account in selecting perennials. Arrange them to have something in bloom continuously through the season. This can be done. Last of all, take into account foliage effects and autumn tintings. Never plant hybrid tea roses on the front lawn; they should be planted in the rear, in beds, not scattered about, one here and one there.

A Final Word About Evergreens

Both broad and narrow-leaved evergreens are being planted more and more, because they give a warm, comfortable appearance in the winter and beauty in the summer. Narrow-leaved evergreens, spruces, firs, hemlocks, etc., are known as conifers. Many are too large for small estates, but we have for years been getting together a collection of dwarf evergreens that never assume large proportions, but become more and more beautiful with age, never becoming ragged and unsightly.

We reserve the right to change shipping instructions from Parcel Post to Express when we consider it best (Over)
General Directions to Customers

PLEASE READ CAREFULLY BEFORE ORDERING

Order Early. Do not delay until the last moment before sending in your order. The reason is apparent. It is to our mutual advantage that you order early.

How to Order. All orders should be written plainly (this will insure against mistakes), stating the method of transit, whether by express, freight, parcel post, or truck. Write plainly the post office, express, or freight stations, as the case may be, and sign your name plainly.

Packing and Shipping Directions. All trees and plants are labeled and carefully packed and delivered to the forwarders here at North Abington at prices published semi-annually and which will be furnished to all requesting them. If no instructions as to method of shipment are given, we shall use our best judgment. On account of the perishable nature of all nursery stock, we recommend that all small orders go by express. All evergreens are lifted with a ball of earth and are carefully burlapped, and can be so packed as to go safely by freight. But all herbaceous plants should be sent by express and never by freight except in carload lots. In all cases, the stock when it has been packed and delivered to the forwarder, is at the purchaser's risk, and should loss occur by delay in transit or accident by the forwarders, they and not we must be held responsible.

Terms. Our terms are cash, unless by special agreement. Charge accounts may be opened upon receipt of the names of two or more parties with whom the customer has credit relations, or by sending us bank or trade references, allowing us time for investigation. We can ship by express C. O. D. when desired, with charges for collection added to the bill—provided 20 per cent of the amount of the order accompanies the same as a guarantee. All accounts unpaid after the due date will be subject to sight draft without further notice.

Claims. Claims for reductions must be made immediately upon receipt of the goods. On account of weather and soil conditions and after-treatment it would not be possible for us to give any guarantee that the plants will grow. Neither should we be held responsible for errors or delinquencies of the forwarders.

Prices. Quality and not price only should be the guiding factor in purchasing nursery products. Cheap nursery stock is dear at any price. Our prices are not cheap; neither is our stock. Our prices are reasonable when quality and service are considered and are f. o. b. Nurseries.

Shipping Season. Our spring shipping season begins about March 25 and continues until the last of May. In the fall we begin shipping with evergreens and perennials in August, deciduous trees and shrubs the last of September, and continue shipping until the ground freezes up for winter.

Non-Guarantee. We give no warranty, expressed or implied, as to quality, description, productive ness of any nursery stock that we sell. The only guarantee that we make is that our stock is alive at time of shipment and true to name. No complaints will be considered that are not made within ten days after receipt of order. Any stock ordered from this catalogue, found untrue to name, will be cheerfully replaced at the first favorable opportunity for planting, after it has been found not as ordered.

Location of Our Nurseries. The Bay State Nurseries are located in North Abington, Mass., 18 miles south of Boston, on the N. Y., N. H. & H. R. R., half way from Boston to Plymouth. Trains leave the South Station at frequent intervals during the day. Visitors are always welcome. When notified, we meet visitors at the station with an automobile, and take them to the office.

Quick Transportation to Boston, New York, and the West. Our nurseries are so located that consignments arrive in Boston and New York the morning after the shipment is made. Shipments leaving here at noon for New York and points beyond arrive in New York the following morning. Shipments for Boston and points beyond, leaving here in the evening, arrive in Boston the following morning.

Inspector's Certificate Accompanies Every Shipment
